SCHOOL BOARD SAVES MONEY

Experience in Building Proves Plan to Be Economical at Least.

BEAL SCHOOL ERECTED INSIDE ESTIMATE

Chairman McCague Calls Attention to Saltent Feature of Report Made by Superintendent Finlayson on the Work.

The Board of Education saved about \$2,500 under the lowest bid in constructing the new Leal school under the supervision of Superintendent of Buildings Finlayson and without the assistance of a general con tractor, according to statements made by Chairman McCague of the finance com mittee at the regular meeting last night. His remarks were brought out by a report from the superintendent of buildings, showing the total cost to be \$30,844.95, or within 1306 of his estimate. The structure is now completed and in use. It marks the first building erected by the board in the manner undertaken, and is believed a success from an economical standpoint.

Charles Harding, elected to fill the un expired term of E. K. Lower, resigned, filed his oath and participated in the session. He was given the chairmanship of the committee on special instruction, vacated by Member Philippi's promotion to the chairmanship of the committee on heat and ventilation. Otherwise Mr. Harding was assigned to the vacancies on the committees on boundaries, judiciary and heat and ventilation left vacant by Mr. Lower's departure.

During the first part of the meeting Member McCague acted as chairman in the absence of President Christic.

Some Teachers Resign. The resignations of Lydia Bruechert as teacher and Evelyn Jones as kindergarten

director were accepted. Member Lindsay invited all the members to be his guests October 31 at the Auditorium, when the Kilties give a band con-

cert, and they joyfully accepted. The board authorized the signing of a petition for paving on Fifteenth street from William to Vinton street.

Upon the recommendation of the claims committee the bill of the David Talbot Ice company for \$76.49 for ice supplied from May, 1903, to June. 1905, was not allowed. the charge being made that the price per 100 pounds was more than that made to board was 40 cents.

The salary of John Kerrigan, instructor in manual training at the high school, was

to exceed \$50 a year.

Upon its own recommendation, the judiclary committee was directed to confer with committees from the city council and county commissioners to adjust election expenses with regard to the use of the new voting machines.

Settlement of Taxes. Authority was given by the board for the settlement of all taxes against school district property now in scavenger law litigafor \$1,400.98. Attorney Herring stated that the settlement would net the board a saving of several thousand dollars and that no taxes other than those which the city and county can collect are to be paid. Secretary Burgess submitted the following

Toomey Cashes One Check. E. C. Toomey of Cheyenne, who was arrested last Saturday night while trying to pass a supposedly bogus check at Goldsmith's saloon at Ninth and Capitol avenue, is said to have succeeded in passing a hed theck on Hugo Bilz, at Fourteenth and Douglas, during the same evening. He took 30 of the 349.16 called for in the check and an I O U from Bilz for the rest. His reason for not taking all of the money was that he was drinking, he said, and wished to leep the money safe. It is thought that other checks will come to light within a day or two.

Rev. J. W. Stenson of St. Philomena's cathedral celebrated requiem high mass Monday morning at the cathedral for the repose of the soul of Frank J. McGinn, who died Friday morning at St. Joseph's hospital. After the service the body was placed in the Holy Sepulcher cemetery. McGinn's life-long residence in Omaha is twenty years of faithful service with the Union Pacific Railroad company and the tragic circumstances of his death-all contributed to make the funeral an impressive one. The cathedral was well illed at the service, many of McGinn's late associates from the Union Pacific local freight office being present.

During the service Father Stenso preached a short sermon. The pallbearers vere: Messrs, Fitzpatrick, Garvey, Gentleman and Lutz from the freight office, and E. J. McVann and John M. McGinn, who were classmates of McGinn at the Creighon university.

R. G. Tobin was arrested about 6 o'clock last night by Detectives Ferris and Dunn, who had been looking for a party who stole an adding machine from Ernest Hoskins. 114 South Fifteenth street. When they had traced the case to Tobin they found that he was also wanted in Falls City, where in July he had defrauded an innkeeper, it is charged, in the matter of his board and lodging. There he represented that he was working for the Rex Stock Food company of Omaha, and on leaving the city drew a check, which was not honored, to satisfy the bill. The Rex people have word from St. Louis also of a similar case, in which Tobin secured goods from a medical company, giving a check on the Rex company in settlement. It is not probable that the case of the adding machine will be prosecuted by Hoskins, as the machine was returned. It was valued at \$150. Tobin Badly Wanted.

STOCKHOLM, Sweden, Oct. 15.-The nion between Norway and Sweden, existng since 1814, has been dissolved, the Riksdag having passed the government bill repealing the act of union and recognizing Norway "as a state separate from the nion with Sweden." The lower house passed the bill without

debate, but two or three members of the senate expressed the opinion the dissolution was an irreparable misfortune and the time would come when Norway would perceive the benefits of the union. Both houses subsequently passed the new flag law. The flag will be a yellow cross on a blue ground, as it existed prior to 1814, the union mark, now showing in the upper left corner, being eliminated.

IOWA TEAM TAKES A BIG BRACE More Life Than it Has Shown Any

Time This Year.

