MUTUAL WILL INVESTIGATE

Directors of the Company Will Look Into Methods of the Officers.

DIVIDENDS ESTIMATED, NOT COMPUTED

Holders Depend Upon Judgment of Actuary, Says Mr. McClintock.

NEW YORK, Oct. 25.—More startling than the testimony before the legislative committee investigating the methods of the insurance companies to-day was the announcement by President Richard A. McCurdy of the Mutual Life Insurance company that a meeting of the board of trustees of the Mutual Life company had been appointed to investigate the company and its methods.

Equitable Net Receipts Increase. A still more important development was the statement issued to-day by President Morton of the Equitable Life showing that the receipts of the company for the nine months of this year exceeded the expenditures by \$1,723,197, an increase of over \$600,000 compared with the same period last year.

After an entire day given over to examination of Emory McClintock, actuary of the Mutual Life company, and the reading of columns after columns of figures, the legislative committee adjourned until November 8, the day after the municipal elections.

McClintock on Dividends. The testimony of Mr. McClintock was of a technical nature. A number of his explanations brought out the fact that his ideas were in many respects at variance with the established methods of insurance companies, and that of his own company in particular.

These views are contrary to those expressed by President McCurdy of the Mutual when he was on the stand. Mr. McCurdy did not think that any company's business should be limited even at the point when that business failed to be profitable to the company.

Dividends Are Estimated. As to the method of computing the dividends that should be paid on a policy he said the apportionment was made upon his judgment. It was based on the experience of previous years. The interest earned by the company or the increase in the market value of the securities held by the company.

Insurance Question is Presented. Connecticut Board of Trade Hears Report from Its Committee.

HARTFORD, Conn., Oct. 25.—At a meeting of the board of directors of the Connecticut Board of Trade today the report of the committee on insurance was presented.

Flurry on Cotton Market. Government Report on Cotton Ginned Creates Considerable Excitement in New York.

NEW YORK, Oct. 25.—The report of the census bureau issued today giving the amount of cotton ginned to October 15 as 4,967,785 bales, caused sensational fluctuations in the late session of today's cotton market.

Gas from Paste. When Used as a Food is Bound to Make Trouble.

The average cereal food, as frequently prepared, forms a pasty, gas-generating mass in the stomach, which gives the digestive apparatus a constant trouble, and frequently acts out of business. A young man writes from Trenton, N. J., to tell what it did for him.

Shaw on Merchant Marine. He held it I shall serve the people and the people will.

I am fortunate enough to have a profession, by which I for twenty years have been able to support myself and those dependent upon me in as good and sometimes better manner than my present salary permits.

Shaw Guest at Luncheon. Secretary Shaw was the guest of honor today at an informal luncheon given at the Lincoln hotel at 1 o'clock by Collector of Internal Revenue Elmer S. Stephenson.

There's a reason. "I've put my head in a book. 'The Road to Wellville' in each page.

THE VALUE OF CHARCOAL

Few People Know How Useful It Is in Preserving Health and Beauty.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal sweetens the breath after smoking, drinking or after eating onions and other odorous vegetables.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh.

The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of their continued use, but, on the contrary, great benefit.

Inside of ten minutes after the figures were published January shot up 27 points to 107.70, and even with the highest point of yesterday morning.

NEW ORLEANS, Oct. 25.—When the report of the census bureau was read shortly after school session had been closed on October 18 prices shot up 44 1/2 points higher than the lowest of the day, or as much as \$1.18 per bale.

MICHAELSEN COMES BACK. City Electrician Makes Reply to Statements of Fire Insurance Inspector Beeson.

City Electrician Michaelsen has come back at Insurance Inspector A. G. Beeson with a statement defending his position and declaring he is in the fight for lower fire insurance rates to stay.

Do Not Destroy Corporations. The speaker insisted that we ought not to destroy the corporation. Simply reduce it to a law-abiding basis.

Wattles on Loans. G. W. Wattles of Omaha spoke on "Safe Loans." His address was delivered at the morning session.

Wattles on Loans. The greatest problem which any banker has to solve is how to make safe loans. Show me a bank where the loans are clean and where the collateral is good.

Wattles on Loans. The losses on bad loans during the last business depression will teach a valuable lesson to new bankers of the future.

Wattles on Loans. The source of loss is still practiced by some bankers, and that is the practice of making loans on the basis of the future.
