Armour Continues to Support Prices Through Brekers.

WHEAT CONTINUES UPWARD TREND

Corn and Onta Also Higher-Decrease of Grain on Passage-Traders Tell Why They Have Friendly Feeling for Corn.

OMAHA, Oct. 9, 1806.

Armour brokers bought wheat today and the market was strong. It opened high and made further gains, cleaning the below the high point. There was considerable scalping trade. Harris-Scotten were the leading scilers of May. Cables were higher. Winnipes received 551 cars. December closed at \$55,00000 c. May at \$64c and July at \$34c. July was the higher than Saturday. OMAHA, Oct. 9, 1906.

at \$35c. July was the higher than each day.

Corn was also strong. Receipts will be light this week, it is predicted. The export demand continues good. December closed at 45c. 45c. do December at 45c. 45c. May at 45c. Oats were steady at slightly higher prices. Heavier receipts are expected for two weeks. December closed at 25c. May at 30c and July at 25c.

Liverpool closed the do higher on wheat and the do higher on corn. at 30%c and July at 23%c.

Liverpool closed %6%d higher on wheat and %5%d higher on corn.

Clearances were 182,000 bushels of corn, 812,000 bushels of oats, 48,000 bushels of wheat and 55,000 burshels of flour. Primary wheat receipts were 1,285,000 bushels and shipments 584,000 bushels, against receipts last year of 2,655,000 bushels and shipments of 999,000 bushels. Corn receipts were 522,000 bushels and shipments 386,000 bushels and shipments of 427,000 bushels.

The quantity of breadstuffs on passage to the United Kingdom has increased 209,000 bushels and the continental quantity has decreased 1,567,000 bushels. Corn for the United Kingdom has increased 8,000 bushels, and the continental quantity has decreased 1,267,000 bushels. Minneapolis wheat stocks increased 83,000 bushels for the week and Duluth 200,000 bushels, a total of 1,333,000 bushels, against 1,167,000 bushels the week before.

he week before.

Some of the trade say they are friendly to corn because of the discrepancy in the prices now ruling for new December and May corn and the old cash corn. They because lieve the crop has been overestimated and they know that three big crops have gone into consumption at 50c or over. They al-so think the foreign demand will be large

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing

Prices on Board of Trade.

CHICAGO, Oct. 2.—Wet weather in the northwest imparted strength today to the wheat market here. Higher prices for wheat at Liverpool increased bullish sentiment. At the close wheat for December delivery was up %c. Corn shows a gain of %c. Oats are up %c. Provisions are practically unchanged.

With an active demand from shorts and commission houses the wheat market was strong the entire day. At the opening the December option was up %%c to %gt%c. at 85%c to 85%c. Apparently the factor of greatest importance was the change in weather conditions northwest. According to the government bureau rain had fallen in various localities while at one point in Canada snow was reported. Likelihood of consequent decreased movement made shorts uneasy, and caused energetic efforts to cover. Scarcely less important a factor tending to augment demand here was the advance in the price of wheat at Liverpool nothwithstanding weakness here Saturday. Reliterated reports of shortage in the Russian crop were said to largely account for the strength of the English market. The fact that a leading buil here was a moderate buyer created additional sentiment favorable to an advance. Furthermore cash wheat was in good demand at all the principal grain centers of the United States, For the December delivery the highest point of the day was reached during the last half hour, the price touching 85%c. The market closed strong with December at 85%g85%c. Clearances of wheat and flour were equal to 32,000 bushels. The amount of passage decreased 1,304,000 bushels a year ago. Minneapolis, Duluth and Chicago reported receipts of 1,289 cars, again in lows, Missourl and Kansas caused as builtsh corn market. Another strengthen.

Chicago reported receipts of 1,289 cars, against 1,470 cars last week and 1,277 cars a year ago.

Rain in 10wa, Missouri and Kansas caused a buillish corn market. Another strengthening influence was the continued heavy novement. A report from Odessa stated that the Russian crop of corn was expected to be a total failure. Shorts and commission houses were the chief buyers. The market closed strong with prices practically at the highest point during the day. December opened a shade to \$40% c higher at 44% to 44% c, sold up to 44% c and closed at 44% 44% c. Local receipts were 344 cars with 110 cars of contract grade.

The oats market was firm in sympathy with the strength of other grain. Cash houses were the principal sellers. The export and shipping demand was again a feature. December opened a shade higher at 25% 23% c, sold up to 25% c and closed at 25% c. Local receipts were 584 cars.

The trading in provisions were exceedingly duil, but the market had a steady undertone following a decline of 5c in the price of live hogs. At the close January pork was off 2% c at \$12.40. Lard and ribs were each a shade lower at \$6.55% 6.37% c and \$5.47% c, respectively.

Estimated receipts for tomorrow: Wheat, 59 cars; corn, \$25 cars; oats, 298 cars; hogs, 19.000 bead.

Firmness in Money Market Causes Further Moderate Liquidation.

SLIGHT RELAXATION IN CALL LOAN RATE

General Bellef that Prices Will Advance When Money Flurry is Over Prevents General Selling.

