Government Witness in Land Fencing Case Appeals to Attorney Baxter.

Say Hamilton's Life is Not in Dange and that Trouble Has No Connec-

tion with Land Fencing Matters.

United States District Attorney Baxter received a rush telegram shortly before noon Tuesday from O. F. Hamilton, a lawyer at Mullen, Neb., asking for immediate relief on the part of the government from the hands of a mob. The telegram is very brief and is as follows: MULLEN, Neb., Oct. 3-Office smashed;

life threatened; mob signs of execution. Relief. O. F. HAMILTON. There is considerable significance con nected with the plea for help from the ilton was the principal witness against the cattlemen in the recent illegal fence cases filed in the United States circuit court in this city, which embraces over 100,000 acres of piblic lands in Hooker county.

District Attorney Baxter has wired Governor Mickey for assistance in the matter and has also asked the assistance of the officials of Hooker county for the protec tion of Hamilton.

Mullen is the county seat of Hooker county and is in the center of the cattle country, midway between Thedford and Hyannis.

Governor Will Act at Once. District Attorney Baxter had a talk with Governor Mickey over the telephone and the governor said he would take immediate steps for the protection of Hamilton. A militia company is at Broken Bow that may be sent to Mullen if the emergency

demands. Judge Baxter said: "Hamilton has been threatened with personal violence before for the active part he took in the cattle fencing cases and he asked that he be given government protection. Had he been under direct subpoens from the government we could have acted at once, but as the subpoena has not yet been served by the United States marshal we shall have to look to the state authorities for his protection.'

Local View of Case. MULLIN, Neb., Oct. 3 .- (Special Telegram.)-Reports of attempted violence to

O. F. Hamilton, government witness in land cases, are somewhat exaggerated The general sentiment in this community is that threats were made more on account sonal violence was committed. Parties unidentified broke the windows in his office and posted notices warning him to leave town by October 1. Similar threats were openly made several months ago, prior to the government agents commencing operations in this vicinity.

Hamilton is an attorney and it is charged his object is to stir up trouble in order to the resulting attorney fees. It is also said his record before coming here is bad as being the value of the booty. in this repect. Hamilton maintains an office with a justice of the peace. Hamilton's cases are called before the latter always. The talk has been for a long time the combination was bad and ought to be stopped.

These opinions are commonly supposed to have started the recent trouble, and not land matters. As a government witness no one fears what he will do, as he has taken out homestead papers himself and does not reside thereon. The people of Hooker county are law-abiding and extremely peaceful for a western community No trouble was known in this vicinity until Hamilton came.

A good many fences on government land have already been taken down and the general sentiment seems the balance are willing to take them down. No intimidation of settlers in this part of the Sand Hills has ever been reported,

Hamilton and his partner, F. M. Cude bec, the justice of the peace, also have been very active in the unpopular side of the recent fight in connection with county school matters, and this, in connection with his practices as an attorney, have excited public sentiment against them. They were held in the same estimation of the public before the land agents came here as after their departure.

Governor Acts Promptly.

Governor Mickey received a telephone message from United States Attorney Baxter informing him that the cattlemen of Hooker county were threatening Attorney Hamilton, who is in the employ of the federal authorities to assist in the fencing cases. Covernor Nickey took prompt steps to secure the enforcement of the law, wiring Sheriff Rector and the county attorney to take immediate action for the protection of the attorney and the arrest of those persons who have been guilty of intimidation. No request has been made for troops, but it has been reported that they he asked for. One report indicated that house had been fired, but the governor had no such information. In the event that troops are needed to cope with the trouble order out a company on short notice, prob-

It is stated that Mr. Baxter has begur preparations for a number of prosecutions for illegal fencing, and it is believed that he had employed Hamilton to assist in securing evidence. Hamilton is at Mullen

Hooker county. Governor Mickey sent the following mes-

sage to Sheriff Rector: You are hereby ordered to furnish protection to Mr. Hamilton, who I am informed by United States Attorney Baxter has been threatened with violence. Wire me at once condition of affairs.

To the county attorney, whose name h does not know, he sent the following dispatch, which was forwarded to Thedford, where that official residee:

County Attorney Hooker County: United States Attorney Baxter Informs me that violence is threatened Mr. Hamilton. See that all persons implicated are arrested and prosecuted.

ST. What Officials Say.

Wells H. Blodgett, general solicitor, and the Wabash, both declined to discuss the matter without first throughly acquainting themselves with its details.

"This suit will make little difference in the outcome of the election," said Mr. Blodgett. 'It seems to be the custom for one road to hold bonds or stocks of general custom and I can't see how it be pushed against Leonard, but that he can be classed as a combination in restraint of trade."

