RUSS AND JAPANESE MEET

Baron Rosen and Minister Takahira Hold Conference at Washington.

ARRANGE FOR EXCHANGE OF RATIFICATION

Ceremony Will Take Place in Washington Within a Few Weeks, Probably in the White House.

WASHINGTON, Oct. 4.—Ratifications of the treaty of Portsmouth will be exchanged at Washington between Baron Rosen, the Russian ambassador, and Mr. Takahira, the Japanese minister, as soon as these important documents are received from St. Petersburg and Tokyo. The ratifications will contain the French and English texts of the treaty. This was decided at a conference today between Baron Rosen and Mr. Takahira which began in the Russian ambassador's apartments and was concluded at the State department. Mr. Takahira called on Baron Rosen this morning to find out from him the usual form of the Russian ratification. In order that the minister might inspect a copy they went to the State department, where Mr. Ade, the third assistant secretary of state, received them and showed them the ratification of the Russian-American extradition treaty. Mr. Takahira will inform his government fully on the subject so that the ratifications may conform. The special plenipotentiaries enabling them to exchange ratifications will be identical in scope.

Ratifications Will Come Soon.

The approval of the treaty by the privy council at Tokyo, in effect, settles the convention and it is expected that the formality of the emperor's signature will follow shortly. As the treaty becomes effective as soon as ratified the exchange of ratification is only a formality. Japan will be ready to exchange as soon as the emperor's signature is affixed, as the formal ratification can be prepared and delivered at the location here. It is not believed that the Russian ratification will be long delayed.

Diplomatic relations between the belligerents have been practically resumed at Washington. Returning the courtesy paid him in New York by Baron Rosen, who called several times on the Japanese plenipotentiaries, Mr. Takahira made his call this morning personally as well as official and the two envoys have corresponded frequently since the treaty was signed.

No arrangements have been concluded for the ceremony of ratifications and they probably will be an even more simple ceremony than the signing of the treaty at Portsmouth. The chief difference between the two ceremonies will be the presence of President Roosevelt, who will be invited by the two envoys to witness the exchange. It is probable that the president will place the White House at the disposal of the envoys on this occasion.

Twenty Passes Jay Council.

TOKIO, Oct. 4.—The peace treaty passed the privy council today.

A prolonged meeting of the privy council was held this morning, which was not concluded at noon. As the treaty met with the approval of the council it will be immediately ratified.

DEATH RECORD.

Rev. George A. Loeb, 44.—(Special).—Rev. George A. Loeb died at the parochial residence in Sutton Monday morning, October 3. He had been sick for about a year and a half and suffered a great deal, but passed away very quietly. Father Loeb was born in Odell, Ill., September 3, 1861. He was always anxious to become a priest, and finally after many financial struggles he was ordained on June 22, 1889. His chief labor was in Texas. He affiliated with the diocese of Dallas and he worked very faithfully for the past six years. His church and parsonage were burned about a year and a half ago and the heroic efforts he made to save the contents, especially the altar and sacred vessels, caused him to contract a cold which his weakened constitution could not repel. The work and his delicacy were too much for him, so he left Texas in June and came to Iowa, but not receiving any benefit there he came to Sutton, August 15 last, and has been at the parochial residence since August 21, when he came to see the pastor. He was unable to leave the house, and funeral service was held at the church of the Immaculate Conception, Sutton, Tuesday. The officers of the mass were Father

Successful Men

Such men have always been, and always will be, the ones who make strenuous efforts to get some money ahead.

The first small savings encourages perseverance. Small sums with the addition of semi-annual dividends soon become large sums. Without the first savings, the large sums are never realized.

The best way to accumulate is to resolutely lay by some fixed part of your income, no matter how small the amount. No safer place can be found for such savings than this association, which is paying 6 per cent per annum dividends.

AN ASSURED SUCCESS

The Boston Lunch is Rapidly Becoming the Business and Professional People's Favorite Lunch Place.

Since the opening last Saturday the Boston Lunch has had as large a business as many restaurants do after being established for years. Their clean, airy room, the comfortable chairs and good quality of food are apparently what most of the Omaha people have been waiting for.

Their trade so far has been almost exclusively business and professional ladies and gentlemen. Their location at 1412 Farnam street, seems to have been an ideal selection.

THE VALUE OF CHARCOAL.

Few People Know How Useful It Is in Preserving Health and Beauty.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking, drinking or after eating onions and other odorous vegetables.

Charcoal effectively cleans and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of calvary.

All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges; they are composed of the finest powdered willow charcoal and other harmless antiseptics in tablet form, or rather in the form of large, pleasant-tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is that no possible harm can result from their continued use, but, on the contrary, great benefit.

A Buffalo physician, in speaking of the benefits of charcoal, says: "I advise Stuart's Charcoal Lozenges to all patients suffering from gas in the stomach and bowels, and to clear the complexion and purify the breath, mouth and throat; I also believe the liver is greatly benefited by the daily use of them; they cost but twenty-five cents a box at drug stores, and although in some sense a patent preparation, yet I believe I get more and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets."

ular troops, but apparently the Rifles had the best of it from an artistic attitude in their green full dress and white plumes.

From a martinet's viewpoint the degree and drill teams of the fraternal orders made a remarkable showing. It was not to distinguish them in bearing and carriage from the Port Crook soldiers, and the judges wrangled at the Omaha club for several hours before they agreed on a distribution of prizes. Noticeable among them were the Boys of Woodcraft, who have made a hit everywhere they have gone in their suave uniforms that commanded applause all along the line.