NEW YORK, Oct. 2.—The market went through a course of moderate liquidation loday, induced by the growing belief that meney will hold firm for a considerable period of time. The liquidation was not The tone of the market was resilient in the intervals of the selling and there were good recoveries, but there was a marked decline in activity when prices were moving upward and the principal trading of the day was done on a descending soaie of the day was done on the soaie of the day was done on the day was done on the day was done o

dency. Great activity was further reported in Great activity was further reported in all kinds of business throughout the country, the reports from railroad traffic officials serving as the special feature for Monday. This evidence of the profusel use for money in all kinds of business at a rate rising above that returned at the current average level of prices of securities is an inducement for the liquidation of securities and the use of funds in other fields. Prices recovered a good part of their losses when the money rate ran off their losses when the money rate ran of their losses when the market then became torpid.

SILVER MONEY-24.63% per cent; for three for short bills is 34.65% per cent.

The rate of discount in the open many for short bills is 34.65% per cent.

Foreign Financial.

LONDON, Oct. 9.—Money was in active demand in the market today. Discounts were firm. Trading on the Stock Exchange was quiet. Operations were dismelling to the same time reports from other selling points were discouraging. In fact conditions generally seemed to be rather against the selling interests and still the opening duliness. Consols were weak, but railled well at the close on prospects of easier money. It is reported that gold went into the Bank of England today, but it does not appear on today's return. Americans opened dull, relapsed to below parity on New York selling, improved later in spots and closed dull. Canadians dropped were quoted at 101%.

Solve 179% 180 to do the stock of the same time reports from other selling points were discouraging. In fact conditions generally seemed to be rather against the selling interests and still the market as a whole was not in had condition.

There was a very fair inquiry for goo con-fed beeves but the supply was light to PARIS, Oct. 9.—Trading on the Bourse today was inactive. Prices at the close were firm. Russian imperial 4s were quoted at 93.70; and Russian bonds of 1904 at 529.

range beef steers were also steady but the common to medium kinds were a little easier. The trade was slow to open owing in part to the unfavorable weather conditions which made buyers backward about getting out, but when once under way the market was reasonably active, so that the most of the cartle sold in decent season. Although there were quite a good many in sight cows and helfers were steady with the close of last week. The trade, while not exactly active, showed considerable life and the most of the receipts changed hands in fair season.

The demand for stockers and feeders this morning was very good on the part of regular yard operators and speculators and they were the first to sell. Even the lighter cattle, which were inclined to drag a little the latter part of last week, were in demand. All desirable kinds were active and steady. Representative \$23-68:

western fed steers, \$2.5594.55; southern steers, \$2.509.55; native heights, \$2.509.55; heavy, \$5.509.50; head; market 559.55; heavy, \$5.509.50; head; market 559.55; heavy, \$5.509.50; head; market 559.55; heavy, \$5.509.50; head; market strong to 10c higher; native lambs, \$5.5097.15; western lambs, \$5.509.55; heavy, \$3.509.55; western lambs, \$5.509.55; western lambs, aguin.

The corporations have shown a willing ness to pay the bills already due the city. The Omaha Electric Light and Power company promptly sent a check for a bill of 1994 and the gas, street railway and other concerns, owing each almost as much, are expected to cash in during the week. The amount incoming will be about \$2,500, which will just about square the outstanding material and machinery bill of the plant.

Damage to the Alameda. Damage to the Alameda.

SAN FRANCISCO, Oct 9.—A minute examination of the hull of the steamer Alameda by the marine surveyors showed the real extent of the damage to the vessel. The inspectors found that the greatest damage sustained by the steamer was on the port side, where there is the largest puncture. It is seven foot in length by two in width, directly under the port fuel tank. In the interior of the steamer it will be necessary to renew and repair forty frames. According to the inspectors, it will be necessary to renew twenty-two plates and repair sixty-four others before the steamer will be in a seagoing condition.

BAN FRANCISCO. Oct. 9.—Two detectives from Providence, R. L. have arrived here to take back D. L. Rice and W. O. Gliman, neid here on charges of obtaining \$5.00 from the president of the United States National bank of Providence on alleged fraudulent railroad stock. They expect to leave with their prisoners today.

Registration in New York. NEW YORK, Oct. 9.—Registration for city and county fall elections began in New York today with many precautions to se-cure an honest registration.

WHEAT

A sharp break, such as we anticipated in one inst review, has been experienced in the Wheat market. Declines have been sharp and of sufficient size to clear the situation of much of its weight. The most powerful and much of its weight. The most powerful and aggressive interests are now purchasing on each material decline, and this in spite of the big crops. The demand is wide and insistent. The undersone in the market is distinctly strong and healthy.

The true character of the market may be judged by the fact that while there is an apparent difference in favor of Canadian Wheat for export into several European states, liberal amounts of high grade American Wheat have been sold to those countries. This proves while the public markets abroad may show

while the public markets abroad may show prices below an import level, they need our fine Wheat so badly that private prices are higher than the market.

If thus early in the season Europe is willing

to pay a liberal premium for the best milling grades, what will be the altuation when the present source of supply, the Canadian fields, has become exhausted? We believe Wheat will advance materially as soon as the situation is a little better understood. For a long pull, we savor pur-
