

BAKER'S HEAR SHAW

Secretary of the Treasury Addresses Ohio Financiers at Cleveland.

MORE ELASTIC CURRENCY SYSTEM NEEDED

Volume Falls to Respond to Changing Needs of Seasons and Localities.

GLARING DEFECT AT A VITAL POINT

Country Frequently on Verge of Paucity of Money.

ADVISES MORE BANK CIRCULATION

Emergency Notes to Be Printed and Held Ready for Issue in Certain Conditions Under Certain Safeguards.

CLIVELAND, Sept. 28.—

The address of Secretary of the Treasury Leslie M. Shaw was the feature of the morning session today of the convention of the Ohio Bankers' association. He argued that a more elastic currency system should be adopted. Mr. Shaw said in part:

The fact, and I think it is a fact, that the United States has the best currency system in the world does not imply that the currency system of the United States is perfect or that it cannot be improved. It is established on the only safe basis known to man—gold and silver.

It is the most convenient system in the world because it is constructed on the gold and silver basis. It is not necessary to carry a lightning calculator in order to make change.

The fact, and I think it is a fact, that the United States has the best currency system in the world does not imply that the currency system of the United States is perfect or that it cannot be improved.

Now, what is the remedy? Shall it be a fiat currency? In the popular conception of the term, I answer no.

The fiat currency system is not understood. It is a system of money that we must not have. Fiat currency as commonly understood is a system of money that we must not have.

Now, what is the remedy? Shall it be a fiat currency? In the popular conception of the term, I answer no.

It is said that the court advocates peace with the coalition.
