Less than four weeks of the political campaign remains. It is surely "an off year."

When we find ourselves at a loss for other excitement perhaps we can have the fight on the alleged "grain trust" renewed.

Captain Taggart says he has no charges to make against brother officers, but the War department may not be so forgiving.

In comparison with Omaha's 90 per cent reimbursement to exposition stockholders, the Portland dividend looks like 80 cents—or maybe 40.

Governor Folk is to speak in Philadelphia, but it is hardly probable he can give Mayor Weaver many points on how to "turn the rascals out."

TREATY OF PEACE SIGNED.

The 14th day of October, 1905, will be a memorable occasion not only in the beginning of the twentieth century, but in modern history.

Of course since the agreement was reached at Portsmouth peace in the far east has been assured, yet there was needed the final act of imperial approval to absolutely confirm what was done by the peace envoys.

It is a signal event, in which the whole civilized world has a profound and vital interest. It means a great deal for humanity and for civilization.

Another compact is noted in which the United States is involved in a way that may make trouble between ourselves and Great Britain.

Consequently our government is said to be making strenuous efforts to stop the ratification of the Anglo-Cuban treaty.

NEBRASKA INSURANCE DEPARTMENT APPEALS TO IT AS MORE SENSIBLE AND MUCH SAFER THAN THAT OF THE DEMOCRATIC ADMINISTRATION OF THE MISSOURI INSURANCE DEPARTMENT.

Why not a flower show? The increased popularity of the horse show and the liberal support extended to it by the people of Omaha and surrounding towns suggest the question.

The modern flower show seems to have blossomed from a seed that first germinated in the east. The annual flower shows in Madison Square Garden, New York, are most picturesque and instructive exhibitions participated in by all the most famous florists and patronized by the best people of the metropolis.

St. Louis Globe-Democrat. Three women have been admitted to the Hall of Fame. This ought to prevent the gentlemen now in the hall from sitting around with hats on and feet on the windowsills.

St. Louis Globe-Democrat. According to President Stockney, rate-making is largely a matter of guesswork. That being the case, the government might as well do the guessing as the railroad companies.

Chicago Inter Ocean. It appears that some of our late eminent Americans have escaped real fame by only one vote, and some by a fraction of one vote. But they will have another chance, and in the meantime their friends should rally around their memory.

Baltimore American. The smashing of the statues of angels over which the controversy rose by their sculptor has completely broken up the theory of angelic femininity in marble.

Baltimore American. If President Roosevelt is as successful in his campaign in the interest of clear, manly sport, with the eradication of brutality, professionalism and money making from the college games, as he has been in everything else he has undertaken, the long-hoped-for new era in college athletics will become a reality instead of a dream, as it is at present.
