SOLAR STOVES

sition for long lasting and fine working qualities. Every Omaha family that uses them knows them as the best stoves made. We sell this iron range at \$4.00 down and \$4.00 per month, and this oak at \$3.00 down and \$3.00 per month, or a cut price for cash.

This Solar Iron Range will heat as much room as a base burner, twice as much as any steel range will, because steel ranges are asbestos lined. This range will last twenty years and do as fine baking as any first-class steel range will.

This Solar Oak is the cleanest and longest fire keeping soft coal stove made. It is clean because it has a front feed door and ask pan. A soft coal stove out of which the ashes have to be shoveled and the coal put in the top is the dirtiest thing under the sun and no clean and tidy house wife will use one. The Solar is air tight because its bottom is cast in one piece—so it will never spring or leak.
