

NATURE'S ESSENCE

Extracted from the Roots of Native Forest Plants Go Straight Back to Nature for Your Health. There is Your Strength.

Consider your body as an engine which supplies you with all activity of mind and body. Keep the machinery well oiled and it runs smoothly. It does not grow in doing its work. But let the stomach, which is the fire-box to the engine, get out of order and you soon meet with disaster. The products of undigested and decomposing food is poison to the system.

We do not live on what we eat but on what we digest, assimilate, and take up in the blood. The blood in turn feeds the nerves, the heart, and the whole system, and all goes well with it if the blood be kept pure and rich. If not, then the liver, which is the human filter within us, gets clogged up and poisons accumulate in the body from over-eating, over-drinking or hurriedly doing both. The smash-up occurs when the blood is poisoned by the stomach and liver being unable to take care of the over-load. The red flag of danger is thrown out in the shape of eruptions on the skin, or in nervousness and sleeplessness, the sufferer becoming blue, despondent and irritable, because the nerves lack nourishment and are starved.

Nature's laws are perfect if only we obey them, but disease follows disobedience. Go straight to Nature for the cure, to the forest, there are mysteries there, some of which we can fashion for you. Take the bark of the Wild-cherry tree, with Mandrake root, Stone root, Queen's root, Bloodroot and Golden Seal root, make a scientific, Glyceric extract of them, with just the right proportions, and you have Dr. Pierce's Golden Medical Discovery. It took Dr. Pierce, with the assistance of two learned chemists and pharmacists, many months of hard work experimenting to perfect this vegetable alkaloid and thereby to give it the greatest efficiency. To make rich red blood, to properly nourish the nerves and the whole body, and cure that lassitude and feeling of weakness and nerve exhaustion. It bears the badge of honesty upon every bottle in the full list of its ingredients, printed in plain English, and it has sold more largely in the past forty years than any other blood purifier and stomach tonic. The refreshing influence of this

extract is like Nature's influence—the blood is bathed in the invigorating tonic which gives life to it and the vital fire of the body burn brighter and their increased activity consumes the waste rubbish which has accumulated in the system.

The "Discovery" cures all skin affections, blotches, pimples, eruptions and boils; heals old sores, or ulcers, "white swellings," scrofulous affections and kindred ailments.

The "Golden Medical Discovery" is just the tissue builder and tonic you require when recovering from a hard cold, grip, pneumonia or a long siege of fever or other prostrating disease. No matter how strong the constitution, our stomach and liver are apt to be "out of kilter" occasionally. In consequence our blood is disordered, for the stomach is the laboratory for the constant manufacture of blood.

It is a trite saying that no man is stronger than his stomach. Dr. Pierce's Golden Medical Discovery strengthens the stomach—puts it in shape to make pure, rich blood for the liver and kidneys to expel the poisons from the body and thus cures both liver and kidney troubles. If you take this natural blood purifier and tonic, you will assist your system in manufacturing pure blood. It is the only medicine put up for sale through druggists for like purposes that contains neither alcohol nor harmful drugs, and the only one, every ingredient of which has the professional endorsement of the leading medical writers of this country. Some of these endorsements are published in a little book of extracts from standard medical works and will be sent to any address free, on receipt of request therefor by letter or postal card, addressed to Dr. R. V. Pierce, Buffalo, N. Y. It tells just what Dr. Pierce's medicines are made of. The "Words of Praise" for the several ingredients of which Dr. Pierce's medicines are composed, by leaders in all the several schools of medical practice, and recommending them for the cure of the diseases for which the "Golden Medical Discovery" is advised, should have far more weight with the afflicted than any amount of the so-called "testimonials" so conspicuously flattered before the public by those who are afraid to let the ingredients of which their medicines are composed be known. Bear in mind that the "Golden Medical Discovery" HAS THE BADGE OF HONESTY upon every bottle wrapper, in a full list of its ingredients. Dr. Pierce's Pleasant Pellets cure constipation, invigorate the liver and regulate stomach and bowels.

BOARD REMOVES RAMSEY

Directors of Wabash Railway Declare the Office of President Vacant.

OUSTED OFFICIAL FILES STRONG PROTEST

He Contends that Meeting Was Not Properly Called, but is Overruled and F. A. Delano Elected to Succeed Him.

