fu president of the Nebraska, Wyoming & Sturlington lines already constructed, but will also require the construction of many miles of new line.

The exact route of the line for the whole gap being unknown is that between the San Francisco to Chicago, but the general city of Salt-Lake and the junction with manager's office of the Union Pacific has

Into North Platte.

It is definitely announced that a line will be built from the present junction of the Burlington and the Platte river at Bridgeport to the town of North Platte. The prospecting party which the Burlington has sent into the field has gone to Cheyonne and is working north from that

An amendment to the articles of incorporation of the Nebraska, Wyoming & Western railroad have been filed in the interview published in The Bee with Genoffice of the county clerk by President G. W. Holdrege and Secretary G. W. Durkee. The amendment covers the building of a ranch line which is to begin at a point at or near Bridgeport, Cheyenne county, and run in a southeasterly direction through Cheyenne, Deuel, Keith, Lincoln, Davison, Frontier, Gosper, Phillips and Buffalo counties to some point either on a little figuring. the line of the Nebraska & Colorado railroad between Somerset and Holdrege or a point on the line of the Burlington & Missouri River road between Kearney and Lowell. The estimated length of the proposed branch is 250 miles.

Statement by Mr. Holdrege. When seen at the headquarters Satur-

day morning, and asked for a comfirmation of The Bee's report, Mr. Holdrege said: "In 1900 the Burlington constructed a line between Alliance and Brush, forming the best line between Denver and the Black Hills, Montana points, Spokane, Seattle and the northwest. This line crosses the north fork of the Platte river at old Camp Clarke, now Bridgeport, on the south and Northport on the north bank. In the same year a line was constructed from this crossing of the river up the valley along the historic Oregon Trail to the iron mines at Guernsey, where 3,000 tons of ore are now being mined daily and shipped to Pueblo, Colo. At the same time the location for a first-class line was completed to the office of assistant. That he is a good judge of human nature is demonstrated by the fact that all of the men in construct a direct low grade line from this crossing of the north fork of the Platte river to the town of North Platte, and to a connection with the main line of the road at the most convenient point east thereof.

Past ten years, each incumbent having been quickly graduated to a high post. Mr. Harshan is a fast friend of clean young men, and he tests their characters in the office of assistant. That he is a good judge of human nature is demonstrated by the fact that all of the men he has shoved up have brought credit upon their sponsor.

Ten or eleven years ago David Ross was assistant to Mr. Harshan after a few years in the place, Mr. Harshan made the red is very streng. An excellent demand for fancy goods prevails. Olives of good grade are very scarce and command a fancy price. With the advent of cold weather country merchants are making large purchases of syrups. New buckwheat flour is now on their sponsor.

Ten or eleven years ago David Ross was assistant to Mr. Harshan made the road at the most convenient point east the red of the company. The place is a price of the road at the most convenient point east the red of the company. The place is a price is toward higher prices. Mackerel is very streng.

An excellent demand for fancy goods grade are very scarce and command a fancy price. With the advent of cold weather country merchants are making large purchases of syrups. New buckwheat flour is now on the market and the demand for syrup rose with the endency is toward higher prices.

The office of assistant. That he is a making large purchases of syrups. New buckwheat flour is now on the market and the demand for syrup rose with the indence is very streng.

An excellent demand for fancy goods the historic Oregon Trail to the iron mines past ten years, each incumbent having

through the North Platte Valley and he will be boosted by Mr. Harahan. through the town of North Platte, and the extension to Salt Lake, will develop sufdelent trame to be of no disadvantage to other railroads that have been constructed. Pucific and that these improvements will form necessary and important additions to the xisting Burlington lines now in operation in the territory west of the Missouri river.

"It is rumored that some opposition may urise from competing companies to these plans, but whatever obstacles may arise, this work that has been fully determined upon will be carried through. Construction now under way and will be prosecuted

gorously." When asked as to the probable time the Burlington would build the line now under construction from Francie to Basin, on to Thermopolis, Mr. Holdrege said: "This is progressive age and there will be plenty Denver last night and are today camped business in that territory, and the near the Burlington round house, just east religious on probably will go right after it. Burlington probably will go right after it. There is quite a gap between the North- Hoagland, and with him are between thirty

UNSEEN DANGER IS ON OUR TRACK From the time of our birth till we lie from the dangers of disease is vigor of body and activity of the natural func-

lish normal digestion and assimilation and prove a reconstructive rather than a promoter of waste. This will give noture a full chance to put in motion normal work of repair and tissue building. Such a tonic was grown in Nature's Laboratory, hidden in the ground and brought thence forty years ago by Dr. R. V. Pierce, who has made the treatment of lingering diseases his life-iong study and care.

