President of Common Council Indicted on Twenty Counts.

GRAND JURY MAKES ITS FINAL REPORT

Says City and County Offices Are Honeycombed with Corruption and Vice is Regularly Organized.

MILWAUKEE, Sept. 30.—Cornelius L. Corcoran, the president of the common council of this city, together with a former alderman and two private citizens, were indicted by the grand jury in its final sitting, which ended tonight at 10 o'clock.

Corcoran in the only capias issued for his arrest is charged with selling his own city statute which is a violation of city ordinance.

The number of indictments returned in the final sitting was twenty-four, involving four persons as follows:

Corcoran, president of the common council, twenty counts.

Fred C. Schultz, newspaper reporter, one indictment.

Frank C. Klode, president of a local furniture company, one indictment, perjury.

William Murphy, former alderman, two indictments, perjury.

The total number of indictments returned since the jury convened, including the first batch, will approximate nearly 150 and will affect about forty individuals.

In its report on the labors of the summer the grand jury took occasion to say that its investigation had developed a most surprising state of affairs, "vice and crime being regularly organized and fostered."

The report states that the administration of the sheriff's office during the last six years has been investigated and that it has been found that after that office was placed on a salary basis a system of fee taking grew up at variance with the meaning of the statute.

It recommends that this fee taking be still further scrutinized and that the county board take steps to stop this form of grafting.

Many ways in which the sheriff's office profits from these fees are mentioned. Bribery, the report says, is an everyday affair.

County offices should be investigated. The county clerk should not get fees, but does, and the practice should be stopped at once.

The recent raid upon gambling houses and prosecution of the keepers and inmates thereof by the district attorney's office discloses that in the city of Milwaukee there have been for years at least eight fully equipped wide open gambling houses.

The investigation discloses, the report says, that eight gambling houses in connection with the French authorities in connection with the recent collapse of the McCaddon circuit in France, Mr. McCaddon will be brought to the Bow street court here for extradition proceedings.

After a search of nearly twenty-four hours the police now express the opinion that the druggist, who is wanted in connection with the suit case, has left the city without leaving the slightest clue as to his whereabouts.

TENTH WEEK OF FEVER FIGHT

Plague is Slowly Abating in New Orleans, but There Are Many New Cases in Country.

NEW ORLEANS, Sept. 30.—Report of yellow fever situation to 5 p. m.:

New cases 21

Total to date 1,009

Deaths 109

Total 1,118

New food 11

Under treatment 259

Discharged 1,572

Reports from country districts show forty-four.

A terrific rainstorm, that temporarily put many streets under water, descended on the city today, but as the water was speedily carried off by the drainage machines there was no interruption of the work of either doctors or inspectors.

The death list was again a source of gratification, pointing unmistakably to the fact that the type of fever is exceedingly mild.

Today completed the tenth week of the fight against the disease. With the fever practically whipped, conferences are now proceeding in connection with the establishment of a permanent hospital, by which it is hoped to avoid any further recurrence of yellow fever in epidemic form.

Following the example of Havana, the fundamental aid of the promoters is to secure a site

fixed by the Typographical union for enforcing its demands for an eight-hour day. It is estimated that there will be about 700 men out in both cities.

When Dr. O'Doherty stood for the first time as parliamentary candidate for Brisbane he was called away on the evening of polling day to an urgent case some distance outside the city. On his return he met some horsemen coming from Brisbane. In response to his inquiry as to the latest news from the polling places and the question "who's in?" he received the gratifying if somewhat ungracious reply: "That damned old rebel, O'Doherty."

GREAT LOCKOUT IN BERLIN

Three Electrical Companies Close the Gates Against 33,000 Workmen.

BERLIN, Sept. 30.—A lockout in three of the greatest electrical companies in Berlin began this afternoon. It affects all the factories of the Allgemeine, the Siemens-Halske and the Siemens-Schuckert companies except one lamp factory, and throws about 33,000 workmen out of employment.

As yet the trouble has not affected the entire electrical industry, but it shows signs of spreading. The employees of the Berlin electrical works, which generates nearly all the electricity consumed for power and traction purposes in Berlin, met this evening to consider a sympathetic strike, but deferred action until Sunday night in order to await the result of a conference to be held Sunday morning between the three companies affected and the employees.

The conference will be presided over by Herr von Schultz, president of the government arbitration bureau, but will have no official character, as the companies refuse to participate in the appeal for arbitration. They agreed, however, to meet the labor representatives in conference with Herr von Schultz presiding. He is an expert in settling labor difficulties and therefore it is hoped he will succeed in stopping the present trouble.