NEW YORK, Oct. 5.—Joseph Ramsey, Jr., was today removed from the presidency of the Wabash Railroad company at a meeting of the board of directors held in this city. F. A. Delano was elected as his successor. Right directors, including Mr. Ramsey, were present at the meeting. Mr. Ramsey had been engaged in a contest with Mr. Gould for the control of the road. Ramsey, after the meeting, said the reason the meeting had not been properly called was entirely illegal, for the reason that the meeting had not been properly called. He made a protest before the board, saying that the by-laws required five days' notice for a special meeting of the board and that the notices for this meeting were mailed only Wednesday night. His protest was over-ruled, however. President Delano took charge of his office at once. "Mr. Ramsey and I have always been friends hitherto, in the railroad business," said he, "and I do not want to come into this controversy in any way. To Mr. Ramsey's charge about the illegality of the meeting, I can say nothing. I am not a lawyer. But there were several good lawyers on the board at the meeting and I presume that they would not attempt anything illegal. It was the general understanding that this was an adjourned meeting."

The action of the board is regarded as a severe blow to Mr. Ramsey, since he and Mr. Delano have not been on any better terms than Ramsey and George Gould. Ramsey recently sent a most severe and acrimonious letter to Delano on the subject of the latter's statements to the press about what he had done as vice president of the Wabash. The interviews credited to Delano did not come to the attention of Ramsey until he had reached the northern part of Europe on his recent tour abroad. The tone of the letter, however, might have indicated that he had struck the extreme southern part of the continent, for it dealt with Mr. Delano without gloves, taking him to task severely for laying claim to improvements and changes of policy which Ramsey said were his own and not Delano's. Ramsey expressed surprise and disgust that a man in Delano's official position should be so un diplomatic and undignified as to seek to claim credit for something he had not done or trespass upon the sacred functions of the president of a vast railroad corporation. It is not a matter of record, the circumstances under which Mr. Delano and Mr. Ramsey embraced each other on the latter's return from Europe.

The estrangement of relations between Gould and Ramsey is traced back to the latter's aggressive and successful policy in the matter of the Pittsburg terminals establishment. Mr. Gould failed to endorse certain things which Mr. Ramsey did and the two steadily grew apart until the meeting of the board of directors last spring brought the climax. It came in the form of an emphatic request or demand from George J. Gould that the board peremptorily call for the immediate resignation of President Ramsey. This the board failed to do and from its refusal originated the report that Ramsey had more friends on the board than Gould and would ultimately triumph in the final issue.

Somewhat as a compromise measure, however, the board did ask President Ramsey to take a temporary leave of absence, absenting himself until October 1. Ramsey took his vacation in Europe, returning to New York about the middle of September. He and Gould had offices adjoining each other. The day after Ramsey's return both men were in their offices, but "they never spoke as they passed by." Mr. Ramsey expressed the belief after his return that he would be able to secure himself by controlling a majority of the votes of the security holders. It had been thought that in the event of Ramsey's failure to land, Gould himself would be made president. It is a matter of question, therefore, whether Delano's selection is to be considered the "unkind cut of all" or a compromise in deference to Ramsey.

AT THE PLAY HOUSES

"The Runaways" at the Krug. George (Honeyboy) Evans and company in "The Runaways," a musical comedy in two acts, by Addison Burkhardt, music by Raymond Hubbell, staged by Gerald Coventry, under direction of F. Ray Comstock. The principals: General Armour Hardtack, U. S. A., Lieutenant Harting, W. T. Bowman, David B. Daring, Harry Smith, Thomas Little, Joseph J. Jockey, DeFord Pomeroy, a waiter, Charles Wimsatt, Harry Pulver, after roomer, the stage policeman, taken, G. Francis Denton, Swell Sports, Charles Borner, Joseph M. Daring, a comic opera queen, Princess Angicaka, heiress to the throne, Wallace, Margaret Sutherland, Dorothy Hardtack, an army nurse, Carolyn Walker.