He uses giveeric extracts instead of alcaholic ones, exactly proportioned and tion and assimila

He uses glyceric extracts instead of alceholic ones, exactly proportioned and combined by processes of his own invention, first used in his private practice and now given out freely to the world in his "Golden Medical Discovery," which is composed of Golden Seal root, Queen's root, Stone root, Black Cherrybark, Bloodroot and Mandrake root.

Mrs. A. T. Jones, of 993 Haves Street, Sea

root and Mandrake root.

Mrs. A. T. Jones, of 200 Hayes Street, San I rancisco, Cal., writes: "As a child I was achicate, and great care was taken of me because some of my relatives had died of consumption, although my father and mother were healthy. I grew up with only the ordinary diseases of all children, but about two years ago I contracted a severe cold, which would not yield to such home-treatment as was handy. Doctors were tried, but after three months of this treatment I was only worse. Then I was advised to try Dr. Pierce's Golden Medical Discovery, and am glad to say that three bottles not only cured head to say that three bottles not only cured head to say that three bottles not only cured better than I ever had before. I will always have a bottle of this medicine in the house."

These thry, sugar-coated anti-billous granules regulate and Bowels. Do not byget the 'pill habit," but cure constitution. One or two sach day for a laxative and regulator, three or four for an active cathartic. Once tried always in favor. Fur up in viale: always

New Overland Limited.

Business is so greatly on the increase with the Union Pacific that an entirely Heavy Demand for Seasonable Goeds new train will be run from Omaha to southern California. This will be no slow train, but a second Overland Limited, with

time equal to that now made by the San Francisco Overland. The train will be put in operation about December 1, but it has not been determined as yet whether it will leave Omaha in the morning or evening. This unnamed Overland Limited the sec ond will run to Salt Lake and thence to Los Angeles over the new San Pedro line. It will be the most modern train that money can buy, with electric lights, obser-

cisco for E. H. Harriman, and he will be hastened to the east as soon as he alights from his steamer. Persistent reports have been in circulation that Mr. Harriman will listance is not given out. The only try for a record long distance run from city of Salt-Lake and the junction with the main line. It is not announced whether the line will run from North Platte to join the southern main line or whether it will run east to a junction with the Alliance line.

Into North Platte.

San Francisco to Chicago, but the general manager's office of the Union Pacific has had no notification of any such a plan. It is admitted as probable that such a run may be made, as the Union Pacific track is in excellent condition after the millions of dollars have been spent in putting in heavier rails and straightening. putting in heavier rails and straightening

After the wail sent out by contractors for city improvements for men and the interview published in The Bee with General Manager Smith of the street railway company that men were hard to get comes the cry of the railroads that men are scarcer than hen's teeth. Men are wanted in all departments. The clerical forces at both the Union Facific and Burlington headquarters are short and the chiefs are searching everywhere for men who can do a little figuring.

Laboring men also are hard to find for the railroads, and an increase of wages has been made by both the Burlington and Union Pacific. Truckers at the freight houses have had their wages raised from 15 to 17 cents per hour. Callers and storers have been railsed from 17 to 19 cents an whenever there is to be a decline it will be gradual.

As far as the local market is concerned there have been no changes of price worthy of note for the last ten days. Things are moving along about as they have moved, with a good current demand and large orders for spring delivery. Jobbers are well satisfied with trade conditions. In sugar the situation is settled. No changes have been made in the prices of refined for the week, but taws are a little demand is exceedingly good and much larger than was expected considering the heavy movement of the last four or five weeks previous to the readjustment of freight rates.

Cheese opened early in the week at about the same basis as that of last week, but the same basis as that of last week, but the same basis as that of last week, but the same basis as that of last week, but the same basis as that of last week, but the same basis as that of last week, but the same basis as that of last week, but the same basis as that of last every a slight eccession in whenever there is to be a decline it will be gradual.

As far as the local market is concerned there have been no changes of price worthy of note for the last ten days. Things are moving along about as they have moved at the read and large or ders for applications. In sugar the situation

MAY BUY COLORADO & SOUTHERN

Burlington Also Said to Be Seeking New North and South Line. CHEYENNE, Wyo., Oct. 21 .- (Special.) The Burlington surveyors arrived from vestern's lines and the Burlington's in and forty men, consisting of rodmen, axmen, surveyors, laborers, cooks and teamsters. The party has undoubtedly been

