HOLES IN ELECTION LAWS

Supreme Ceurt Holds Register of Deeds Must Be Elected This Fall.

NO DECISION IN PRIMARY ELECTION LAW

Lincoln Y. M. C. A. Starts Out on Hustle for Funds to Commence Work on New Building-Greeley Man Pardoned.

(From a Staff Correspondent.) LINCOLN, Oct. 18 .- (Special Telegram.) A county register of deeds will be elected this fall, the supreme court this evening having decided the law regulating the election of register of deeds invalid. Chief Justice Holcomb and Judge Sedgwick held the law bad, while Judge Barnes dissented.

An opinion will be written later.

The validity of the law providing for the election of county supervisors probably will be passed upon tomorrow, while the Douglas county primary election law decision may not be handed down until the next sitting of the court.

The cases involving the validity of the county register of deeds law came up from Gage and Buffalo counties, where nominees for the office brought suit to compel the county clerk by mandamus to put the names on the official ballot. The mandamus will issue, as the majority of the court held the law is unconstitutional.

Both this case and the case involving the validity of the county supervisor act were argued this afternoon, the attorneys concluding after 6 o'clock. The judges at once went into consultation and decided the register of deeds case and then concluded to wait until tomorrow before passing upon

Judge Barnes, speaking for the court, said he regretted the inability of the court to pass upon all the election laws today, but attributed it to the fact that the cases were not filed until the last minute, when they might have been filed weeks ago. In dissenting in his opinion Judge Barnes held that the register of deeds is not a constitutional office and therefore the legislature has authority to regulate the election of a register of deeds without violating the constitution. The majority held the legislaoffice of the register of deeds.

Y. M. C. A. Men Hustle The Young Men's Christian association mmittees have started out with a whoop o raise the \$10,000 necessary to construct a building for the use of the association. Secretary Maine has opened headquarters in the Missouri Pacific ticket office at he received yesterday afternoon, after the work had been in progress only a few hours was that \$3,300 had been raised and in many instances parties had subscribed twice as such money as had been expected from them. As soon as \$25,000 is raised, the money will be used to construct a portion of the building to provide for a dining room, baths and gymnasium, while the other por tions of the building will be constructed as rapidly as possible. The committee in charge has pledged itself not to incur any indebtedness. The association already owns to house canvass is being made.

Sues on Oil Contract. The Van Dorn Iron works of Cleveland which put in the new steel cells at the state penitentiary, has asked the district court o compel Auditor Searle to issue them a warrant for the balance due on his contract, some \$3,300. Mr. Searle refused to issue the warrant because he held the work was not done according to the contract. The Board of Public Lands and Buildings allowed the claim.

The Postal Telegraph company amended its articles of incorporation on file in the section was changed. Where it vided that the capital stock should be \$50,000, one-half of which may be paid in by the acquisition of telegraph lines, was changed so that the entire amount may be taken up by the acquisition of other lines. It is presumed that the company intends to do a little branching out in Nebraska and probably get hold of some of the railroad lines.

Smoke Stack is All Right. Treasurer Mortensen and Secretary o State Galusha yesterday inspected the Beatrice institution at the request of the superintendent, who was afraid that the large smoke stack attached to the engine house was unsafe. The two officers were accompanied by an expert who after a careful examination said the smaoke stack was entirely safe and there was no danger of it collapsing or falling in for years to come. The smoke stack is constructed of brick and is 100 feet high and owing to the fact that it was some time ago struck by lightning it was thought to be unsafe and liable to fall through the roof of the engine house and smash an engine. Both Mr. Galusha and Mr. Mortensen went through the institution and reported it to be in excellent condition.

THE VALUE OF CHARCOAL.

Few People Know How Useful it is in Preserving Health and Beauty. Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gases and fmpurities always present in the stomach and intestines and carries them out of the system. Charcoal sweetens the breath after smok-

ing, drinking or after eating onlone and other odorous vegetables. Charcoal effectually clears and improves the complexion, it whitens the teeth and

further acts as a natural and eminently mfe cathartic. It absorbs the injurious gases which collect in the stomach and, bowels; it disinfects the mouth and throat from the poison

of catarrh. All druggists sell charcoal in one form or another, but probably the hest charcosl and the most for the money is in Stuart's Charcoal Lozenges. They are composed of the finest powdered willow charcoal and other harmless antiseptics in tablet form, or, rather, in the form of large, pleasanttasting lozenges, the charcoal being mixed

The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter reath and purer blood, and the beauty of it is that no possible harm can result from their continued use, but, on the contrary, great benefit.