Willi Wheeler Daring's Florence Wilson Little Wilson, Francis Cole. A program by... Mills Baker... With George Evans leading the bunch it's a runaway sure enough. This clever little chap made Omaha people forget all about Artie Dunn in the part in about two minutes after he came on the stage, last night at the Krug, and five minutes later he had everybody laughing so that the leader of the orchestra couldn't hear the bass drum. That about tells the story. Evans is as clever as he is cute, and well kept the reputation of being a comedian of the first class. He has another advantage, and that is a fine singing voice. In the part he is equipped with a lot of new songs, which are so arranged as to be most effectively delivered. His reception last night was such as ought to make him feel good all the rest of the week. But "Honey Boy" isn't the whole show. Charlie Cox is a good comedian, as much longer in inches over the common man as Evans is shorter. Both the Bowman's average up well, and Harry Smith isn't slow. Mr. Wallace has a fine tenor voice, and looks good in his uniform. Mona Carrington has been seen here before, and is always a welcome visitor. Margaret Sutherland looks as well as acts the part of Princess Angicaka, and the efforts all are backed up by a brightly lit and a richly furnished stage, ranging all the way from the midjet to the tall and staturesque. Everyone is expected to do something to help the show along, and each seems to be trying to make good. So, then, the "Runaways" is all that has been promised for it, and is worth a visit to the Krug during the stay of the company at the theater.

Last night the opening of the piece was delayed until almost 10 o'clock, waiting for the passage of the parade. When the show did start it was in a packed house, and the enjoyment was surely a tribute to the efforts of the company. It is not likely that a better pleased audience ever sat through a performance at a theater. "The Runaways" will be the bill for the rest of the week, with a matinee Saturday.

Investments in Real Estate. Edward I. Devlin, the real estate manager for the New York Life Insurance company was the first witness today, having been called to conclude his testimony interrupted by the adjournment yesterday. Mr. Devlin's statements as to the real estate holdings of his company in several western states, showed that the net income to about 3 per cent was realized last year on the company's investments in buildings, but he added that it was expected that 4 per cent would be realized this year.

Mr. Devlin testified that an apartment house at Park avenue and Sixty-second street cost the New York Life Insurance company \$1,000,000 and is carried on the company's books at \$400,000. The loss, he said, was due to the administration preceding Mr. McCall's. The office building in Kansas City cost \$1,000,000. It is carried on the books at \$1,200,000 and its net income is \$20,000, or 2 per cent return on the investment. The company charges itself with \$1,200,000 for real estate and is carried on the books at \$600,000 and pays a return of a little under 3 per cent. The company's net income is \$1,200,000 and its net income is \$20,000. All these figures are for the year 1904.

The building at Minneapolis cost \$1,020,000 and pays a return of 2 1/2 per cent. The net income is \$25,000. In St. Paul the building cost \$22,440 and has a net income of \$112, or a little less than 1 per cent.

The Montreal building cost \$113,320 and is carried at \$50,000 and has a net income of \$212, or about 1 1/4 per cent on the actual cost.

Stocks and Bonds Basis. Elements that Guided Mickey and Mortensen in Arriving at Values of Burlington.

Another whirl was taken at the Burlington tax suit Thursday afternoon before Referee Pearsall. Attorney General Norris Brown summoned as witnesses Governor Street, Treasurer Mortensen and R. E. Pollard, tax commissioner of the Burlington. About the same evidence was brought out as has already been shown up in the Union Pacific case. Both Governor Mickey and Treasurer Mortensen testified that they had considered in reaching a final conclusion as members of the Board of Assessment, as to the value of the railroad, the stocks and bonds of the Burlington and the physical property as designated in the statutes. Mr. Pollard furnished some figures for the embellishment of the records, but when \$2,000,000 was the freight rates were higher in Nebraska or in Iowa he said he did not know. Another session will be held Saturday, at which time Attorney General Brown will put some experts on the stand to testify to the value of the railroad. The hearing was held in the office of Charles Green, who appeared for the railroad.

WOMAN IN CLUB AND CHARITY

There was an attendance at the preliminary meeting of the art department of the Woman's club Thursday afternoon at 10 o'clock. It was the first meeting of the department since the reorganization of the club. Mrs. A. W. Jeffers presided. The program consisted of a paper by Mrs. Draper on "The Philosophy of Art" and Mrs. A. W. Jeffers gave an introductory talk on Greek and Roman painting and the beginning of Christian art. The first regular meeting of the department will be held next Thursday at 10 o'clock instead of 10:30 o'clock. "Mosaics" will be the subject and it will be illustrated with a stereopticon. Mrs. A. W. Jeffers will preside.

The social science department of the Woman's club will begin its work next Monday afternoon and the meeting will be followed by a tea party. Mrs. Draper

Smith will be at the head of the department this year and special attention will be given to industrial features.

The year book of the club will not be out for another week and the secretary has requested that all members who expect to be included in it will send in their correct addresses at once.

