Clippings from various papers about country were shown to the witness and identified as the dispatches he wrote and sent to Mr. Forman. These were sent to about 100 papers, but Mr. Smith did not know whether the papers were paid for inserting them. In one dispatch Mr. Smith wrote that Mr. McCurdy's attitude on the stand made a distinctly favorable impression, and for this he had to pay \$2 a line. This, he said, was worth it.

Testimony of Actuary. Emery McClintock, actuary of the Muthal Life Insurance company, was the first witness today before the insurance investigating committee. Mr. McKeen, of counsel to the committee, who has studied the technical points of insurance, conducted the examination of Mr. McClintock. Witness said he had been actuary of various companies since 1868. He became actuary of the Mutual Life in 1889. He was president of the Acturarial Society of America from 1895 to 1897 and has been a fellow of the Institute of Actuaries of Great Britain since 1874. Mr. McClintock supported the statement made on the stand by John A. McCall, president of the New York Life Insurance company, as to the cause leading to the many failures during the early days of insurance in this state. The companies failed, said Mr. McClintock, because they had nothing to support them but the current premiums. The Metropolitan Life Insurance company, the witness continued.

In the sharp competition between the Equitable Life Assurance society with the Mutual Life Insurance company in 1870 the Mutual offered new policy holders a 30 per cent rebate on the first year's premium. This, Mr. McClintock said, was an open, public and avowed rebate. There was so much objection to this that in 1878 the Mutual issued policies at a 15 per cent reduction in rates. Outstanding policy holders were privileged to avail themselves of again in January. This was done, accord- dend. Mr. McClintock said it was one of these reruced rate policies that was under observation last week when the letter of the holder to the committee was read to Mr. McCurdy reciting a gradual reduction from \$55.76 to \$3 in dividends.

EVANS INTRODUCES A NEW MEASURE

Councilman from Sixth Ward Takes Steps to Repeal Law Passed to Protect Property Owners in North End.

That the gas company is again preparing to build a gas manufacturing and storage plant on the north side is intimated furing permission for any establishments of the kind unless agreed to by all the property owners within a large radius. The original ordinance was introduced by Councilman Evans of the Sixth ward. The same councilman put in the repealing law. The ordinance regulating the building of gas manufacturing and storage plants was caused by the purchase of a lot by the gas company near Twenty-second and Burdette streets and the announcement that the mpany was about to put in a plant to supply the north end of the town. This location is within a short distance of Councilman Evan's home. Minnesots Game.

IOWA CITY, in., Oct. 24.—(Special Telegram.)—Perrine was tried out at right end tonight in the first scrimmage held since the Minnesota game. Both Knapp and Moore, who have been used in that position, were unable to get into the practice on account of injuries. Kant and Andy Chaimers are the remaining Hawkeyes who are still under the weather. It is not believed that either of the two last named will be able to play before the Grinnell game, a week from Saturday. The majority of the Hawkeyes squad has fully recovered from the bruises and the scrimmage tonight was one of the best in the last two weeks. Green and Tupper are being used in Chaimers place at left half. The report that Iowa university would change the system of coaching here next season and would replace John Chaimers by alumni coaches is entirely unfounded. The Athletic Board of Control, the student who are acquainted with conditions here and the squad itself are entirely satisfied with his work. The fact that he has not produced championship teams in the three years he has been here is well understood to be due to the lack of material which has been the great weakness of the Hawkeyes for the last five years.
