Highland Park Improvement Club Has a Busy Session.

DECIDES TO FAVOR THE SEWER BONDS

Prof. Holbrook, Head of Physics Department at the High School, Tenders His Resignation to Accept Better Place.

On Thursday evening at Lincoln school building the Highland Park Improvement club held a rousing meeting. In spite of other attractions the attendance was by far the largest of the year and a great deal of interest was manifest. A number of new members were received and the officers of the club state that the membership list is constantly increasing.

The committee on the grading of F street reported that all but two or three property owners had signed the petition. It s the desire of the club to have the grading on F street done this fall if it can be arranged with the council to hasten the that when the street is graded a viaduct acrons the tracks will be built by the railroad companies.

Resolutions were adopted putting the club on record as being in favor of the \$250,000 sewer bond issue. Members of the club have pledged themselves to work for the of November. sewer bends and de everything possible to getting out the vote on election day. incilman Klewit's action in demanding the laying of all water and gas pipe connections on Twenty-fourth street before the pavement is put down was endorsed. A request will be made to the mayor and council to put the road machine in service and round up all of the streets within the jurisdiction of the club before cold weather Messrs. Kiewit, Miller and Welsh were named as a committee to push the opening of Twenty-fifth street from A street to the boulevard. The attention of the council is to be called to the need of sidewalks on Twenty-seventh street between F and J street, and on Twentysixth street from H to I street. Meetings hereafter will be called to order at 7:30 p.m.

Prof. Holbrook Resigns. L. G. Holbreck, in charge of the physics department at the high school, tendered him resignation to the Board of Education yesterday. The resignation is to take effect mmediately. Prof. Holbrook came here at the opening of the schools on September II from Ann Arbor, Mich. He was well liked by the pupils at the high school, but an epportunity to better himself appeared and the result was the resignation. A meeting of the board will probably be held soon to fill the vacancy.

EVIDENTLY CASE OF SUICIDE

Police Certain William Hanting Died from Acid Taken with Suicidal Intent.

Regarding the mystery surrounding the death of William Hanting, 1218 Pacific, the investigation ordered by County Attorney Slabaugh has only served to make the evidence more complete that the man's death was due to carbolic acid poisoning by his own hand. The poison was secured at the drug store at Thirteenth and William streets. It was publicly stated that the funeral was interfered with, but this was not the case. The funeral was fixed for Sunday, and there was no objection a post-mortem examination. The investigation by the county attorney arose from the suggestion of the neighbors, some whom declared that there had been friction in the domestic relations of the

In order to satisfy all such suspicions the investigation was ordered. The detectives on the case developed no evidence of foul play, and the physicians who held the autopsy at the coroner's office last night say that it is impossible that any one could have given the drug, and if they succeeded in getting it into his mouth the man would not have swallowed any quantity. As it liberately swallowed a large quantity of yet be compelled to resort to a show of for Hayden Brothers. He was taken to the acid. Captain Dunn, chief of detection. Tries to Outelimb Squirrel. Tries to Outclimb Squirrel.

Fred Kues, 1702 Hickory street, met with a serious accident in an unusual way yesterday afternoon. He and some boy companions were chasing a squirrel. In its efforts to escape the squirrel climbed up on the roof of the house at Thirty-sixth and Howard, where Kues went in pursuit. He was running along the ridge pole of the house with the squirrel only a few feet in advance when his footing failed him on the wet and slippery roof. Kues slid down to the eves and fell to the ground, lighting on his hands and face. Both his wrists were fractured and his nose was severely bruised and lacerated. He was taken to his home in the patrol wagon. The accident occurred at 2 p. m.

PRESSURE TO BEAR ON CASTRO

United States Expects to Settle Claims Without Resort to Force.

MAY ESTABLISH BLOCKADE FRANCE

Absence of Diplomatic Relations with Venezuela May Render Use of Warships Necessary.

WASHINGTON, Oct. 13.-American grievthat the French ultimatum has been practically ready to dispatch for a week or of the Washington government to adopt an effective course of action against Venezuela to obtain the renewal of diplomatic relations and the restoration of French property seized by the Caracas government. This briefly is the situation tonight. The French ultimatum will be held up until further conferences have occurred between the French embassy and the State department. So far as Judge Calhoun, the American commissioner, has reported to the department, there is nothing in the situation at Caracas that cannot be settled by patient and firm diplomacy. American and French property, it is contended, has been seized unjustly by President Castro, but ample precedent is found in history for the settlement of problems far more complicated

than the present issue without resort to Believes Force Unnecessary, While not prepared to announce definitely its exact course of action, the Washington government has let France know informally its belief that American grievances against Venezuela, although severe, American warships. This information was not communicated with any intention of forestalling a resort by France to force but was in answer to the earnest inquiry

of the Paris government. In diplomatic circles the opinion is expressed that the Venezuelan president would yield before blockade is established. The aversion on the part of France and the United States to using warships, arises from the fact that the blockading of Venezuelan ports at this time will not affect so powers to whom a portion of the customs paid in full.

Manila Railway Profitable. According to the annual report for the year 1904 of the Manila Railway company, owning the line connecting Manila on the south with Dagupan on the north, the road paid 15 per cent net profit. The total re-ceipts were \$1,145,069 and the expenditures \$660,724, leaving a net profit of \$814,345. The original cost of the road was \$5,253.700. It is stated that by American methods of accounting, the property would have paid almost 35 per cent on the investment. It is thought at the insular bureau that this showing may have an important influence on bidding next month by American capitalists for the right to construct additional railways in the Philippines.

Chicago Unionist Imprisoned for Contempt of Court Asks Permission to Give Testimony Wanted.

CHICAGO, Oct. 13 .- Fighting for months against answering certain questions asked during the injunction proceedings of the teamsters' strike, John Donahue, under sentence to commitment to jail for contempt of court, came up before Judge Kohlsaat today, asking leave to answer.

In taking this action Donahue did not consult his attorneys. The petition was a bombshell to them as well as to union la bor officials. The matter, however, is said to be out of Judge Kohlsaat's district, an appeal having been taken to the United States courts. Judge Kohlsaat took the petition under advisement, but is expected to rule that the higher court will have to grant the permission asked for by Donahus to reveal the secret of the union guarded at so much expense and bitterness. Donahue was a member of the Railway Express Drivers' union.