Mr. Pryor said: "The stock transfer books are now closed until after the election, October 10. On the 11th the new list of stock and debenture bondholders will be given out. The debenture bonds of the Wabash have voting power the same as stock, but how they are distributed

"It is very remarkable that Mr. Ramse should suddenly become aware of the fact have been taken across the Atlantic. The that competition in traffic between the Wabash and the Missouri Pacific might be stifled as a result of the meeting to be held in Toledo when Mr. Ramsey himself knows that the stock and bonds have been thus voted for the last ten years and there has een no suggestion on his part that competition might be stifled.

Questions Ramsey's Ownership.

"There may also be a question raised at the trial of whether or not Mr. Ramsey actually owns the stock which he claims "Regarding the Iron Mountain there is no allegation in the petition that it is a competing line with either the Missouri Pacific or the Wabash, and as the entire petition is founded upon stifling of competition, there is really no reason for the Iron Mountain to be made a defendant. The only allegation regarding the Iron Mountain is that the Missouri Pacific controls a majority of its stock and it makes no difference whether this is true or not.

"There may be another question as to whether the real purpose of the suit is to prevent the stifling of competition or because Mr. Ramsey fears that if the stock was voted it might prevent him from retaining his position as president of the Wabash. Mr. Ramsey has never before made any complaint and this question only arises when there is a fight on."

Edwin Gould, president of the Cotton Belt road and brother of George J. Gould. who arrived last night to attend the annual to make any statement concerning the suit.

Ground for the Injunction. NEW YORK, Oct. 3.-President Ramsey said that application for the injunction is made on the ground that the Missouri laws prohibit a railroad running through that state from selling, ownership or control of a parallel line. The Missouri Pacific, Mr

craft yesterday within fourteen miles of the Ramsey said, owns \$5,000 shares of Wabash preferred, while the St. Louis, Iron Mour dn & Southern owns \$5,435,000 of Wabash debenture bonds. Asked as to the truth of the report that the Gould holdings of Wabash amount to 40 per cent of the whole, Mr. Ramsey said:

"I doubt very much that George J. Gould and the Gould estate own more than 12 per cent. In fact, I believe that some of the Wabash directors hold scarcely more than enough stock to qualify them as such. Russels Sage is probably the most notable exception."

Mr. Ramsey expects a decision on application for injunction on Friday. It was announced at the office of George J. Gould that nothing would be said there concerning Joseph Ramsey, jr.'s, statement

to not more than 12 per cent of the whole. NEW BANKING RECORDS MADE Balances in New York Clearing House Exceed Any in Its

CHADWICK CASE ON CALL Heads the Docket of United States Court of Appenls at Cincinnati

CINCINNATI, Oct. 3.-The petition for a writ of error for Mrs. Cassle L. Chadwick, charged with bank wrecking and convicted at Cleveland of conspiracy to defraud, was at the head of the calendar of the United States court of appeals, whose fall term opened here today. The record of the case is one of the most voluminous ever brought into this court, comprising 316 printed pages and giving in detail all the steps taken in the case.

Mrs. Chadwick was convicted on sever of the fifteen counts in the indictment and her attorneys, Dawley and Wing, brought the case to the court of appeals on a writ of error, alleging that the trial court had erred in various particulars, that the alleged offense is not a crime under any statute of the United States, and petitioning for a new trial. This case has probably attracted as wide attention as any other that have been in the courts. Large sums of money were said to have been secured by Mrs. Chadwick on insufficient security from the Oberlin (O.) bank and other institutions. The wrecking of the Oberlin bank was such a severe blow to its president, C. W. Beckwith, that he died the fraud. Mrs. Chadwick is now in the Cuyahoga county jail awaiting the deappeals. If the decision is against her she will at once begin her sentence of ten years in the Ohio penitentiary and a prosecution in the state courts on other indictments is threatened in case she gets clear of the charges made in the federal court indictments.

Judges Lurton, Severance and Richards of Mrs. Chadwick. District Attorney J. J. Sullivan of Cleveland was present to contest the petition, maintaining the validity meeting of the Cotton Belt, today declined of the trial and conviction of Mrs. Chadwick.

SUIT TO COMPEL RESTITUTION Permission Asked to Bring Action Against McCall and Perkins Personally.

NEW YORK, Oct. 3.-Permission to begin suit against John A. McCall, president, and George W. Perkins, vice president of the New York Life Insurance company, for the restitution of \$150,000 contributed to republican campaign funds was asked of Attorney General Mayer today by William Hephurn Russell, acting as attorney for several policy holders. Under the law of this state the sanction of the attorney gen eral is required in order to bring a suit of this character, Mr. Russell said the suit would be based on the contention that the money paid to the national republican smmittee was expended by McCall and Perkins without corporate authority. He declared that he intended also to sue for the restitution of \$233,000, which Mr. McCall that the Gould holdings of Wabash amount testified had been placed in the hands of Andrew Hamilton of Albany.