Thirteen women in eoru suits, with white caps, represented Pansy camp of the Royal Neighbors of America. They carried sticks on which fluttered the Ak-Sar-Ben flag. Together with thirty-two nattily dressed girls of the Bohemian Turners and the women on two floats they made up the feminine representation in the procession.

Hoot Moat

Cian Gordon of the Order of Scottish Clans had a oger with the hags to the fore and a handful of the youngest generation of both sexes. Tarian, kilts and bonnets were the costumes worn, and they looked pretty in the sunlight.

Camp Bohemia No. 296 had a well decorated float filled with women in white. On the float of the degree team of the Royal Achates Success lodge of South Omaha rode women, each one wearing a crown. The display was trimmed in purple and gold and the effect was pleasing.

Members of the Traveling Men's Protective association appeared in carriages and automobiles and what they lacked in ornamentation they made up in enthusiasm.

To show how things are done at the Den a big old-fashioned prairie schooner, filled to the limit with heavily armed men, maneuvered its tedious way over imaginary plains, repelling attacks of Indians in war-paint. The guns were equipped to shoot streams of water instead of lead and when the Indians did not attack the people on the sidewalk were used as targets. Mayor Moors was made a special object for the aim of the gunners, but escaped by ducking. Besides the Indians a lot of cowboys made Rome howl.

The parade tapered off with a case of lions and the elephant and tiger from the King's Highway.

SHOUTED UP

In England They Politely Refuse to be Stomach as "Little Mary."

"Little Mary"—I say up there, won't you please quit sending down such a variety of unnatural things to me.

"Here this morning first came down some sticky, pasty material, all starch and only partly cooked. It was wheat or oats and was decorated with milk and sugar.

"Between the unchewed mouthfuls came gulps of coffee, finally a good big drenching of it. Then some bread and a lot of eggs, perhaps it was butter, then some fried eggs and fried meat and more coffee, and some fried cake and syrup. You load things on me as if I could stand everything.

"I try faithfully, but there's no use, I can digest part of it and the balance sour and I simply have to push it along to the liver. He says he's badly overworked now and gets so weak he almost collapses, so he sends the sour mass on down into the intestines to raise gas and trouble of all kinds. We can't help it, and you must either sedate your food with better reason or stand more and more trouble down here. Suppose you try us on some cooked or raw fruit, a little Grape-Nuts and cream, a soft-boiled (not fried) egg, some well-seasoned toast and a cup of Postum. I'll guarantee I will guarantee to make you feel the keen joy of a hearty and well man if you will send those things down to us. There's a reason, but never mind that, try it first and when you find we know what we are talking about, we may be ready to hear the reason."

Tom Fry, Gordon Wattles, Doc Breed and thirty thousand others attended the Highway yesterday. It was another special day for the children, and just 4,435 little folks passed through the stiles at the reduced rates allowed for the younger generation.

It was a genuine treat to witness the parade of the little people as they gambled over the Highway and made the older folks wish they were children again. Next Saturday, until 6 p. m., will be children's day again, and it is the wish of the management that all the little folks of Omaha take advantage of the opportunity.

Yesterday was also a special day for the members of the Knights of Pythias and Macabees, while today will be a special occasion for the Scottish clans and Danish Brotherhood. While members of these various organizations may be lost in the crowds to a certain extent, yet the setting apart of certain days for the various fraternal organizations has not proved a meaningless thing.

Samson sat on a chair last evening at the entrance of the Highway and took occasion to speak of the exhibit at the Douglas County Agricultural association. He said: "I wish to say that myself and the other members of the Board of Governors are highly pleased with this season's exhibits on record as saying it is an exhibit to conjure with. It is a credit to Douglas county and cannot be too highly commended to visitors of the Highway. It would surprise the average citizen of Omaha if he knew the quantity of seeds shipped annually to the Douglas county to all parts of the United States. Those who fail to see the agricultural exhibit now at the Highway are missing an opportunity they cannot afford to pass by."

It would be a waste of time to go into details regarding the crowd of last evening on the Highway. Suffice to say that it was a cosmopolitan crowd in every sense of the word and a good behaved crowd at that. It was the largest crowd of the present season and about 9 o'clock suggested a swarm of bees in a hive. All were happy, all were jolly, all were the best of moods, hearts beat fast and content was thrown in that true American style that characterizes those who dwell within the kingdom of Quivers.

Dimmick's orchestra of fifty-five pieces will furnish the music for the grand ball at the Ak-Sar-Ben den on North Twentieth street Friday evening.

Samson has a number of general admission tickets to the ball that are being sold for 50 cents each.

It is announced that badges have been sent to the maids of honor, ladies in waiting and reception and floor committees of the grand Ak-Sar-Ben ball.

SUPERB WORK OF THE POLICE

Faithless Execution in Task of Handling Hordes.

Notwithstanding the fact that Chief of Police Donahue and a large detail of police were off duty during the parade there was practically no disorder of any kind. Captains Haze and Mostyn had charge of the thousands of people and handled them in a manner that reflected great credit on the police department. It is a matter of record that up to 2:30 p. m. only one arrest occurred incidentally to the festivities and that case was one of drunkenness and disorderly conduct, a mere isolated instance and no criterion of the general conduct of the crowd. Chief of Police Donahue says he