fitted out at a cost of several thousand

dollars. Little is known of their plans. A car of stakes was shipped north over the Colorado & Southern this morning. Whether these are to be used along the line of the Colorado & Southern or westward from Guernsey is still to be seen. The current report is that they are to proceed along the-line of the Colorado & Southern and make an accurate report of the condition of that road with a view to its purchase by the Burlington. The recent wrecks have caused the Colorado & Southern to be very desirous of disposing of its northern branch, and the fact of the reservation in the moragage on file in the county clerk's office here that the company will sell the northern branch at any time is. taken as another indication of the proposed transfer. Should the line pass into the hands of the Burlington it is the intention of that company to practically rebuild the line and put on first-class service. By this purchase it would secure a north and south line from Denver to Orin Junction, and it is undoubtedly its purpose to further extend its line so as to connect with the northern branch, probably at Newcastle. After the party has passed over the Colorado & Southern it is the intention to begin the survey of the line westward from Guernsey toward Salt Lake City, there to connect with the Western Pacific. This would give it practically control of the entire freight business of this portion of the west and greatly hinder the movements of the other contemplated lines

in this section. the Burlington contemplated the building of a line westward from Guernsey. For several years it has been acquiring rights to coal lands in Sweetwater, Carbon and Albany counties. An Ord, Neb., company, which is supposed to be working for the Burlington, has recently purchased vast areas of coal lands in southern central Wyoming, and these will probably be turned over to the Burlington when the road is completed. The holdings of this company are so vast that it has taken nearly half a million dollars to secure patent rights thereon.

CONDITION OF OMABA'S TRADE

WINTER FOODS ESPECIALLY ACTIVE

in All Lines.

Prediction is Made that a Decline In Cotton Cloth Will Take Place-Advance in Shoes in Expected.

line.

A rise in 25 per cent in certain grades of shoes is expected all over the country. Chicago manufacturers announced a few days ago that they would put up prices. This is caused by the fact that hides cannot be obtained for tanning, even at the high figures offered. The packers have control of the limited stock and are not control of the limited stock and are not

out the kinks, so that no finer roadbed can be found anywhere, and besides. Mr. Harriman is not afraid to have the wheels turn any time he travels.

Men Scarce on Railroads.

"Men, men, men," is the cry on all sides, and he who cannot find work in Omaha is surely trying to dodge it.

After the wail sent out by contractors for city improvements for men and the Cotton Goods May Decline.

is to 17 cents per hour. Callers and storers have been raised from 17 to 19 cents an hour, and the section men on the Burlington from Omaha to Gibson have been raised from \$1.40 to \$1.50 per day. The Union Pacific has followed suit in this raise.

Mascot Job that is Coveted.

There is one job on the Illinois Central railroad, that of assistant to Vice President J. T. Harahan, upon which the eyes of every young man connected with the system are riveted, because it has proved a mascot of the first caliber to every man who has occupied the place during the Winter Foods in Demand.

Winter Foods in Doubled Such and storers made stock there was an advance of \$1.00 to \$1.50 per the ground. Holders ideas are firm rail whenever there is even a slight eccession in prices they prefer to hang to their stock rather than accept a fractional loss. The coffee market in first hands has been neglected. Speculation has been light for the week. America is carrying the largest stock in the history of the country, while Europe is short. The spot market is a little easier, and sevens may be purchased at \$8 cents to \$2 cents to \$2 cents of the Brazil crop has been in by this time. If the same is true this year, there is undoubtedly a light crop. Coffee is in strong hands and may go higher, say the local Jobbers.

Winter Foods in Demand. Fish are about the same as last week, out the tendency is toward higher prices.

Rice in Very Active. Some time back there was a determined effort to depress the rice market. Those

who had sold short in New Orleans got themselves together to force the market down. Immediately, however, well posted operators posted every jobber in the United States on the true conditions. In the meantime the unfavorable and stormy weather in the south has seriously interfered with marketing the crop, and not only that, has more or less damaged a considerable part of the rice that is in the stack. Under active demand the market has been advanced ac per pound on head rices and a full half cent on Japans. Jobbers think this advance will be held at least until the middle of December, After that time there may be lower prices, but certainly not until there is some accumulation of stock, which at the present time does not appear at any point. The demand for rice is very heavy.

OUT OF THE ORDINARY.

Pineapples are so plentiful in Natai at certain seasons that they are not worth carting to market, and so are often given to pigs.

According to the governor of Oregon, man has stolen more than 100,000 acres from that state. However, the state still owns a plot large enough to accommodate a peni-tentiary. Paper car wheels made by pressure from

rye straw paper are usually good enough to take a second set of steel tires after the first set has been worn out by a run of 300,000 miles. Many Greenland women are perfectly bald on the sides of their heads, owing to their method of dressing the hair, which is pulled back with painful tightness and held in place by a ribbon.

The deepest gold mine in the world is at The deepest gold mine in the world is at Bondigo, in Australia. The mine in question is called the New Chum Raliway mine, and its main shaft is sunk to the depth of 3,900 feet, or only sixty feet short of three-quarters of a mile.

John Huggett of Vineland, N. J., has been a section foreman on the West Jersey railroad for just forty years, having begun work on that line October 12, 1885. On numerous occasions he has been complimented by the company on his superior work. In December he will be 70 years old.

