Iowa Shows No Improvement.

Iowa CITY, Ia., Oct. 4.—[Special Telegram.)—The work of the regulars tonight was about on a par with their work last night. Not a bit of improvement has been shown. The team is all shot to pieces and the size of the score Saturday will depend upon Chicago's mercy. Thus characterized John Chaimers the second scrimmage work of the week. After a hot signal practice the Varsity was sent against the freshmen leam, coached by Reddy Griffith, and for fifteen minutes they appeared to be entirely outclassed. The youngsters made consistent gains around cither end or through the line and the old-fashioned double cross was worked for long gains twice. In both defensive and offensive play the work of the regulars was characterized as rotten by Coach Chaimers. White and Andy Chalmers are both unimproved, though they continue to follow the work of the regulars from the side line.

"It may interest you to know that Egypt is awakening rapidly from its lethargy of centuries and is fast assuming an importance in the eastern world, agriculturally and commercially, that borders on the marvelous. The metamorphosis of Egypt is owing wholly to the completion of the Assouan dam across the Nile, which has been built to conserve the flood waters of the Nile, and the effect has been a complete transformation of the country. The people are prosperous and happy, and just at this time the fall flood season is on and the agricultural outlook is extremely good.

DOCTORS FOR MEN

THERE are thousands of men whose minds are weak and impaired, and whose bodies are unsound and diseased. They suffer from the follies and excesses of youth and experience weakening of their physical, mental and sexual powers. They are weak, nervous, tired, dizzy, languid, despondent and absent minded; have weak aching back, palpitation of the heart, capricious appetits, frightful dreams, a constant fear of impending danger, night losses and day drains, which unfits them for work, study, business or marriage. Others are suffering from private diseases, such as Gonorrhoea, Gleet, Stricture, Varicoccle, Enlarged Prostrate or Blood Poison (Syphilis).

Are you one of these men? Are you struggling under the burden of a secret weakness, which is a slow but sure drain on your strength and vitality? In your present condition are you fit to hold a responsible position? Can anybody rely on you or can you rely on yourself? Is your body almost wrecked and your brain in a whirl? It is terrible to be in this condition, but it is still worse to allow it to progress and become more aggravated, for it will then fill your whole life with failure, misery and woe. There are thousands of ruined and cheerless homes, filled with discontent and unhappiness, lacking in love and companionship, through the sexual weakness and physical impairment of men whose years do not justify such a condition. We have gladdened the hearts of thousands of young and middle aged men who were plunging toward the grave, restoring them to perfect specimens of physical manhood, full of vim, vigor and vitality.
