

PRISON CONGRESS IS BUSY

Number of Reports Submitted by Committees and Discussed. MEMBERS FAR FROM BEING OF ONE MIND. Report Favoring Board of Pardons is Antagonized and Occasions Considerable Animated Discussion.

Official will deliver an address on the parole system in Canada. At the session this morning Judge G. B. Robinson of Iowa read the report of the committee on law reform while Superintendent Paddock of the Industrial school at Golden, Colo., read the report of the committee on reformatory work and preventive. While both of these reports attracted much debate and the former severe criticism from Martin Dewey Collier of Ohio, the talk by Catherine Bennett Davis, superintendent of the State Reformatory for Women of New York, of her work in that institution, and the talk by Superintendent Hayward of the Nebraska Industrial School for Boys seemed more to interest the delegates than the reports and the arguments.

Comparison Made and Women. Superintendent Davis, in comparing the reformatory and the woman inmate of the reformatory and the man prisoner, said: While an immoral act of a woman was of moment and importance to her, it was an incident to a man. The wrong of an immoral woman is an accident, but it stamps her for life and she soon learns that she had an easy way to earn her living. Men who go out of prison go to the world with a trade, while a woman must secure a position as a domestic servant. Thus it is easy for her to fall back into the old life of immorality and sin. The woman must wash dishes or cook, but it is difficult for them to secure any other employment.

Dr. Davis then said she kept the women busy and advocated for such women much outdoor work. At the present time, she said, she, with the help of the inmates, had made over 700 feet of cement walks and had put in cement floors in the basement of the institution. The girls raised the garden and did all the work except the plowing. Until recently, she said, there had been a high embankment in front of the institution and she had requested the legislature to give her \$1,000 to grade the embankment. The legislature had refused and the girls had torn down the embankment and had graded it nicely. It had not cost the state a cent. As a result of the girls there was nothing they would not do to help improve it. She advocated the establishment of such reformatories in quiet, secluded places, where the public could not see the girls at work. The result of her outdoor work had been to create appetites and to bring the girls to a condition where they could sleep.

Results in Nebraska. In his talk regarding the Industrial school and its work, Superintendent Hayward of Nebraska said his institution was merely a school, and he did not teach the pupils that were being punished, but that they were being helped. These inmates, he said, were not criminals, but they were boys who had brains too large and who were too large physically for the towns in which they lived. It was the force in them that was breaking out and he directed that the force into the proper channels. The girls, he said, would develop the greatest minds on earth were they directed right while young. The fault that they have is that they are not with the public child, but with the parents and the public school. He said, with the exception of a few from the field of incompetency, were all university graduates or high school graduates, he said, was fit to teach school without a proper and thorough training.

He told of the work in the school and what the boys had accomplished, which he said, was absolutely unknown to the juvenile court officers and to others who should know. The school had developed into a place where boys, who frequently had been inmates with their wives and children, were around the workshops and are proud of having had the opportunity of attending such a school. It should not be considered a disgrace for a boy to be an inmate of such an institution because it is never the fault of the boy, but of those who should look after his early training.

Report on Law Reform. Judge Robinson of Iowa presented the report of the law reform committee and in his preliminary called attention to the vast differences of sentences in the several states, and he submitted statistics from the report of 1904 as a corroboration. He recommended uniform laws to remedy this defect in the present system. The mental and physical condition of the trial judge, he said, had much to do with the length of the sentence. Audiences which are sympathetic or hostile to the prisoner also has much to do with the sentence. He recommended the indeterminate sentence, together with a pardon board to pass upon all applications for a pardon. When the prisoner has given evidence of a change of heart and of reform, he said, he should be released, but when reform was not hoped for he should be restrained.

