MANEUVER CAUSES EASINESS

Prices Nearly Half-Cent Lower-Recelpts Increase Heavily in Last Few Days-Corn Lower and Onts Shade Easter.

Wheat was fairly steady early in the sestion and sold at one time is higher than yesterday. Valentine began to sell later and frightened the crowd, who sold, and caused an easier market. Prices were off ic from the high point. Buying by brokers on Valentine's resting orders stayed any further decline and the buil leader picked up a lot of wheat. December closed at 85% (85%c. May at 85% (85%c and July at 83%c. Receipts have increased heavily in the southwest in the last few days and the offerings at Minneapolis made a heavy market today.

Corn was off ic. The reason was general selling in small quantities. A better feeling for tomorrow was created by small Argentina shipments. December closed at 44%c. old December at 554,045%c and May at 43%c.

Oats were a shade easier in sympathy with the general tendency of the market. There was a good trade in May. December closed at 23%c. May at 30% (230%c and July at 30c.

Liverpool closed 1,00% higher in wheat and 36 higher to 36 lower on corn.

Primary wheat receipts were 1,347,000 bushels and shipments of 67,000 bushels and shipments of 68,000 bushels and shipments of 68,000 bushels. Clearances were 40,000 bushels of corn, 485,000 bushels of oats, 156,000 bushels of wheat and 25,000 bushels of oats, 156,000 bushels of wheat and 25,000 bushels of oats, 156,000 bushels of wheat and 25,000 bushels of oats, 156,000 bushels of wheat and 25,000 bushels of oats, 156,000 bushels of wheat and 25,000 bushels of flour.

WEATHER IN THE GRAIN BELT Fatr and Cooler and Little More Showers.

The low pressure in the east has disappeared off the coast and is succeeded by a high pressure that overlies the middle and south Atlantic and southern states. This high pressure is accompanied by decidedly cooler weather in the eastern states and heavy from the cooler weather in the eastern states. cidedly cooler weather in the eastern states and heavy frosts were general in the Ohio valley, middle and eastern states and light frosts in western Georgia and Alabama, extending south to Mobile. The weather is much warmer in the central valleys and southwest, but is decidedly cooler in the extreme northwest and unsettled and cooler weather will again prevail over this vicinity tonight or Saturday.

At the closs the December option was off %c. Corn is down %c. Cats showed a gain of %c%c. Provisions are up from 60 to 15c.

Weakness in the wheat market developed toward the end of the first hour. At the start the tone was quite firm, December opening a shade to %c%c higher at 25%c 86%c. A small advance at Liverpool was credited with being responsible for part of the initial firmness. A more potent reason possibly was open buying on the part of a leading buil. Moderate demand from the big longs held the market firm for a time, notwithstanding several bearish factors. As a result of this buying December sold up to 85%c. On withdrawal of bull support the market broke quite sharply, December declining to 8%c6c. Pit traders and commission houses were free sellers. An influence that contributed to the weakness was liberal movement of wheat to market. Receipts today in the northwest were of large proportions. In the southwest arrivals were larger than for the corresponding day a year ago. In addition, cash markets at all the principal grain centers of the United Sties showed a slightly easier tone and there was little in the export news to encourage buils. Weakness prevailed during the remainder of the ession. Closing prices were at almost the lowest point of the day. Final quotations on December were \$5%c55%c. Clearances of wheat and flour were equal to \$2,000 bu. Exports for the week, as shown by Bradstreets, were 2.774,000 bu. Primary receipts were 1.347,000 bu., compared with 1.357,000 a year ago. Minneapolis, Duluth and Chicoga reported receipts of \$50 cars, against 150 last week and 288 a year ago.

The corn market was weak from start to finish. Values could not withstand the almost universal conviction that a record breaking crop was now practically safe from all possible injury by frost. Several prominent commission houses were free sellers. The weakness of wheat had a bearish effect late in the day. The market closed weak. December opened a shade to %c lower at 4%c to 4%c and closed a shade to %c lower at 4

Oats were easier in sympathy with the weakness of other grains. The volume of trading was much smaller than for days past. December opened a shade higher at 25%c, sold off to 25%c and closed at the lowest point. Local receipts were 305 cars. Provisions were strong on active demand from shorts, and on fair buying for investment account. At the close January pork was up 15c at \$13.62%, lard showed a gain of 567%c at \$6.55 and ribs were up 12%c at \$6.62%. Estimated receipts for tomorrow: Wheat, 60 cars; corn, 219 cars; oats, 456 cars; hogs, 15 cm head.

LONDON, Oct. 13.—Rates for money were strong in the market today, owing to the Stock exchange demand. Discounts were firm, partly due to the continental exchanges. Trading on the Stock exchange opened with prices heavy, owing to the prospects of dearer money and the absence of fresh business. There were no indications of material difficulties. The name of one small firm, jobbers in Americans particularly in Norfolk & Western, was mentioned, but the outcome has not developed. The report, however, exercised an all-round restraining influence. Consols were dull, but recovered a fraction. Home rails, were irregular. Americans opened steady. The movements were narrow and mixed at mostly a fraction over parity. The market was inactive and entirely subject to New York lead. Prices continued quietly firm. Canadian Pacific was buoyant and Grand Trunk had a better tone. Japanese inperial 5e of 19M, were quoted at 102.

