**ON THE IRRIGATED FARMS**  
In the valleys of the Grand, Gunnison, North Fork and Roaring Fork Rivers and in the San Luis and Uncompahgre Valleys, of Colorado, and the Farmington district of New Mexico—farming, stockraising and fruit growing are carried on in a way that is a revelation to the farmer in the east. There is no other region that offers better advantages than western Colorado—a land of blue skies and sunshine, with a temperate and even climate, where the arid desert needs but to be tilled and watered in order to verify "blossom as the rose." Several illustrated publications, giving valuable information in regard to the agricultural horticultural and live stock interests of this great western section, have been prepared by the DENVER & RIO GRANDE RAILROAD, and can be obtained by addressing  
S. K. HOOPER, G. P. & T. A., Denver, Colo.