Praises Nebraska Prison. Superintendent Murphy of the Joliet penitentiary, one of the biggest in the United States, a regular visitor to the National Prison association meetings, is another who says that this meeting is one of the best the association has ever held. Yesterday he visited the state penitentiary and of that institution he said: "Nebraska has the finest penitentiary of its size in the United States. I thoroughly investigated it yesterday, visited every nook and corner under its roof and I have never seen a cleaner, better kept and better managed institution anywhere. There is not a particle of dirt in the whole institution. There was absolute order about the kitchen and everywhere was seen the effect of good management and good discipline. It is one of the few institutions of the country that is so neatly up-to-date in every particular. Visitors to this congress who inspect the penitentiary will be able to secure many pointers for the conduct of their own institutions in the future."

Rolling Stock for Homer Line. Secretary Says Contract is Let for Gasoline Motors. DAKOTA CITY, Neb., Oct. 24.—(Special.)—A trust deed was filed in the county clerk of this county bearing date of October 2, 1905, whereby the Sioux City, Homer & Southern Railway company transfers to the National Bonding and Guaranty company of Topeka, Kan., all their interests in the proposed rapid transit line from South Sioux City to Homer, in this county, via this place, which is the line built two years ago and which has never been equipped with rolling stock. The deed is given in consideration of ten-year 6 per cent bonds to the amount of \$200,000, which are to be executed. The deed is one of the longest instruments ever recorded in Dakota county, consisting of thirty closely typewritten pages. The deed is signed on behalf of the railway company by John H. Baker, president, and C. D. Smiley, secretary, and on behalf of the National Bonding and Guaranty company by J. H. Foy, president, and J. E. Leader, secretary.

Miss Eva Booth at Canton, O. Commander of Salvation Army Calls on Mrs. McKinley and Places Wreath on President's Grave. CANTON, O., Oct. 24.—Miss Eva Booth, commander of the Salvation Army in the United States, spoke to a large audience at the Auditorium in this city tonight on "Bridging the Gulf." During the day Mrs. Booth called on Mrs. McKinley and had a talk of fifteen minutes with her. She was presented with a pair of slippers made by Mrs. McKinley and a photograph of the late president and Mrs. McKinley. Miss Booth was given permission to enter the McKinley vault at Westlaw cemetery and placed a wreath on the late president's bier.

Miss Eva Booth at Canton, O. (Continued). Many Drop Dead from so-called heart trouble, when the real cause is acute indigestion, easily curable by Electric Bitters. 50 cents. For South Dakota—Fair Wednesday, warmer in central portion; Thursday partly cloudy. For Kansas—Fair Wednesday, except rain in the southeast portion; Thursday fair, warmer. For Wyoming—Fair and warmer Wednesday; Thursday fair, except rain or snow in the northwest portion.

Local Report. OFFICE OF THE WEATHER BUREAU. OMAHA.—24.—Official record of temperature and precipitation compared with the corresponding day of the last 100 years. Maximum temperature... 57 59 70 74 Minimum temperature... 43 49 55 56 Mean temperature... 49 52 58 60 Precipitation... 0.00 0.00 0.00 0.00 Normal precipitation... 47 47 47 47 Excess for the day... 0.00 0.00 0.00 0.00 Total precipitation since March 1, 1905... 44.44 inches Normal precipitation... 47 47 47 47 Excess for the day... 11 inches Total precipitation since March 1, 1905... 3.35 inches Deficiency since March 1, 1905... 3.50 inches Excess for cor. period in 1905... 2.2 inches

Home Visitors' Excursions. VIA Rock Island System. Nov. 27th, 1905. To Many Points in Illinois, Indiana, Michigan, Western New York and Western Pennsylvania. Rate—Fare and One-Third for the Round Trip. Return Limit, Twenty-One Days. For further information call or write F. P. RUTHERFORD, D. P. A. 1225 Farnam St., Omaha.