IOWA CITY, ia., Oct 16.—(Special Telegram.)—The work of the Iowa foot ball squad tonight was marked by a wave of enthusiasm that is believed will develop a team that will hold the Gophers to a close score. Eby and Warner, the two tackles on the championship team of 1900, were on the ground assisting Coach Chalmers in directing the forwards how to play an offensive as well as a defensive game. Cresco White and Andy Chalmers, who have been out of the game for the last three weeks, were again in the lineup and tore up the scrubs with their old-time strength. MacGowan, who has practically recovered from the injury received at Chicago, also played with the 'varsity. The regulars showed a spirit and snap in their play that they have not exhibited before this season. The scrubs and freshmen only succeeded in making their first down once and all other times the reorganized Hawkeyes swept down the field at will. Eby and Warner will remain here during the coming week to prepare lows for the Minnesota contest. Time This Year.

PHILADELPHIA. Oct. 16.—As a reward for winning the American league base ball championship, the eighteen players of the Philadelphia club were today presented by President Shibe of that club with \$8.121.49, to be divided equally among the men. This is the amount of the Philadelphia club's portion of the receipts for the first four games of the world's championship series with the New York National league club. The Philadelphia players also received \$6.848.46 as their portion of the receipts of the world's series allotted to them by the National commission. Winning Championship.

WITH THE BOWLERS.

There was a request that last night's scores on the association alleys be buried from public gaze. The Armours were not so bad, but they were away below their average. The brewers hit the 900 mark once and it happened at just the right time to win a game. Dad Huntington broke into the "400" club and there were others who shivered through the last game. Gjerde pounded out his usual fine score and led for the night with 224 and 621. Tonight the Krug Parks are lined up against Charley Black's kittens. Score:

VERMILION, S. D., Oct 16.—(Special.)—With the advent of colder weather foot ball affairs at the university are looking up. The players are fast rounding into form, as the fast scrimmage work of the past few days extests. The second team is the best for many years, and the regulars are given all the hard work they need. Captain Harry Brown, whose injured kneekept him out of the Nebraska game, is improving fast and will don his moleskins in another week. Hvistendahl, the big guard of 1908, is in school and will appear on the field as soon as he catches up with his studies. His weight and speed make him a valuable man. Cooper and Kielbaugh two promising men, are out of the game because of parental objection. Cochrane, for three years on the Denver university team, is in line for a position. The pigskin artists have been given another shock by the faculty. Any player who is not up in his studies three days before the game will not be permitted to play in the next game. He must also bring his studies up to the required standard before he can play again. This means that coach and captain cannot select their team until three days prior to a contest. The requirement is a little strong, but the committee insists and the rule goes from now on.

WATER COMPANY APPEALS

Goes to Higher Court Against Order to Out Meter Rates.

FAIRFIELD AND HETH FINED BY MUNGER

General Manager and Treasurer of Company Assessed Fifty Dollars and Half Costs for Contempt of Court,

E. M. Fairfield, general manager of the Omaha Water company, and Stockton Heth treasurer of the company, were fined \$50 each and one-half of the costs of suit is the United States circuit court Monday morning for contempt of court. The specific charge against them was a failure to appear before Examiner Charles W. Pear 2.541 sall with the books and records of the water company September 22, as directed by the court, and their failure to appear in person and testify in the case at the same time. The costs in this particular case amount to about \$25.

The attorneys for the water company at once filed notice of appeal, the supersedeas bond being fixed at \$300.

Immediately following the imposing of the fine for contempt in the case of Fairfield and Heth the court, on its own motion, dismissed the suit of the Omaha Water company against the City of Omaha and the Water board of the City of Omaha on the ground that there was no cause of action and that the plaintiffs declined to submit an amended bill, preferring to stand on the original bill. This bill was an application for an injunction to restrain the Water board of the city from carrying into effecits order reducing the meter rate on water from 35 cents to 25 cents per thousand gallons. The application for injunction was filed in July, 1905, and has been pending in various forms since that time.

This order of the court consequently annuls the injunction and permits the orde of the Water board to stand. However, the appeal of the case to the circuit court of appeals makes one more step to take before the order becomes effective.

NORTHWESTERN HOLDS KEY

Could, by Extending Black Hills Line, Bring Vast Trade to Omaha Jobbers.

"If the Northwestern were extended from Bonesteel to connect with the line which the Milwaukee is building from Chamberlain, across South Dakota and through the Cheyenne country, Omaha could divide with Chicago and the Twin Cities the trade of the new territory which is being opened. If the line is not ex-

country which is to be watered by the Belle Fourche irrigation project, for which the government has appropriated \$2,100,000, and on which a large force of men is now at work. Also southeastern Montana would become a buyer in Omaha's markets

"The Milwaukee is grading west from Chamberlain on a line which will connec north of the Black Hills with the proposed line of the Milwaukee to the east. It has seventy-eight miles graded and the rails will be laid this fall. Across this same territory in another direction the Northwestern is building from Rapid City to Pierre, It crosses the Milwaukee. Now seventy-five or 100 miles of road are all that would be required to extend the Northwestern from Bonesteel to meet the Milwaukee west of Chamberlain.

"With this extension Omaha would have an equal show with Chicago for the trade of practically all of South Dakota when the Northwestern and Milwaukee have finished their lines.

"I believe that Omaha and all the towns in this part of the state will one day burn natural gas piped from Pierre," said Mr. Hipple. "We have an inexhaustible supply up there and it can be piped to Omaha and nade the cheapest fuel which can be bought. The people of Pierre have a firm belief that it will be done. I think it is bound to come."
