Wheat Is a Little Easier During the Day.

MAY CORN CLOSES MUCH STRONGER

Government Report is Considered Bullish on Corn, but on Other Grains Has No Effect-Onts Lower.

OMAHA Oct, 16, 1905.

Wheat ranged a little lower during the day, but closed practically unchanged. There was quite a little buying of December by commission houses. The government monthly crop report gave the yield of epring wheat per acre as 14.7 and the quality 89. Armour is still in control of the market. There is nothing buillsh in the domestic situation and Russian shipments continue large. December closed at 55%c, May at 55%c and July at 52%c.

The government report was considered more buillsh than expected and May was strong in consequence. The condition was reported at \$2.2 for October I, against \$9.5 last month and \$2.3 last year. December was a little easier and July was \$4c lower. Cash demand was good. December closed at 44%c, and December at 45%c, May at 45%c and July at 29%c. Oats were lower. December closed at 28%c, May at 30%c and July at 29%c. Liverpool closed unchanged at \$4c lower on wheat and \$400 higher on corn. Clearances were \$3,000 bushels of corn, \$5,000 bushels of oats and 25,000 bushels of one and 25,000 bushels of wheat and shipments 505,000 bushels of wheat and shipments 505,000 bushels. Corn receipts were \$1,135,000 bushels. Corn receipts were \$21,000 bushels and shipments \$41,000 bushels and shipments \$41,000 bushels and shipments of 159,000 bushels. F. W. Thompson of the Oigivie Mills company of Canada is quoted by the Record-Heraid as saying: "The flour demand is the lightest ever experienced at this season of the year. I am offering 200 barrels today on a basis of 75c, Fort William, for wheat. Had twenty cables today, all running 6d to 1s too low. Winnipeg wires me car supply inadequate, and over 160 interior elevators blocked with wheat, Deliveries next week promise larger than ever. What we require is foreign buying for millions of our wheat, and, in fact, our enormous surplus. I do not think we can expect them to buy freely as long as Chicago holds so high."

Grain in store at Chicago, public and private, amounts to 5,576,000 bushels; 2,829,-900 bushels of corn, a decrease of 42,000 bushels and 10,003,000 bushels of oats, an increase of 389,000 bushels of oats, an increase of 389,000 bushels. Coming.

OMAHA, Oct. 10, 1905.

The western area of high pressure noted in Monday's report has apread over the entire country west of the Mississippi river, with its ridge extending from British Columbia southeast to the west guif states, and its crest overlying eastern Washington and northern idaho this morning. Clearing and much cooler weather attends this high pressure, and decidedly lower temperatures prevail throughout the central valleys and the west this morning. Heavy to killing frosts occurred in the upper Mississippi and Missouri valleys last

CHICAGO GRAIN AND PROVISIONS Peatures of the Trading and Closing

Prices on Board of Trade. CHICAGO, Oct. 10 .- The rosy outloo

shows in the government crop report eased prices today in the wheat market, but the effect was offset later by purchasees wheat and the state of the provisions Physics.

The state of the state of the state of the hanged from resterday's final quotations. Corn is off 46%c, oats are down %c and provisions Physics.

The wheat market opened with a slight show of weakness. December was unchanged to a shade lower at 8%c to 8%c to 8%c to 8%c. The downward tendency was due mainly to the failure of foreign grain markets to respond to the advance here yesterday. Weather in the American northwest was again unfavorable for the movement of the new crop, rains having fallen in many sections. Receipts today at Minneagolis and Duluth exhibited considerable decrease compared with the total on the ourresponding data last week and the total a year ago. Bullish influences, however, were seemingly overlooked as the second of the second of the public at noon. Meanwhile the market became a little firmer on fair support from a prominent long, the price of the December option advancing to 85%c. When the official statistics regarding the spring wheat crop were given out the market weakened decidedly. December dropping to 85%g85%c. According to the government report the average yield of spring wheat is 14.7 bushels an acre and the quality is estimated at 8% Last year the average yield was 12.7 bushels of the government figures and estimating the total acresses at 17.61,000 acres the following the providerable of the government figures and estimating the total acresses at 17.61,000 acres the following the providerable of the providerable of the providerable of the government figures and estimating the total acresses of the and the providerable of the government figures and the lowest point of the day bear of \$60 cars, against 1.48 last were 1,155.000 bushels. Pressure of Liquidation.

MOVEMENT IS IRREGULAR AND NARROW

Announcement of New Issue of Twenty-Five Million Great Northern Stock Sends that Issue Up.

NEW YORK, Oct. 10.—There was some perceptable relaxation in the money market claims and a resulting relief from the pressure of liquidation on the stock market which was in evidence yesterday. At the same time one or two incidents calculated to inspire the speculative spiril cocurred.

The long prevelent has the closure of the volume of transactions compared with yesterday. Except in a few closely left stocks the price movement was narrow and the stocks of the color to the stock present stockholders to be a stock present stockholders to be a stock present stockholders of this company but none of them proved to have been entirely accurate. The announcement seemed up to stock was rushed up over 4 points during the first hour. In the curb market a quotation was entablished for the subscription rights by sales at 25% gr. The stock was also helped by the geptener, which reached Mays. Sil. an increase over the previous year of \$1,95.56. The declaration of the initial dividend on the common stock of the United States Cast Iron Fipe company was an influence on a number of low price that the relaxation in money is due to yesterday's liquidation of special accounts in stocks. LONDON, Oct. 10.—Money was fairly plentiful in the market today and rates were easier. The Bank of England is securing most of the gold due today. Five million dollars in gold left Bombay October 8 for London Discounts were easy on the improvement in Paris exchange and the continued expectation that the Bank of France will assist in meeting the Egyptian and American demands for gold. Trading on the Stock exchange was cheerful and there was less nervousness regarding the gold outlook, but realizations in many sections checked business. Weak buils were less numerous. Many of them have been shaken out by the recent sharp fall in prices. Transactions were restricted in view of the settlement. Consols recovered, stimulating other departments, but relapsed later on renewed monetary fore-bodings. Home rails were firmer on the trade returns showing that business is improving. Americans opened dull and well below parity, but recovered a fraction with other departments. But the tone was undecided, local operators were conservative and the market closed quiet. Canadian Pacific was in exceptionally good demand. Foreigners were firmer, on Paris support. Japanese were easier; Japanese imperial 6s of 1906 were quiet.

PARIS, Oct. 10.—Prices on the Bourse today were firm throughout. It is rumored that the Bank of France will make a loan to the Bank of England. Russian imperial 4s were quoted at \$2.75 and Russian bonds of 1994 at \$30. Private rate of discount, 2% per cent. 2% per cent. BERLIN, Oct. 10-The tone on the Bourse today was better than during recent days, especially in the case of local shares. For-eign government bonds were fractionally

strong as compared with yesterday. The most of the desirable killers changed hands in very good season in the morning.

There was a fair showing of cows and heifers yesterday and again today, but the total was small as compared with the same days last week. At the same time the demand was fully as good as last week which resulted in some little improvement taking place in the market today. The trade as a whole might be described as strong to loc higher. The market opened in reasonable season and midday the big end of the receipts had changed hands.

There were plenty of feeders here today. In the first place the fresh receipts were quite large and in addition to them there were a number of cattle still in the hands of speculators, yesterday having been a bad day for them to unload. Still everyone appeared to be anticipating a good trade for the remainder of the week and speculators were quite free buyers, especially of the good kinds which were steady with yesterday. The common to medium kinds were not so much sought after, but still the