Mrs. Eva A. Wagner will represent the local chapter of the P. E. O. Sisterhood at the supreme meeting in session at Thornton, Ind. The local chapter is gaining steadily in its membership and will hold its first annual convention next Saturday afternoon at the home of Mrs. Wagner, 2842 Charles street. The meetings will be held semi-monthly at the homes of the members. The year's program has been issued. It is a neat little folder outlining meetings that combine business with the social.

The executive committee of the Nebraska Woman Suffrage association has issued the call for the twenty-eighth annual convention of that organization which will be held at Broken Bow October 19 to 21, inclusive. An invitation to attend is extended to all who believe in the suffrage cause and all who do not. The program for the convention will be issued next week.

OMAHA TO HAVE THE MEETING

Convention of Commercial Clubs Will Be Held Here in February.

Omaha was decided upon yesterday by the executive committee of the State Association of Commercial Clubs as the place for the next annual meeting of the association, which will be held in February, the day to be chosen later. It is expected that the Commercial club of Omaha will follow the lead taken by Fremont last year and give a banquet to the association. The committee condemned the numbering of letter boxes on rural free delivery routes as a scheme to benefit the catalogue houses and as a detriment to the retail trade. Resolutions were passed to this effect, and the secretary was instructed to send copies of them to the Postoffice department at Washington and to the senators and congressmen of Nebraska. Many of the clubs in the association have already protested against the order which permits the numbering of the boxes. That part of the order which allows the postmaster to deliver mail to boxes by number has been temporarily suspended. The object of the association is to see that it is finally abolished.

The committee on the manual for commercial clubs appointed at Fremont last winter, reported that it would have the manual ready by the time of the February meeting. This is designed to educate commercial clubs along the lines of effective work. The members of the executive committee were guests Thursday of E. J. McVann, vice president of the association for the Second Congressional district. They were: M. A. Hostetter of Shelton, president; W. G. Hiron of Pierce, secretary; W. A. Greenwald of Falls City; J. T. Hanson of Fremont; H. A. Grant of Seward and Dr. M. E. House of Lexington, vice presidents. The entertainment of the visitors included lunch at the Commercial club, dinner at the Omaha club and an automobile ride about the city in the afternoon.

Raymond, who was called to the stand to supply the figures of profits that Mr. McCurdy was unable to produce occupied the stand for the remainder of the session. He was examined as to the scope and territory of his business and the amount of commissions he received from the Mutual Life company as well as the amount his firm paid agents was closely inquired into.

Mr. Raymond's examination was not finished when the committee adjourned for the day.

Investments in Real Estate.

Edward I. Devlin, the real estate manager for the New York Life Insurance company was the first witness today, having been called to conclude his testimony interrupted by the adjournment yesterday. Frank Colpeter and Nels Ippolite took the party for an automobile ride in the afternoon and they were the guests of the Commercial club at dinner. In the evening they viewed the parade in company with George F. Bidwell.

TUMORS CONQUERED

SERIOUS OPERATIONS AVOIDED

Unqualified Success of Lydia E. Pinkham's Vegetable Compound in the Case of Mrs. Fannie D. Fox.

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy, Tumor. The growth of a tumor is so early that frequently its presence is not suspected until it is far advanced.

Mrs. Fannie D. Fox

So-called "wandering pains" may come from its early stages, or the presence of danger may be made manifest by profuse menstruation, accompanied by unusual pain, from the ovaries down the groin and thighs. If you have mysterious pains, if there are indications of inflammation or displacement, don't wait for time to confirm your fears and go through the horrors of a hospital operation; secure Lydia E. Pinkham's Vegetable Compound right away and begin its use.

Mrs. F. Pinkham of Lynn, Mass., will give you her advice free of all charge if you will write her about yourself. Your letter will be seen by women only. Dear Mrs. Pinkham—

I take the liberty to congratulate you on the success I have had with your wonderful medicine. Eighteen months ago my menstruation stopped. Shortly after I fell so badly that I was unable to get up. I had a physician and he said I had a tumor on the uterus and would have to undergo an operation.

Sooner after I read one of your advertisements and decided to try Lydia E. Pinkham's Vegetable Compound. After trying five bottles as directed the tumor entirely gone. I have been examined by a physician and he says I have no signs of a tumor now. It has also brought my monthly periods once more, and I am entirely well.—Fannie D. Fox, 7 Chestnut Street, Bradford, Pa.