Chicago has a murderer whom it is de-

Chicago has a murderer whom it is de-clared impossible to hang, owing to a rare condition under which his windpipe is pro-tected by a most uncommenty stiff and medically interesting neck. The only solu-tion thus far suggested is to comply with the law, hanging him all the same and let him starve to death.

the law, hanging him all the same and let him starve to death.

Because the customs officials said there were sixty pounds to the bushel when the importers declare there are only fifty-seven, a New York commission house has brought action for excess of duty and filed a bushel of the onlons until the case comes up for settlement. The onlons are now in the New York postoffice building, and everybody in their vicinity is said to be weeping.

An interesting character is an old Mexican Indian woman, Mrs. Fermina Sarras, who has just sold a mine near Hawthorne, Nev., to an eastern syndicate for \$50,000. For years she has dressed in men's clothes and personally worked her claim herseif, doing washing for prospectors and miners in order to secure necessary money. She says that she now intends to rest and enjoy the results of her long years of privation and hardship.

The scene of revolution shifts to Wil-

tion and hardship.

The scene of revolution shifts to Williamsport, Ind. There 200 husbands are reported to have banded together to resist the despotism of the clubs, teas and whist parties that have robbed their domestic hearths of the presence of their once domestic helpmates. The campaign is only in its beginning, but before the revolution is over social life in Williamsport will take on a different aspect or the brave 200 will know the reason why.

LABOR AND INDUSTRY.

During the present year the Pennsylvania railroad has placed orders for 31,300 freight cars and 500 locomotives. Los Angeles (Cal.) Labor Temple sells enough union cigar to keep twenty union cigar makers employed. Over 45,000 were sold last month.

The supreme court of Michigan has held that the law requiring that a classes hat the law requiring that a clause be nserted in contracts for public works to employ union men is constitutional. The idea of compulsory insurance is being adopted against great opposition by sev-eral American labor organizations, and is copied after European labor unions who have had the same in force for years.

ment already has been discussed in the grand councils of the organization. It is expected that it will assume definite form within the next two months.

WANTED-MALE HELP

WANTED-MALE HELP

POSITIVE PARAGRAPHS FROM BOYLES

BEING A TALK TOUCHING ON TELEGRAPHY

Telegraphy is one of the new professions open to women. It is one of few fields in which the chances for the young men are ever broadening. But you cannot learn it in the old way any longer. Perhaps you would not want to learn it that way if you could. 'The old way' was to become a telegraph messenger at a stupendous salary of \$1.98 a month or thereabouts and then, when one of the operators felt like it, or was not too busy, he would give you a faint, misty idea of the rudiments of Telegraphy and then you would proceed to pick up the rest. It would take you from two years to five years to do that, depending on how busy they kept you delivering messages. But the great railway and great telegraph lines and big brokerage concerns all over the country have not much use any longer for the telegraph operator who has "picked it up." They want the man who is an Expert Telegrapherthe man who understands electricity as it is applied to Telegraphy. want the man who has STUDIED Telegraphy and then graduated in Telegraphy from some Telegraphy College, just the same as most corporations prefer the lawyer who has secured knowledge in a college, instead of "picking it up."

BOYLES COLLEGE

Has a Telegraphy Department with a Telegraphy course more practical than any Telegraphy Department of any college in this section today, an equipment hat is more complete than that of any other Telegraphy Department we have ever seen, and presided over by a Telegraphy Instructor who is practical to his finger tips—a telegraph operator taken from one of the most important posi-tions on the Union Pacific Railway.

Boyles College believes that it would be better for you to attend Boyles College Teregraphy Department than to attend any other Telegraphy Department in any other college in this section of the country. If you will pay the college a personal visit we can prove this to you. At any rate, send for cata-

A BEAUTIFUL HEAD OF HAIR

hanced by her possession of fine hair, or her beauty is sadly dimmed by her lack of it. Every woman owes it to herself to keep her hair healthy. Dandruff means death to the hair. In time it will entirely destroy the roots of the hair itself. Men, women and children who suffer from dandruff cannot hope to develop the full health and beauty of their hair until the scalp is entirely relieved. If you want your hair to keep soft, brilliant, and full of the lustre of health,

ED. PINAUD'S

EAU DE QUININE HAIR TONIC regularly and consistently. It is a natural food for the scalp, stimulates the roots of the hair and strengthens the follicles permanently. Beautiful hair results from

It banishes dandruff permanently, and gives the roots of the hair strength to resist all diseases of the scalp-the natural enemies to beautiful hair. We are the largest manufacturers in the world of toilet preparations and high grade perfumes. Our name is

of highest quality. PARFUMERIE ED. PINAUD, PARIS. FREE to the Readers of this Newspaper.