ONLY A SUGGESTION. But it Has Proven of Interest and Value to Thousands. Common sense would suggest that if one wishes to become fleshy and plump it can only result from the food we eat and digest and that food should be albuminous or flesh-forming, like eggs, beefsteak, and cereals; in other words the kinds of food that make flesh are the foods which form the greater part of our daily bills of fare. But the trouble is that while we eat enough, and generally too much, the stomach, from abuse and overwork, does not properly digest and assimilate it, which is the reason so many people remain thin and underweight; the digestive organs do not completely digest the flesh-forming beefsteak, eggs and similar wholesome food. There are thousands of such who are really confirmed dyspeptics, although they may have no particular pain or inconvenience from their stomachs. If such persons would lay their prejudices aside and make a regular practice of taking after each meal one or two of Stuart's Dyspepsia Tablets the food would be quickly and thoroughly digested, because these tablets contain the natural pepsines and diastase which break up the fats, lumps, and by supplying this want the stomach is soon enabled to reach its natural tone and vigor. Stuart's Dyspepsia Tablets digest every kind of flesh-forming food, such as eggs, bread and potatoes, and this is the reason they so quickly build up, strengthen and invigorate thin, dyspeptic men, women and children. Invalids and children, even the most delicate, use them with marked benefit as they contain no strong, irritating drugs, no cathartic nor any harmful ingredients. Stuart's Dyspepsia Tablets are the most successful and most widely known of any remedy for stomach troubles because they are the most reasonable and scientific of modern medicines. Stuart's Dyspepsia Tablets are sold by every druggist in the United States and Canada as well as Great Britain at 50 cents for complete treatment. Nothing further is required to cure any stomach trouble or to make thin, nervous, dyspeptic people strong, plump and well.

BECAUSE your Registration of September 19, 1905, (Primary Day), has been declared illegal and void by the Courts. REGISTER AGAIN ON FRIDAY, OCT. 27th, 1905, or you cannot vote ON NOV. 7th, OR AT THE ELECTION NEXT SPRING. Register Again! Register Again! Registration Day: FRIDAY, OCTOBER 27th, 1905. REPUBLICAN COUNTY COMMITTEE, M. J. Greedy, Secretary. L. C. Gibson, Chairman.

Bellevue is Looking Up. BELLEVUE, Neb., Oct. 24.—(Special.)—The Commercial club is hopeful of the work it has undertaken to accomplish. The members are quite hopeful of getting the street railway located to the advantage of the village. Dr. R. M. Stevenson, former vice president of Bellevue college, and Mrs. Stevenson are making a short visit to friends and the college. Dr. Stevenson has accepted the presidency of a Presbyterian college located at Salt Lake City, Utah, and is now on his way to take up his duties there.

Doctor Convicted of Heresy. Dismissed from Ministry by Nebraska City Presbytery. (From a Staff Correspondent.) LINCOLN, Oct. 24.—(Special.)—Dr. Carl Hulthorst, a physician and Presbyterian minister, was today suspended from the ministry by the Nebraska City Presbytery for alleged heresy, after a secret trial lasting all day. The charges against Dr. Hulthorst are as follows: The first charge was that the doctor has repudiated the Christian confession. In answer he said he refused to accept any confession excepting that of Christ. The second charge was that he denied the divinity of Jesus Christ. He is a Unitarian, declared the doctor, to think that people 200 years ago in time of superstition and ignorance should have a better knowledge of Christ and His doctrines than the people have today. For this reason he repudiated that which he repudiated the confession and everything else of the life outside of the New Testament. The second charge was that he denied the personality of God. Answering he said that any school boy would vouch for it, that to say three is one and one is three would be sufficient to convince the universe. Jesus never said a word about three persons in the Godhead. The doctor also repudiated the doctrine of Hell. He said that the doctrine of Hell is a myth, and that the doctrine of Hell is a myth, since the Bible nowhere mentions Hell. The third charge was that Dr. Hulthorst denied the fall of Adam and the consequent curse of the race. To this he replied that the story of the fall is a myth. The first Genesis he credits to the mythological value aside from the myth, since the Bible nowhere mentions Hell. The fourth charge was that Dr. Hulthorst denied the vicarious sacrifice of Christ. He replied that the vicarious sacrifice is a myth, and that the doctrine of vicarious sacrifice is a myth, and that the doctrine of vicarious sacrifice is a myth. The doctor said that the doctrine of vicarious sacrifice is a myth, and that the doctrine of vicarious sacrifice is a myth, and that the doctrine of vicarious sacrifice is a myth.
