CHICAGO, Oct. 28.—Speculative tactics controlled the wheat market here today, support from a leading bull causing a strong finish. At the close wheat for December delivery was up 'ac. Corn and oats are practically unchanged. Provisions are down 25section. SALES NEARLY ONE MILLION SHARES

Low Grade Industrials and High Priced Railroad Shares Are Bid Up by Speculators.

NEW YORK, Oct. 26.—Dealings in stocks expanded today and the market broadened out into greater animation and strength than for a long time past, the sales for the day rising to a total of 26,000 shares. The demonstration, which was in the nature of the celebration of the distinct relaxation of money conditions, was to a large extent in the hands of the professional element. Commission houses continued to complain of small business.

The celebration took on a rather riotous form during the progress of a series of skyrocket movements in a miscellaneous assortment of specialties, many of which do not appear on the tape for months at a time. Practically every stock of the class listed on the exchange was brought into the movement at one time or another. But this did not discourage the continued attention to a class of gilt-edge and high-priced railroad stocks, owing to the great facility with which wide price movements can be produced in these stocks, of which the floating market supply is always vary small. The consequence is that prices may be bid up in such, cases by points or even by 5 and 16-point iffervals without bringing any offerings, where an advance of 's,' or 's in an active market leader would mecasistate the absorption of thousands of shares in order to hold the advance. The rather-fore, of coincident movements in flantagardan Grass Twine, American valued from 11 to 10 a share, as from 1500 to over 1400 a share, and favored a pain of about a point, however, the advance occurring mostly after the movement in the specialities had proceeded for some time and being prompted apparently by a realization on the part of the conductory of the movement, of the incongruity of the hardness of the standard stocks averaged a gain of about a point, however, the advance occurring mostly after the movement in the specialities had proceeded for some time and being prompted apparently by a realization on the part of the conductory of the movement, of the incongruity of the hardness of the standard stocks.

LONDON, Oct. 20.—Rates for money and discounts were maintained in the market today and the conditions were little changed. On the Stock exchange a better tone prevailed on bear covering, but trading was inactive. Consols were steady, bearing up kindred securities. Americans bearing up kindred securities. Americans opened steady, grew firmer on New York opened steady, grew firmer on New York support, were mostly above parity and rather idle, rallied further during the last hour and closed firm, with some stocks below the best quotations of the day. Kaffirs hardened, though operators were nervous through fears of further liquidation. Japanese imperial 6s of 1964 were quoted at 1613.

BERLIN, Oct. 20.—Trading on the Bourse today was much more cheerful on account of cheaper money. Many domestic shares of cheaper money. Many domestic shares were higher.

BOSTON. Mass., Oct. 20.—WOOL—The Commercial Bulletin will say tomorrow of the wool market: The position of the Australian and South American markets has strengthened prices here. The woolen and dress goods mills have become more active during the last week and they have taken substantial amounts of greasy and scoured wools. A very good movement in scoured is reported and sales of grease territory have been generally confined to small amounts, although the aggregate has footed up to a substantial volume. Callfornia, Texas and Nevada wools are in a little better demand owing to the activity of the woolen mills. A fair business in three-eighths and half-blood fleeces has been done, and delaine has shown some improvement. Pulled wools have been comparatively quiet. Australians have not moved to any extent, and South Americans are without appreciable demand. Some further 1995 contracting has been done in a small way in Idaho and Utah. The high prices asked by growers in all western states, owing to their unwillingness to sell so early, have proved a barrier to substantial contracting. The western wool growers look for a banner year in 1995 and in many instances think that the limit on prices has not yet been reached. The shipments of wool from Boston to date, from December 29, 1904, according to the same authority, are 186.688.364 pounds, against 186.394.644 pounds at the same time last year. The receipts to date are 29,-246.314 pounds, against 38,394.644 pounds and clothing, 297, medium grades, combing and clothing, 297, BOSTON, Mass., Oct. 20.—WOOL—The Commercial Bulletin will say tomorrow of the wool market: The position of the

Metal Market.

NEW TORK, Oct. 20.—METALS—The London metal markets were generally easier. Tin closed at £13 lis for spot and £15 is for futures. The market was a shade lower in sympathy, spot being quoted at \$22.874.221.82%. Copper closed at £72 is for spot and £70 los for futures in the London market. Locally the situation was without apparent change. Lake is quoted at £15.74.2016.75; electrolytic at \$16.259 li6.62%, and casting at \$16.00216.37%. Lead was quoted at £14 is \$6.00216.37%. Lead was quoted at £14 is 66 in London, and remains locally where quotations are more or less nominal. It is reported that but little lead is available for immediate delivery and the price is held at \$5.0026.05. London preducers are still quoted \$4.55 for thirty-day shipments. Speiter closed at £25 i28 56 for spot in London. Locally the market shows continued firmness with spot closing at \$6.55625. Iron was lower abroad, closing at \$6.55625. Iron was Metal Market. with previous Fridays.

With such light receipts the supply of beef sieers was very moderate, as might be expected, and there was not enough of any one kind on sale to make very much of a market or create very much interest. Buyers, however, evidently wanted more cattle, as they were all in the saddle early and complaining about the slowness of the railroads in delivering the stock to the yards. When the cattle finally put in an appearance the most of them sold in very fair season at prices that were just about steady with yesterday.

Cows and helfers were also in moderate supply, while the demand, as has been the case all the week, was active. Under the influence of the very good demand prices firmed up somewhat and the general market might be safely reported as a little stronger than yesteday. The buyers picked up everything about as fast as it showed up and it did not take them very long to clear the pens when the trains were all in. The cow market has been very good all the week and prices have gradually tended upward.

ard. As usual toward the close of the week there was no very great demand for stockers and feeders, but as the supply was far from large holders generally were able to unload at yesterday's prices. This means that anything desirable was steady, with inferior grades a little slow. Representative seles:

the week, the trade being fairly active and prices very satisfactory to the owners every day. While feeder lambs sold as high as 16.00, the top price of the season, the general market on feeders has not changed so very much. The fact is feeders were high enough last week to suit most any one.
