Hawkeyes Steadily Improving. IOWA CITY, Ia., Oct. 17.—(Special Tele-tram.)—The practice of the Hawkeye squad onight was as enthusiastic as last night in spite of the drizzling rain that fell durin spite of the drizzling rain that fell during the entire afternoon. Coach Chalmers and Assistant Coaches Eby and Warner worked with the squad for two hours. There was no scrimmage work, the team first spending all of its time in running signals. The hospital list was closed last night and there were no additions tonight. Iowa will have as strong a team as it can possibly get together when it meets the Gophers in Minneapolis and from the spirit with which the men have entered the work this week there is every prospect that the score will be a close one. The entire squad has shown a phenomenal increase in speed, both in lining up and in running off the plays. If the present speed can be maintained or increased it is believed here that Minnesota will have a hard time in stopping the weight of the Hawk-

The cold and stormy weather has brought the ducks from the north in droves, especially the smaller birds, the blue wings and a few red heads and mallards. This has sent many of the Omaha nimrods to the fields, among whom are Charles and Fred Metz, who have established their fall shooting camp near Cody, Neb., for a month's shoot. Many other parties were out over Sunday and brought back the limit. Rhody Kennedy, James Allen, Presburg and reported good shooting. Many others are planning to go this week. The information filed alleged that Robinson had eighty-seven ducks and sixty-nine prairie chickens when a game warden got to him. Fifty is the maximum number of game birds that a hunter may take at any one time. The state law provides a fine of \$5 per bird for all over the legal limit and the game wardens assert they are going to enforce the law in every instance where they can get evidence. Several convictions already have been had for illegal fishing and the state officers having the enforcement of the law in charge express confidence that the sections relating to game birds will also be upheld by the courts.

Escort of the Europeans Runs from Attacking Party of Less Nambers and Men Are

Overpowered.

TANGIER, Morocco, Oct. 17 .- The British marine officers have been captured and carried off by the Anjera tribe while returning to Ceuta from the British repair ship Assistance, recently wrecked in Tetuan bay.

The officers captured are Captain John E. Crowther and Lieutenant Edward A. S. an escort of twenty-one Riff tribesmen and were attacked by half a dozen Anjeras, under a brother of Valiente, the brigand chief who was recently arrested at Tangier. The Riffs fled and the two officers were overpowered. The same band lately hammed El Torres, has dispatched couriers to ascertain the whereabouts of the captured officers and open negotiations with their captors, whose object, supposedly, is to secure a ransom and the release of Vallente, who is now imprisoned at Fez. Later in the day communication was effected with the captives. The brigand chief demands as the terms for their release the freedom of Vallente. The con-

British Foreign Office Acts. LONDON, Oct. 17.-The British Foreign office has sent instructions to its minister to Merocco to take the most energetic measures in regard to the capture of the two officers of the Royal marines by Anjera tribesmen. Several British warships are already off the Moorish coast in connection with the wreck of the repair ship Assistance in Tetuan bay, so, it is pointed out, there is plenty of force available to impress the Moorish authorities with the necessity of prompt redress.

Moors Fire on Torpedo Bont. GIBRALTAR, Oct. 17 .- The British torpedo boat destroyer Chewell reports that yesterday evening, while anchored between Ceuta and Ceres it was fired at by Moors whose bullets pierced its funnel. The Cherwell threw its searchlight on the assailants. There were no casualties.

An Associated Press dispatch from Gibraltar, under date of October 12, reported the Assistance ashore in Tetuan bay, Morocco, and that warships, steamers and lighters had gone to the aid of the vessel, which, owing to a heavy gale, was in danger of going to pieces. The scene of the wreck is about fifty miles south of Gib-

raltar. Ceuta, to which place the British officers were returning when captured, is a scaport on a small peninsula in the north of Morocco, jutting east into the Mediterranean sea at the entrance to the Strait of Gibraltar. The Anjera, an Arab tribe, inhabit the extreme north of Morocco.

As to Markel Contract, Theodore P. Shents, chairman of the commission, said that the reason for the revocation of the contract which had been awarded to J. E. Markel for the feeding of the canal employes was that the commission had decided to feed the men with its own equipment.

"The Markel contract was dissolved by nutual consent," he said. "It was largely tentative. It was entered into under great pressure and before we were really in condition to act intelligently in the matter. I was personally against the letting of a contract at all. My idea was that so long as the government was to install the plant for this purpose that it should be run by the commission. After the contract was finally entered into I received word from the Isthmus that things were working more satis factorily, supplies coming in better and altogether thy were getting matters into shape so that they could handle it for the present. Mr. Stevens advised to hold off about the contract. I took Mr. Markel down with me and after looking the ground over with him I proposed to him that we call the entire contract off, as the only reason it was made was the apparent urgency and inasmuch as it was based on guess work, neither he nor I could tell whether he would lose money or make it under the terms agreed upon. Mr. Markel was very nice and agreed to waive the thirty days' notice under which I could terminate the contract at any time."

MAYOR BOUND ON REAL TEST

Charges Against Employment Agent Sweeney Mayor Moores is interesting himself

THE TERROR

Rheumatism is usually worse in Winter because of the cold and dampness and other changed conditions of the climate. The occasional twinges of the disease that are felt during the warmer weather are changed to piercing pains, the muscles become inflamed and swollen, the nerves get sore and excited, the bones ache, and Rheumatism, the terror of winter, takes possession of the system. Then the sufferer turns to the liniment bottle, the woolen clothes, the favorite plaster or some home remedy, in an effort to get relief. But Rheumatism is not a trouble that can be rubbed away or drawn out with a plaster; these things relieve the pain and reduce the inflammation, but do not reach the real cause of the trouble, and at the next exposure another attack comes on. Rheumatism is caused by a sour, acid condition of the blood. The refuse matter and bodily impurities which should be carried off through the channels of nature have been left in the system because of indigestion, weak Kidneys, torpid Liver and a general sluggish condition of the system. These impurities sour and form uric acid, which is absorbed by the blood and distributed to the different muscles, joints, nerves and bones, causing the painful symptoms of Rheumatism. S. S.
