

FRANK BANDLE NOMINATED

Named by Republican Committee for County Register of Deeds.

CHOICE MADE ON THE FIRST BALLOT

Judge Sutton Declines Committee Nomination of Register and Road Overseer Within Bounds of the Law.

Frank Bandle was nominated for register of deeds by the republican county committee at a meeting held yesterday afternoon from which twenty members were absent.

The committee cast votes in accordance with the number of ballots cast in their respective precincts at the primary, one for every fifty ballots. The first roll call gave the following result:

Frank Bandle 149 B. C. Miner 113 M. J. Greevy 111 John F. McArdle 111 Mr. Bandle's nomination was made unanimous and he thanked the committee in a brief speech.

Committeeman Witt started a motion to begin making up a petition for the ballot in his name could be got on the ballot in no other way, said Attorney C. W. Britt.

At 2 o'clock Saturday afternoon Judge Sutton rendered his decision in the mandamus proceeding brought by Attorney C. W. Britt for the republican county committee against County Clerk Drexel.

When the case was taken up Saturday morning Attorney Britt read a stipulation entered into between himself and County Attorney Silabach as to the facts.

By further agreement between the parties to the suit it was decided to bring to the attention of the court the decision of the

supreme court declaring a register of deeds must be elected this fall. Mr. Britt explained that in the general election proclamation this office would be included and that as soon as nominations are made by the committee the name will be inserted in the petition in order to perfect the record.

Concerning his agreement to accept the lists as tendered County Clerk Drexel said: "My only notion in refusing the lists was to get this matter in proper and legal form.

Another matter, possibly, that gave the clerk of courts reason for pause was the knowledge that Attorney C. McDonald, under instructions from the republican county committee, is preparing papers for a mandamus suit to compel the clerk to make a better division of the election boards than he is believed to contemplate.

WHAT SULPHUR DOES

For the Human Body in Health and Disease.

The mention of sulphur will recall to many of us the early days, when our mothers and grandmothers gave us our daily dose of sulphur and molasses every spring and fall.

It was the universal spring and fall "blood purifier," tonic and cure-all, and, mind you, this old-fashioned remedy was not without merit.

The idea was good, but the remedy was crude and unpalatable, and a large quantity had to be taken to get any effect.

CROWD AT THE ORPHANS' FAIR

Fan and Enthusiasm Mark the Passing of the Third Day of the Season.

In a burst of general enthusiasm the third day of the Orphan's fair closed last night. The beautiful booths and their still more beautiful occupants kept the throng of sightseers wandering from one end of the great building to the other, observing, admiring and taking numberless "chances."

Especially interesting to the feminine portion of the crowd is the doll booth, where among other things a quaintly artistic figure of an old woman whose face is made from a dried apple is exhibited. The variety of the booths and their tempting arrangement is making the fair a financial as well as an artistic success.

After the announcement from the stage that the "Midway" in the basement would immediately be opened Dave O'Brien led the band twice around the hall to the tune of a "Hot Time." Following him the crowd marched down stairs and explored the mysteries there displayed. A free juggling act, Fantasia, the talking bear, the instantaneously appearing gallery and the mystic maze are the attractions offered. The last had one "shocking" feature which added much to the enjoyment of those who viewed it from a distance.

POSSIBILITIES OF SHORTHAND

Different Ways by Which One May Succeed by Knowing Shorthand.

No study offers better prospects of greater possibilities than that of shorthand, whether viewed from the standpoint of advancement in the commercial world, as a profession, or as an avocation.

In several of the large railroad offices of the country no man is employed in a clerical position unless he has a knowledge of shorthand. This demand for people skilled in this art is extended throughout the country, and the profession has become a necessity to all people in commercial work.

Ten years ago, Joseph Cashman was a young people an attractive future. There is no better profession than that of shorthand. A short time ago, William E. Curtis contributed an article to the Chicago Record-Herald in which he detailed the amount of work being done and the money made by the shorthand writers of that city. He showed that one firm of court stenographers of that city are now doing a business of upwards of \$100,000 a year, while every court reporter is counting his year's profits in figures amounting to thousands.
