## CURED BY CUTICURA AT **EXPENSE OF 75 CENTS**

" My boy when an infant was afflicted with a terrible humor. His face was all one big, black sore, even the eyelids were sore. He suffered for many months, and nothing that I tried helped him till I bought a cake of Cuticura Soap and a box of Cuticura Ointment. I washed him three times

a day with the Soap and then applied the Ointment. In a few days he was better and before I had used the cake of Soap he was cured and to-day he has got as good a complexion as anybody. I have also used your Soap for my hands to great advantage. They break out once in a while in watery sores, but when I use Cuticura Soap I can keep them in good shape. (signed) Mrs. O. O. Aune, Underwood, Minn., March 28, 1905."

## DREXEL AWAITS THE COURT County Clerk Will Not Pass on Committee Nominations at

### Present.

County Clerk Drexel has determined to hold in abeyance the matter of committee flings for vacancies on the county ticket until after the supreme court has passed on the constitutionality of the primary election law. This will be done October 17, and the clerk holds there will be plenty of time to put the names on the ballot if they are legaly entitled to a place. Mr. Drexel's position is thus stated:

"This office seriously doubts the right of any committee to fill vacancies on the ticket: The primary law is plain and It sets a time limit for filing mination papers, and it provides for certain sums being paid into the county treasury as fees. If committees can fill vacanholding off until after the primaries are held, and then getting on the ballot by the process of having the party committee present them duly certified? That doesn't look good to me, and it doesn't look fair or right. So for the present I am simply going to let the matter stand as it is. After the supreme court has rendered its decision. I shall act as the circumstances seem to warrant."

## MRS. SAUNDERS' NEW MOVE

Wife of Bloomfield Banker Wants More Money to Further Prosecate Her Husband.

Alice Maude Saunders, who has a sui for divorce pending in the district court against her husband, Sherman Saunders, banker of Bloomfield, has made some new moves in the case. In his cross-petition and answer the husband set up certain allegations of misconduct, or suspected misconduct, on the part of his wife. She now asks that the court compel him specific as to alleged corespondence with other men, what the same contained. when it was had and also to give the sames of any such men if he can. Mrs. Saunders also asserts that she was only restrained from making certain serious charges against her husband by a fear that she would not be able to secure proof of their truth. This, she says in an affidavit, she now expects to be able to secure, and for the purposes of prosecuting her suit in a thorough manner asks the court to allow her \$1.000 in addition to \$750 already allowed for court costs and attorney fees.

White of Lincoln, who has the official title of pastor-at-large, told of his work in supplying pastorless churches and building parsonages. Rev. C. Peterson of Wahoo declared that his city had too many saloons and too many churches. He advocated closing the former and consolidating some of the latter.

The last hour was devoted to reports from the district associations. The largeness of opportunity and the urgency of the need were pointedly depicted.

#### Sermon in the Evening.

At the evening session Rev. J. H. Clay, district missionary, gave a report of accretions during the year and showed a strong, healthy condition. This was followed by the annual sermon delivered by Rev. S. Z. Batten of Lincoln. Mr. Batten took for his text of the words found in the book of revelation, twelfth chapter and sixteenth verse. He said: "The apocalypse is an unveiling and not a hiding, it is a book of light and not of darkness." Mr. Batten spoke first of the divine order of the world and argued for the recognition by the universe of the distinction between right and wrong and drew many striking illustrations from profane history and human plans of determining the justice of controversies. The speaker then

## COLE'S ORIGINAL HOT BLAST=THE CLEAN STOVE DUST PROOF SMOKE PROOF

Cole's Original Not Blast is the cleanest | iliar with the ash pan method, and have, no doubt, gone through the process many times of spreading a newspaper or cloth under your stove every time the over-filled pan is removed.

The ash pan is not only dirty, but is a great evil in stove construction. It adds a door and joints which can be made only temporarily air-tight by the use of stove putty. These joints open after a few weeks' use, rendering ash pan stoves worthless as fire keepers. It makes them fuel-caters rather than fuel-savers. The ash pan and the shield for guiding ashes into the pan, also prevent base heat. Our method is the only clean way. The whisk broom, turkey wing and dust cloth are dispensed with. There are no joints to leak air, base heat is not retarded and Cole's Hot Blast is the cleanest stove, the best floor heater and the only stove in the world which can be guaranteed to remain always air-tight.

The feed door on this stove is guaranteed smoke proof and does away with the escape of smoke, soot and gas into the house. Side feed doors used on other stoves discharge a cloud of gas and soot-ladened smoke into the house and scatter soot and ashes over the carpet when opened.

Another point: In feeding coal into a side feed door it has to be thrown into the stove, which usually results in scattering much of it over the loor. With our cleanly smoke proof feed door the coal is poured into the stove even to the dust in the bottom of the hod without a particle being spilled on the floor.

This clean and economical stove burns the gases which often escape into the rooms with other stoves. The annoyance and dirt from kindling new fires is dispensed with, as the rooms are heat ed up for two or three hours each morning with the fuel put in the night before and the Fire is Never Out. COLE'S ORIGINAL HOT BLAST is the cleanest stove made and will more than save its cost in fuel each winter.
