STEADIES WHEAT AT HIGHER PRICES

STEADIES WHEAT AT NEW YURK, Oct. 2—The course of today's money market justified last week's speculative confidence that the tone would relax after the special requirements from the close of last week had been met. These requirements included those for the turn of the month and for the quarter and also for the large syndicate transactions which were put through. Syndicate payments on the large railroad bond issues were evidently re-deposited immediately, and became available in today's money market. Therefore instead of Friday's grates for call loans above 6 per cent and up to 7 per cent, there was only a momentary demand today at 8 per cent, and the free offerings carried the rate down to 5 per cent. In response to this prices of securities were inclined to advance.

Efforts to awaken any animation in the speculation, however, proved montly abortive. Movements of any extent were confined to industrial stocks of little prominence and to a few railroad stocks which have been the subject of pool operations for a long time past. While the action of the money market lessened anxiety regarding any immediate stringency and all so the news was calculated to uphoid confidence in the solid foundation of stocks, it was felt that actual ease in money is not to be hoped for at once. The early reports of additional gold engagements in London were regarded exaggerated, but authoritative admissions justified the conclusion that gold had been secured there. This is enough to prove that the advance in the Bank of England discount rate was not to make an effective barrier to the securing of further gold for New York. Septicien over the showing of the cash gain in the Saturday bank statement continued unallayed and the ability of the clearinghouse institution to affect another such showing in face of the tide of the clearinghouse institution to affect another such showing in face of the tide of the clearinghouse institution to affect another such showing in face of the tide of the clearinghouse institution to affect another such showing in face of

Foreign Financial.

LONDON, Oct. 2.—The large requirements of money in the market today were met, bankers being free lenders with the month turn. Although repayments are due to the Bank of England in the next two days, the market will be well supplied by government distribution of dividends. In the meantime the demand for bar gold for the continent and America continues. Discounts hardened. Trading on the Stock exchange opened quiet and became rather more active with the cessation of the liquidation in mines. Consols were steady. Americans improved in response to New York, mostly to a fraction over parity. Union Pacific and United States Steel were the features. Trading was fairly active and prices closed quietly steady. Kaffirs were buoyant on Paris buying. Russians were maintained, chartered leading, Japanese imperial 6s of 1904 were quoted at 105½.

Wool Market.

BOSTON. Oct. 2—WOOL.—The Commercial Bulletin says of the wool market: The strength of this market has been intensified by the position of the London auctions, which closed September 27. Trading has been strong and with a general advance of 5 per cent. Sales of territory wools, principally in original bags, have taken place in 25,000 to 150,000 pound lots, with occasional transfers of 100,000 pound lots. Business, as a whole, thas been comparatively quiet, although there is more inquiry and call for sample hags of territories, as well as feeces. Dealers feel that trade will follow in the course of a week or ten days. Quarters and has have the call in combing wool and half-bloods in clothing. Scource wools are also meeting with demand. Texas and California wools are quiet, while pulled wools have stiffened here in sympathy with their strong position at Liverpool. The woolen mills in some instances are receiving more orders, having turned to the manufacture of finer woolens, which have the appearance of wool from Boston to date, from December, 28, 1994, according to the same authority, are 181,897,115 pounds, against 136,288,535 pounds for the same period last year.

Coffee Market.

NEW TORK, Oct 2—COFFEE—Market for futures opened steady at unchanged prices to an advance of 5 points, in response to steady cables and moderate interior Santos receipts. Scattered liquidation eased the near months off to a net decline of 5 points during the middle seasion, but later the market railied on predictions for a builish visible supply statement and the close was steady, net unchanged to 10 points higher. Sales were reported of 34.250 bags, including November at 7.00c; December, 7.007.15c; March, 7.3067.40c; July, 7.5627.60c; August, 7.56c; September, 7.6027.70c. Spot, quiet; No. 7 Rio, \$11-16c.

WHEAT

Weather conditions this fall have been ideal so

Weather conditions this fall have been ideal so far for shock threshing and movement of Wheat to market. The occasional showers which have been experienced have helped rather than hurt the Wheat itself, as in each case they were followed by clear, sunny weather. Country elevators all swer the Northwest are jammed juil of new Wheat, and the volume of the crop is causing real embarrasament in many sections.

Farmers are building cribs for temperary accommodation of their grain in several important districts, and instances are pointed out where the new Wheat is allowed to remain on the ground just as it comes from the thresher because of the impossibility of handling it with present equipment. Providentially, the weather has been beautifully clear and no damage has resulted from this action. The shock threshing has been generally completed.

While the country elevators are taxed to their capacity, the big grain storage houses at market centers are still able to handle all the grain the railroads can hand, but the roads are all swamped with the flood of grain, and miles of cars now loaded and ready are waiting power to puil them to market. We think, that before all this grain is moved, prices will decline enough to make free gurchases profitable.