BERLIN, Oct. 12.—Prices on the Bourse today were firmer, influenced favorably by yesterday's Paris and New York advances, PARIS, Oct. 13.—The tone on the Bourse today was firm and prices were irregular. Russian 4s were quoted at 22.85 and Russian bonds of 1904 at 527. The private rate of discount was 2% per cent.

OMAHA, Oct. 12.—Bank clearings for to-day were \$1,585,460.05, and for the corre-sponding date last year \$1,463,610.90.

BOSTON, Oct. 12.—WOOL—The Com-mercial Bulletin will say tomorrow of the wool market: Representatives from New England. New York and Pennsylvania mills wool market: Representatives from New Yengland. New York and Pennsylvania mills I have been around the market looking for supplies. Considering the limited offerings, a very fair business was transacted. Territory, fleece, scoured sind Australian wools have moved well. Dealers are exceedingly the firm in their views, and prices show a decided upward tendency. One of the alargest operators in territory wools estimates that at the present time there is not more than 40 per cent left of the amount that was available at the same time last year. Fleeces have had good demand, except in fine. More business could be done in quarters and three-eighths if dealers would shade prices, but they refuse to make sales except at full market prices. The attitude of western sheep men, who are demanding the highest price for their 19% clips, has practically stopped contracting. A small amount has, however, been contracted in Western Idaho at 19 to 2kc. Many growers are so reluctant to sell their wools in advance that they will not even figure on which they would contract. Holders of fall wools in California and Texas have also high ideals as to Ideas and nothing is being done. The shipments of wool from Boston to date from December 129, 1904, according to the same authority, are 191,594,555 pounds. against 182,188,297 pounds at the same time last year. The receipts to date are 286,244,550 pounds. Against 271,678,429 pounds for the same period last year.

The disposition of the day's receipts was as follows, each buyer purchasing the number of head indicated: 139 7,939

cars, as against 1,340 for the five days of last week.

When the trade opened this morning the market was practically bare of supplies of beef cattle, there being no cornfeds or westerns of consequence on sale. The feeling was that anything desirable in the way of beeves would command just about steady prices.

There was a little sprinkling of cows and helfers in the yards, but the offerings were confined largely to odds and ends, there being comparatively few full loads on sale. There seemed to be a fair demand on the part of packers and the few cattle on sale changed hands for the most part in good season at prices not quotably different from those which prevailed yesterday.

As usual on a Friday there was no great demand for stockers or feeders, but there were so few cuttle of that description in first hands that it did not require very much demand to exhaust the supply. In other words, the few cattle here brought about the same prices as yesterday and that was about all there was to it.

In other words, the few cattle here brought about the same prices as yesterday and that was about all there was to it.

From the above it will be understood that it was one of those days when, owing to the light receipts, the market was without noteworthy change in any direction, and when the trade was barren of new or interesting features.

HOGS-Receipts continue moderate, barely sixty cars being in this morning, or a total of 331 for the week so far, as against 316 for the same period last week. Light receipts were in favor of sellers, but advices from outside points were generally bearish, so that there was no very strong feature to the trade. The early market was on an average just about steady with yesterday, but it was very uneven, some sales looking lower and others stronger. Tops reached \$5.25, the same as yesterday, but there were not nearly so many loads at the prices as there were yesterday, owing in large part to the fact that there were not as many good loads here today. Fair to good loads soid largely at \$5.0035.10, or at about the same rangs as yesterday. Heavy hogs at \$5 and under were anywhere from steady to \$5 lower.

After the more urgent orders were filled the market came to a standstill, the same as it does nearly svery day of late, and from that time on was very slow and weak at prices generally a little lower than the morning figures. Representative sales: No. Av. Sh. Pr.

SHEEP—There was another famine run this morning, only eighteen cars being reported in the yards, making the total for the week to date 203 cars, as against 369 for the same days last week. While a portion of the receipts came in early some of the trains did not arrive until late in the foremon. As has been the case all the week there

Trains did not arrive until late in the fore noon.

As has been the case all the week there was a good active demand for desirable kinds of fat sheep and lambs. The market opened up active and strong and the early strivials changed hands very quickly. Here were a few old wethers good enough to bring \$5 and some old swas at \$4.55, but the total supply of killers was meager.

The feeder market closed off a little easier yesterday, but this morning there seemed to be a very fair inquiry, although there were not as many country buyers in as there were earlier in the week. The receipts, however, being light there was no great difficulty experienced in unloading everything in sight at steady prices.

The market this week has been in very satisfactory shape viewed from a seller's standpoint, values having gradually tended upward until at the present time the market is on an average 154726 higher than it was at the close of last week on all kinds, both killers and feeders. In some cases the advance has been even more than that.
