markets yesterday. At Rahass City houses to 2 and No. 3 hard at %c advance and good wheat was scarce. Armour is said to be bidding 1/2 over all Chicago and Kansas City houses for No. 2 Nebraska and Kansas wheat for shipment within sixty days. Sales were good at St. Louis and Minneapolis.

From the Record-Herald: "Wheat bulls have been claiming that any cessation of the Manitoba offerings abroad would send European buyers to the southwestern markets after the hard winter wheat and start them to grabbing for such lots as were immediately available at the Atlantic senboard. Such a condition evidently arose grain abroad that had to take lits chances on getting to the seaboard through the Buffalo route. Local export houses continue to make strenuous efforts to suppress information of the immense sales they are making to Europe. There was such a general grabbing for all kinds of grain. however, that suppression proved impossible. Boston furnished the information of large freight room engagements, about \$50,000 bushels, and it developed that all this room was for wheat and corn."

was prompted by the disclosures of an amount of earnings in the annual report which was insufficient to meet the preferred divident requirement.

Money continued relatively easy, but as a result of this condition, foreign exchange made a further advance to within the immediate neighbourhood of the gold export point. A decline in sterling exchange at Paris and a further rise in the discount rate at Berlin were additional factors making towards gold exports. New York exchange at Chicago also fell to a discount. The special weakness of the local traction stocks was attributed to opinions on the local political outlook, although the special weakness of the Metropolitan stocks was commented upon. The fall in those stocks and the heavy selling of Rock Island were the principal factors in breaking the market and in causing the abrupt decline of the last hour which carried prices comprehensively below last night's level. Hasty covering of shorts by the bears inducted a sharp rally and the irregular closing tone left price changes very irregular and not important except in a lesser number of stocks.

Weol Market.

BOSTON, Oct. 25.—WOOL—An improvement is found in the demand for wool in the Boston market. There has been a noticeable increase in the call from the worsted manufacturers. The firm opening of the foreign markets has had a strengthening effect on trading here and has confirmed the belief that no lower prices will prevail for some time. Pulled wools are quiet, with territories moving freely. Foreign grades are light. early arrivals changed hands in very good season.

As has been the case all this week the most of the cattle in today were feeders or stockers. Unfortunately the demand from the country has not been so good for feeders as anticipated, with the result that speculators have been unable to unloud their purchases made earlier in the week and they were not free buyers either yesterday or today. Yesterday, under the influence of the large supply, prices dropped off about 10c. This morning the trade was generally show and still lower, except it might be on something right good that some one just happened to have a place for. Representative sales:
