A NEW DEPARTURE.

Taking Time by The Forelock."

All observing people must have noticed a growing sentiment in this country in favor of using only put-up foods and medicines of known composition. It is but natural that one should have some interest in the composition of that which he is expected to swallow, whether it be food, drink or medicine. This sentiment has resulted in the introduction in the legislatures of many of the States, as also in the Congress of the United States, bills providing for the publication of formula or ingredients on wrappers and labels of medicines and foods put up for general consumption.

Recognizing this growing disposition on the part of the public generally, and satisfied that the fullest publicity can only add to the well-earned reputation of his proprietary medicines, Dr. R. V. Pierce, of Buffalo, N. Y., has "taken time by the forelock," as it were, and is publishing broadcast, and on each bottle wrapper, a full and complete list of all the ingredients entering into his medicines, "Golden Medical Discovery," the popular liver invigorator, stomach tonic, blood purifier and heart regulator; also of his "Favorite Prescription" for weak, over-worked, broken-down, debilitated, nervous, invalid women.

This bold and out-spoken movement on the part of Dr. Pierce, has, by showing exactly what his well-known medicines are composed of, completely disarmed all harping critics who have heretofore unjustly attacked them. A little pamphlet has been compiled, from the standard medical authorities of all the several schools of practice, showing the strongest endorsements by leading medical writers of the several ingredients which enter into Doctor Pierce's medicines and recommending these ingredients for the cure of the diseases for which Dr. Pierce's medicines are advised. A copy of this little booklet is mailed *free* to any one desiring to learn more concerning the valuable, native, medicinal plants which enter into the composition of Dr. Pierce's medicines. A request, by postal card or letter, addressed to Dr. R. V. Pierce, Buffalo, N. Y., will bring this little booklet by return post. It tells exactly what ingredients are used in the making of Dr. Pierce's famous medicines.

This striking departure of Dr. Pierce from the usual course pursued by the manufacturers of proprietary medicines, at once takes his medicines out of the class generally known as "patent" or secret medicines, neither of which term is at all applicable to them, as their formula now appears on the wrapper of every bottle leaving the great laboratory at Buffalo, N. Y. It places them in a class *all by themselves*. Neither of them contains any alcohol, which fact alone should cause them to be classed all by themselves and as entirely harmless vegetable extracts, made and preserved by the use of glycerine and not with the usually employed strong alcohol, which works so much injury, especially in cases where treatment, even though of the best, must be continued for considerable periods of time, in order to make the cure permanent.

Many years ago, Dr. Pierce found that chemically pure glycerine, of proper strength, was far better than alcohol both for extracting and preserving the medicinal principles residing in our indigenous, or native, medicinal plants, such as he employs exclusively in manufacturing his medicines.

Some of these medicinal roots have, since Dr. Pierce first commenced to use them, advanced so in price, that they may be cultivated with great profit by our farmers. This is especially true of Golden Seal root, which enters into both the Doctor's "Golden Medical Discovery" and his "Favorite Prescription." It now brings upward of $1.50 a pound, although formerly selling at from 15 to 20 cents a pound. Many tons of this most valuable root are annually consumed in Doctor Pierce's Laboratory.

From "Organic Medicines," by Grover Coe, M. D., of New York, we extract the following concerning Hydrastis (Golden Seal root), which enters largely, as we have already stated, into the composition of both "Golden Medical Discovery" and "Favorite Prescription." Dr. Coe says: "Hydrastis exercises an especial influence over mucous surfaces. Its action in this respect is so manifest that the indications for its employment cannot be mistaken. (Hence the efficiency of "Golden Medical Discovery," which is rich in Golden Seal root, in all catarrhal affections, no matter in what part of the system located.) Upon the liver it acts with equal certainty and efficacy. As a cholagogue (liver invigorator), it has few equals. Also in scrofula, glandular diseases generally, cutaneous eruptions, indigestion, debility, diarrhœa, and constipation."

Doctor Coe continues: "Hydrastis (Golden Seal root), has been successfully employed in the cure of leucorrhœa. It is of singular efficacy when that complaint is complicated with hepatic (liver) aberration (derangement). Hydrastis is also of inestimable value in the treatment of chronic derangements of the liver. It seems to exercise an especial influence over the portal vein and hepatic (liver) structure generally, resolving (dissolving) biliary deposits, removing obstructions, promoting secretion, and giving tone to the various functions. It is eminently cholagogue (liver accelorator), and may be relied upon with confidence for the relief of hepatic (liver) torpor. It promotes digestion and assimilation, obviates constipation, and gives tone to the depurating (cleansing) functions generally."

Dr. Coe further says: "We would here add that our experience has demonstrated Hydrastis to be a valuable remedy in bronchitis, laryngitis, and other affections of the respiratory organs."

After reading the foregoing extracts who can doubt the great efficacy, in a long list of diseases, of "Golden Medical Discovery," one of the principal ingredients of which is Golden Seal root (Hydrastis)? And this applies with equal force to Doctor Pierce's Favorite Prescription for weak, worn-out, over-worked, nervous, invalid women.

Dr. Pierce's Pleasant Pellets are composed largely of concentrated principles extracted from Mandrake root. They regulate and invigorate the stomach, liver and bowels. One or two little sugar-coated "Pellets" a dose.

FREE RURAL SERVICE GROWS

System in Operation Completely in Eighteen Counties of Nebraska.

SEVEN MORE ARE GETTING IT, TOO

Department is Having to Hustle to Keep Up with the Increasing Demand for Delivery Service.

"We have complete county service in eighteen counties in Nebraska now and are considering extending it to seven more counties," said Superintendent C. E. Llewellyn of the Omaha division rural free delivery. "The counties which have complete service are Cuming, Burt, Washington, Douglas, Sarpy, Cass, Otoe, Nemaha, Johnson, Pawnee, Gage, Jefferson, Saline, Lancaster, Richardson, Butler, Seward and York. The counties to which the complete service will be extended as soon as we have the arrangements completed are Dixon, Dakota, Clay, Fillmore, Thayer, Adams and Nuckolls.

"The rural free delivery system is growing rapidly and we have all we can do to keep abreast of it. Our entire force of special agents is as busy as bees and our correspondence is growing constantly. The Postoffice department is anxious to afford every possible facility for the extension of the service where the conditions will warrant it. The rural communities have begun to realize the importance and convenience of the system and are eager to have it extended into every community. In reference to the numbering of the rural boxes we have had no orders pro or con, and I do not know what the situation now is other than what has appeared in the papers.

"Another interesting thing in connection with rural free delivery service is that we receive practically no complaints regarding the desecration of the rural mail boxes. In the early days of the rural free delivery service the hunters used to think that the mail boxes were legitimate targets for their shot guns and rifles, and a great many of the boxes were destroyed in that manner. Nothing of the kind happens now, as the boxes are regarded as part of the great postoffice system, and as it is a felony to destroy, deface or injure them, the rural boxes are as free from molestation as the mail boxes in the cities."

PURITY IN CITY GOVERNMENT

Rev. E. Combie Smith Advocates Union of Churches to Set on Political Candidates.

A plea for the election of men irrespective of party was made by Rev. E. Combie Smith in a lecture on "Good Government" at the Westminster church last night, under the auspices of the Westminster Presbyterian Brotherhood.

"We ought to recognise that the government of a city is a matter of business, not of politics," said Dr. Smith. "The sooner we get hold of that idea the closer we will come to good government. Let us not cling to party. The administration of the affairs of a city has nothing to do with the tariff or civil service; it involves no question of national policy. It is a business proposition with the people of the city.

"The city should be managed as the home. If this were to be brought about the saloon, brothel and gambling hell, potent forces in politics, would be wiped out, for the reason that they are losing propositions for the city."

Dr. Smith suggested that perhaps it is time for a new alignment of the forces of the church for the exertion of a predominance which would tell in better civic government. He favored a federation of the churches and the holding of an ante-primary convention which should proclaim to the various parties the attitude and policy of the federated churches. The candidates for office must necessarily have a good record for purity and integrity in order to get the vote of the churches. He also spoke in favor of home rule for the cities. He did not favor the appointment of a fire and police board by the governor or the selection by the state government of any committees whatever to take a hand in the affairs of the city.

OMAHA BETTER THAN DENVER

McVain Thinks Commercial Bodies and Newspapers of Colorado City Take Second Place.

E. J. McVann, who returned Thursday morning from the annual convention of the Colorado Association of Commercial clubs, says the Nebraska commercial organizations are superior to those of the Centennial state. This is particularly true in making a comparison between those of Denver and Omaha. In Denver there are four organizations which work for the same end, but do not pull together, the Chamber of Commerce, the Convention league, the Hotel and Restaurant Keepers' association, and the Real Estate exchange. In Omaha the place of three of these is taken by the Commercial club, and much more is accomplished than if there were other organizations with the same purposes in view.

"At the same time," said Mr. McVann, "Colorado is thoroughly alive on the question of advertising and the state is ahead of Nebraska in this. I made a point to pick up advertising pamphlets at the convention and I brought home forty or fifty, exclusive of railroad advertisements. Every county, every irrigated district, almost every town of any size, is advertised in an admirable manner. The Colorado Association of Commercial clubs has in Denver, where the central office is located, two store rooms, with show windows, where all the products of the state are displayed and the state advertised as a whole. No advertisement pertaining to Denver in particular is allowed."

While Mr. McVann was in Denver, a business men's league was organized. Its object is to take up matters not already handled extensively by the other organizations, among other things to secure winter tourist rates to Colorado and to get better railroad rates. The Denver business men say that discrimination is made against them in favor of Omaha, Kansas City and St. Joseph on one side and Salt Lake City and Los Angeles on the other.

The Denver newspaper man has no place in Mr. McVann's sympathies. When interviewed by one he said it made him feel good to step off the train into the bright sunshine. The statement appeared in the paper to the effect that he was glad to leave the dirty, cloudy city of Omaha and get into a decent climate for a short time.

OFFICERS FOR THE EXCHANGE

Nominations Are Made by the Real Estate Men Who Elect Next Week.

Nominations for officers of the Real Estate exchange were made at the meeting of the exchange Wednesday. For president the name of W. H. Green, W. T. Graham, C. F. Harrison, L. S. Reed and H. F. Dailey were presented; for vice president, J. W. Robbins, B. R. Hastings, S. P. Bostwick; for secretary, L. D. Spaulding, H. A. Tukey, W. G. Shriver, Henry Payne; treasurer, G. T. Martin, J. H. Parrotte, W. H. Gates. The election will be held next Wednesday.

A committee, consisting of W. T. Graham, J. B. McKitrick and C. H. Young, was appointed to study the advisability of asking for the appointment of members of the exchange as special police officers to have authority to compel compliance with the city ordinances as they apply to property, especially as regards garbage. The committee was instructed to report at the next meeting.

Splendid Record.

Dr. King's New Life Pills have made a splendid record by curing headache, biliousness, constipation, etc.; 25 cents. Try. For sale by Sherman & McConnell Drug Co.

WOMAN NOT AFRAID TO WORK

Deserted by Husband of Few Weeks, She Finds Herself in Straits.

ENDURES HARDSHIPS, BUT IS BRAVE

Man She Married Deserts Her, Saying Married Life is Not What He Expected it Would Be.

Deserted two weeks ago at the Union hotel by the man she married at St. Louis two months ago, Mrs. Lizzie Clancey, a woman of evident refinement and education, went to work in a local box factory until her tender hands bled and she was compelled to quit the work. Then she spent what few dollars she had left and, with more false pride than discretion, slept two nights in a boxcar in the railroad yards before she mustered up enough courage to confide her troubles to anyone.

The woman was taken to the matron's department at the city jail, cared for by Matron Gibbons several days and secured employment through Superintendent Morris of the Associated Charities. Mrs. Clancey is now working in the home of a prominent Omaha man and her intentions are to work until she can accumulate enough money so she may return to her parents without being dependent on them.

Mr. and Mrs. Clancey lived some weeks at the Union hotel after coming to Omaha. It is said Clancey was without work most of the time here. One morning about two weeks ago he kissed his wife and told her he was going out to find work. That was the last time the woman saw her husband. A few hours after Clancey left the wife found a note under her pillow. The note read:

Goodby, dear. This is the last you will hear from me. Married life is not what I thought it would be. Don't try to find me. It will be no use. JOHN.

The wife remained at the hotel a few days, hoping against hope that Clancey would return.

The woman says she left a comfortable home to marry Clancey, but pride restrains her at this time from returning to the parental roof. All her education, she said, availed her nothing or little when it came to fact the world and make a living.

ONE MAN ALREADY ENLISTED

First Naval Recruit is Sent to Receiving Ship Yards at Norfolk.

The permanent naval recruiting depot in the postoffice building place is developing into a busy establishment. The recruiting party is now complete, with the exception of the hospital steward, and consists of Lieutenant Comander H. M. Signor, Assistant Surgeon C. K. Winn, Chief Boatswain's mate S. Canavan and Chief Yoeman W. B. Wood.

One man already has enlisted and sent to the receiving ship at Norfolk navy yard, Va. Another passed his final examination and will be sent there Saturday. The first enlistment is that of C. A. Southard of Omaha, as apprentice seaman.

Lieutenant Commander Signor said Thursday morning:

"We are particularly anxious to obtain re-enlistments in order to get and continue experienced men in the navy. Excellent inducements are offered for re-enlistments, the parties receiving extra pay for re-enlisting, and are at liberty to re-enlist within four months from their discharge and will get back pay for that period. It is the rule in the navy to give men thirty days leave each year with pay and the man who serves his entire enlistment of four years without availing of his leave gets four month's credit and pay on re-enlisting. With the new ships now coming into commission and building there are about 4,000 more men needed. Young men, 21 years and even under, are preferred, as they are more susceptible to training into good seamen. We, of course, take older men, up to 35 years, and especially want good mechanics. The pay is excellent, and opportunities for promotion were never better than now."

Chief Yoeman Wood was asked relative to the treatment of men in the navy. He said:

"I have been in the navy for a number of years as an enlisted man, and can say, advisedly, that the treament of all classes of seamen is excellent, and I certainly have nothing to complain of. The naval recruit is given every consideration that discipline and merit will warrant, and it lies with the man himself as to what his treatment may be. If he becomes dissipated and unreliable he is rigorously disciplined and every effort will be made to make a man of him. If he aspires to learn, devotes himself to his duties and observes the rules of the ship, he will find his berth an easy and pleasant one. Promotion comes readily and a good man is quickly recognized and treated accordingly."

STRANGER ATTEMPTS SUICIDE

Found in Semi-Conscious Condition with Several Gashes in His Throat.

Patrick McKenna was found under the Burlington viaduct at Third and Hickory at 7 o'clock last night in a semi-conscious state, with nearly a dozen cuts on his throat. His hands were swollen and bruised and it appeared that he had fallen from the approaches of the viaduct, alighting on his hands. Near the place was found a razor with blood stains upon it and a tuft of gray hair. It is thought that the man had tried to commit suicide while seated on the edge of the viaduct or while leaning against the rail. It appeared that his courage failed him when he felt the keen edge, for none of the cuts are very deep, though one extends almost from ear to ear.

McKenna is a man of 50 or more and has the appearance of a laborer. According to his incoherent talk when brought to the police station he came here from Chicago last Monday. He was seen in the vicinity of the Willow Springs brewery during the afternoon. Nothing of value was found in his effects, and there is nothing to give any clue to his life in Chicago. He looks like a man who had endured much exposure and hard work. His injuries were attended at the police station and he was given a cot to sleep on. It is thought he is suffering from some ailment other than his wounds, but in his comatose state little can be done until more definite symptoms develop.

POTATOES COME FIRST NOW

Tubers Must Be Dug, So City Clerk Leaves His Office and Goes to the Patch.

So pressing has been the necessity of digging his fifteen acres of potatoes that City Clerk Elbourn found it necessary Thursday to devote his whole time and attention to the task and pass up business at the city hall to his assistants. The clerk is expecting a big financial return on his agricultural investment and is getting his tubers out of the ground as rapidly as possible.

Building Permits.

Permits have been issued by the city to Reichenberg Bros. for three brick houses at 2328-32 Harney street to cost $7,500 and to the same builders for similar dwellings at 2322-26 Harney street to cost a like amount; J. P. O'Keeffe, $3,500 frame dwelling at Forty-first avenue and Davenport; Vincent Kase, $700 frame dwelling at Eleventh and Dominion.

LOST—HORSES AND WAGON

Team with Load of Coal and Driver, Also with a Load, Are Missing.

A glance over the records of lost and found articles at police headquarters shows nearly everything used by man. It would take a scroll as long as from the market house on Capitol avenue to the water works at Florence to record the various things reported to the police in the last ten years, but it is stated that not until Wednesday afternoon could the entry of a wagon of coal and team of horses be found on the scroll. Wednesday afternoon Desk Sergeant Marshall made this entry:

Lost—Wagon containing two tons of coal and hauled by team of horses. Owned by Sunderland Bros. Driver's name, Frank Daley, colored.

The story goes that Driver Daley left his team at the foot of a hill near Sixth and Pierce streets, became drunk and insulted several women, while his horses started away with the coal. Daley was charged at the city jail with drunkenness and insulting women on the street.

When arraigned in police court Daley said he merely left his horses to find the address for the coal.

The prisoner was fined $12 and costs, which means $14.50 for the school fund.

The team and wagon were found a few blocks from where Daley left them. The horses were starting home, evidently.

DAVIES' FENCE MAY REMAIN

Iron Enclosure, Against Which Protests Were Filed, Allowed to Stand for Present.

Residents in the vicinity of Twenty-sixth and Charles streets objected strongly when James A. Davies started in to build an iron fence four feet tall around his lots at the northeast corner of the intersection and took in all the space outside of the property lines within one foot of the sidewalk. They declared the fence would ruin the appearance of the streets which are not now encumbered by fences running out beyond the lot boundaries. So intense did their objection become they had Mr. Davies, who runs an employment agency, arrested. He protested he had been given authority to build the fence in the street by the council, but was taken to the city hall to make good his claim. He made it good and Chief Donahue ordered his immediate release.

The resolution authorizing the fence was adopted by the council at the last meeting and was introduced by Councilman Schroeder. It provides the fence may remain until the council orders it removed. As many interested residents have called at the city clerk's office and protested it is not unlikely that the removal will be ordered next week.

NO CALL FOR THE UNGRADED

Superintendent Davidson Thinks Better Not Attempt Such Schools Until Demand Arises.

Superintendent Davidson has not made up his mind as to the wisdom of establishing an "unclassified" or "ungraded" school as recommended by the Woman's club. He says:

"I gather the idea is to have a separate school that would occupy a position half way between the ordinary public schools and the detention home of the juvenile court. It would, in reality, be a sort of probation school for delinquent pupils of all characters. It may be conditions demand such an institution in Omaha and it may not be the case. I do not think any such school should be undertaken unless a necessity exists for it. There is always the danger in such institutions of the stigma attached to things of the kind. Could this stigma and the sense of isolation be overcome?

"I should not attempt to express an opinion for or against the resolution until I had devoted considerable study to the question."

NIGHT SCHOOLS ARE POPULAR

Show Larger Attendance Than Ever Before—Biggest Gain is at Comenius.

Reports of attendance at the night schools for the first week show more students are attending than ever before. The increase for the first week over last year is 131. The biggest gain is at the Comenius school in the south end of town and in the midst of a foreign population, where the attendance jumped from 110 to 225. At the Kellom school, on the north side, the gain was from 138 to 154.

"I have not yet had an opportunity to closely analyze the conditions and account for the increase," said Superintendent Davidson. "But at the Kellom school I found that only fifteen students are below 15 years, or the compulsory education age. The majority are adults or very nearly so. The ranks of the first grade are crowded. This shows that a great many persons who failed to secure a rudimentary education in their youth are now endeavoring to repair the defect."

BUSINESS MEN ARE ON JURY

Caught for Service in Normandie Apartment House Case in the County Court.

Judge Vinsonhaler again had before him for trial by jury the suit of the Normandie apartment house against C. G. Underwood to recover $52.50, alleged to be due for one month's rent. The jury returned a verdict for defendant Thursday afternoon. Clerk Martin Sugarmann again had summoned into court a jury composed of business men, serving not willingly, but because they could not get excused. The six men summoned this time were J. P. Cook, wholesale merchant; A. Hospe, art and music dealer; Robert Purvis, commission man; W. S. Stryker, shoe dealer; A. T. Klopp, printer; A. Rosenberry, sash and window maker.

This was the third trial of the case in the county court, both of the previous trials having resulted in disagreements.

DEAFNESS CAUSES INJURY

Elderly Man Who Cannot Hear Well Hurt on Railroad After J. Barleycorn Hits Him.

James McIntosh, an elderly man living at 2413 Mason street, was seriously injured Thursday morning on the railroad tracks near Council Bluffs. He was taken to the city hospital in Council Bluffs. McIntosh is hard of hearing and did not hear an approaching train, so it is reported.

In the Omaha police court Wednesday morning McIntosh was arraigned on a charge of drunkenness and was discharged on account of his old age and affliction.

It is not thought the man's injuries will prove fatal.

Railway Notes and Personals.

General Superintendent Cable of the Rock Island is in the city.

J. A. Kuhn, general agent of the Northwestern, has gone to Chicago.

Horace G. Burt, former president of the Union Pacific, who, accompanied by Mrs. Burt, has been making an extended tour of the world, has arrived in Chicago and is expected to visit Omaha in a short time. The exact date of his coming is not known.

Train No. 4 of the Burlington Thursday had twelve extra tourist cars and was run in two sections. This is one of the days of the personally conducted excursions to California and an immense number is taking advantage of the opportunity and rates to visit the coast. Friday will be the last day for these personally conducted excursions, although the rate applies until October 31.

KINDER BUYS GERMAN PAPER

Secures Control of Westliche Presse, of Which He Already Was Editor.

The Westliche Press has passed into the management of Otto Kinder. This is the German weekly newspaper of which L. O. Simons was owner and manager and Mr. Kinder editor. Mr. Simons sold the paper to the National Printing company last winter and left Omaha for Los Angeles. Mr. Kinder continued as its editor. He began negotiations for the purchase of the paper some weeks ago and completed these negotiations and took possession of the paper Thursday. A company of owners of the paper has been incorporated with Carl Schroeder as president. Adolph Brandeis vice president, Fred Dalkes secretary and treasurer and Otto Kinder manager and editor.

SHAW CANNOT FAVOR CLUB

Secretary of Treasury Unable to Attend Banquet of the Commercial Club.

Leslie M. Shaw, secretary of the treasury, sent word Wednesday night to Chairman Judson of the executive committee of the Commercial club, stating he could not attend the club banquet planned for Friday night. Charles G. Dawes also sent his regrets.

The banquet will be postponed until some night next week and an attempt will be made to secure some other noted men for an address. Several men of national fame will assist in the unveiling of the Morton monument at Nebraska City Saturday and one of them will be asked to take a place on the banquet program.

HYMENEAL.

Hadsell-Coral.

Rev. Willard L. Hadsell, pastor of the Congregational church at Hyannis, was united in marriage to Miss Erla Coral, daughter of Mr. and Mrs. George Coral, at the family residence, 2514 South Eleventh street, Wednesday evening at 8 o'clock by Rev. W. H. Reynolds, D. D., pastor of the Castellar Street Presbyterian church. The bride was a member of this church and a teacher in the Sunday school. A brother of the groom, Martin A. Hadsell of University Place, acted as best man, and Miss Bertha Massion of Omaha was maid of honor. The bridal group stood on a white rug and over their heads hung the wedding bell. The color scheme for the gracefully hung and effective decorations was green and white. The bride's dress was of white silk. She carried bride roses. Miss Massion was dressed in lavender silk and carried white carnations. The wedding march from "Lohengrin," played by Mrs. Jack Koopman of Omaha, was preceded by two vocal solos, "Thine for Life" and "Oh Promise Me," sung by friends of the bride. A wedding supper followed the ceremony. Some of the out-of-town guests were: Mr. and Mrs. Charles Hadsell, parents of the groom, and Mr. Martin A. Hadsell, a brother, from University Place; Mr. and Mrs. Wells and Miss Wells, Miss Lovatt and others from Lincoln. Rev. and Mrs. Hadsell will after the wedding journey be at home in the Manse, Hyannis.

Casterline-Tomlinson.

Mr. Harry L. Casterline and Miss Bertha B. Tomlinson, both of Omaha, were married at the home of the bride's parents, Mr. and Mrs. Othello Tomlinson, 2416 South Sixteenth, Wednesday at 8:30 p. m., by Rev. Walter H. Reynolds, D. D., pastor of the Castellar Street Presbyterian church. The groom was attended by Elmer E. Rocheford as best man, the bride by Miss Emma Weber as maid of honor. The ceremony was performed under a canopy from which the wedding bells swung. The bride was dressed becomingly in white and carried bride roses; Miss Weber was also in white and carried a shower bouquet. The company of intimate friends present remained to partake of the wedding supper with Mr. and Mrs. Casterline. They will reside in Omaha at 2416 South Sixteenth street.

Mortality Statistics.

The following births and deaths have been reported to the Board of Health during the twenty-four hours ending at noon Thursday:

Births—J. G. Jewell, 3622 North Twenty-second, boy; N. E. Salyard, 3316 North Thirtieth, girl; Swan Hawkinson, 2814 Chicago, girl; Paul Kisicki, 2713 South Twenty-ninth, boy.

Deaths—Guy T. Wallace, 2225 Sherman avenue, 25; Miss Mary Furlong, St. Joseph's hospital, 64; Vincent Soudek, Fortieth and Poppleton avenue, 22; Phillip Bergeron, St. Louis, 50.

BEFORE THE PEOPLE'S BAR

Deaf Defendant Ignores Remark of City Prosecutor Lee Addressed to Him.

One deaf mute and two deaf persons were arraigned before Police Judge Berka Thursday morning in police court. This establishes a new record at the people's bar.

Frank Byers, the deaf mute arrested by Detectives Ferris and Dunn for begging on the streets, created some amusement when arraigned.

"You are charged with begging on the streets," wrote City Prosecutor Lee.

"I am guilty," replied Byers with his pencil.

Then the police judge took a pencil and pad and was about to indite a few lines to Byers when Prosecutor Lee turned to Byers, forgetting his affliction, and said:

"You're a dandy if you can read the judge's chirography."

Byers did not even turn his head, but watched the movement's of the judge's fingers with the pencil.

"Will you leave town if I discharge you?" wrote the judge.

While the judge's writing was yet upside down to Byers the prisoner nodded in the affirmative and was released.

Whether Byers can read upside down or watched the movements of the judge's fingers was not learned. He raced out of the court room like a cat out of a bag.

A German, named Michael Casey, 65 years of age and an old character, had quite a time understanding what was said to him.

With hands raised to heaven Casey invoked divine aid to help him leave Omaha.

A community of interest telephone used by a party of hackmen standing near the railroad passenger stations on Tenth street was the cause of a disturbance between Albert Ogle and B. Drake. The men became engaged in a fisticuff and were arrested for disturbing the peace by fighting.

Ogle testified Drake answered the telephone and took a "call" intended for Ogle. Drake said he fought only in self-defense. Drake's face and neck bore a number of scratches.

Ogle was fined $5 and costs and took an appeal. Drake was discharged.

The man who stole a red hot stove with smoking viands in Omaha some years ago and his contemporary who stole a grindstone will have to step aside for new faces and new ideas.

These are the sentiments of Chief of Detectives Dunn of the police station.

The occasion for the chief's statement was a report received by the police stating that among other things two buzz saws had been stolen by burglars from the Johnson & McLain planing mill at Sixth and Jones streets.

The stolen tools belonged to five workmen at the planing mill. Jacob Shandy, well known to the police, has been arrested and charged at the city jail with burglary. Shandy is said to have pawned most of the tools referred to and is suspected of the burglary. He has not yet been tried in police court.

John Mehan could not explain to Judge Berka in police court Thursday morning why he should go around with a loaded revolver, pair of plyers and a lot of lead slugs in his pockets. Mehan was arrested by officers on the charge of being a suspicious character. The fine was $12 and costs.

John Jackson of 311 North Twelfth street and Booty Carter of 116 North Eleventh street, both colored, have been arrested on the charge of receiving and concealing stolen property. The man who is said to have stolen the articles found in the rooms of Jackson and Carter gave his name as Fred Rattle when arrested a week ago by Detective Savage. Since the arrest it was learned Rattle was paroled from the Kansas reformatory at Hutchinson. Superintendent E. E. Marshall of the reformatory has taken Rattle, whose right name is Omar Weedon, back to Hutchinson to serve two years for having broken his parole.

The police have evidence that Weedon stole a suit case from Hayden Bros., an umbrella from the Kilpatrick store, an overcoat from the Bennett store, and it is believed a silver set now being held for identification at the police station was stolen by Weedon. All this property was found hidden in the room of Jackson and Carter, who have not had a trial yet in police court.

John Bergquest became real careless Wednesday evening by ordering drinks at several saloons without going through the formality of paying for them. He went to one saloon too many, was arrested for being drunk and disorderly and when arraigned before the police judge Thursday morning was fined $1 and costs. Bergquist cried when fined and said he is sorry he came to Nebraska. He was the first man to cry in police court this year.

Cunliffe Pleads Guilty.

PITTSBURG, Oct. 26.—Edward G. Cunliffe, the Adams Express robber, went into court today and pleaded guilty to two charges of larceny, representing a theft of $161,000. Sentence was suspended until Saturday. Cunliffe's action caused much surprise, as neither the Adams Express company nor the Pinkerton detective agency were represented in court. He has no counsel and the belief is growing that Cunliffe is mentally unbalanced.

POPULATION OF DAKOTA TOWNS

Thirty-Two of Them Have Over One Thousand Inhabitants.

PIERRE, S. D., Oct. 26.—(Special.)—The towns of the state shown to have a 1,000 or more population by the last census are: Aberdeen, 5,841; Armour, 1,125; Belle Fourche, 1,023; Beresford, 1,192; Brookings, 3,263; Canton, 2,279; Chamberlain, 1,007; Lead, 8,052; Madison, 2,914; Milbank, 1,718; Mitchell, 5,719; Parker, 1,227; Pierre, 2,794; Rapid City, 1,797; Redfield, 1,591; Deadwood, 4,384; Dell Rapids, 1,339; Elk Point, 1,283; Flandreau, 1,455; Groton, 1,064; Hot Springs, 2,066; Huron, 3,783; Sioux Falls, 12,203; Scotland, 1,120; Sisseton, 1,375; Spearfish, 1,158; Sturgis, 1,329; Tyndall, 1,171; Vermillion, 2,147; Watertown, 5,164; Webster, 1,918; Yankton, 4,189.

Illinois Central Train Ditched.

FORT DODGE, Ia., Oct. 26.—(Special Telegram.)—Illinois Central limited train No. 2 on the Omaha division was thrown in the ditch at Arion today by striking a derailer. The train was just entering town when the accident occurred and was running at a speed of not more than ten miles an hour. Owing to the slow speed only the engine and buffet car left the track. Traffic along the line was delayed about three hours on account of the wreck. No one was injured.

Services at Temple Israel.

Rabbi Frederick Cohn will lecture Friday evening at 8 o'clock at Temple Israel on "The People of the Book." Services will be held Saturday morning at 10 o'clock and the subject of the sermon will be "Genesis."

M. Eastman, Crawford; R. M. Peyton, Creighton.

ONLY A SUGGESTION

But it Has Proven of Interest and Value to Thousands.

Common sense would suggest that if one wishes to become fleshy and plump it can only result from the food we eat and digest and that food should be albuminous or flesh-forming food, like eggs, beefsteak, and cereals; in other words the kinds of food that make flesh are the foods which form the greater part of our daily bills of fare.

But the trouble is that while we eat enough, and generally too much, the stomach, from abuse and overwork, does not properly digest and assimilate it, which is the reason so many people remain thin and under weight; the digestive organs do not completely digest the flesh-forming beefsteak, eggs and similar wholesome food.

There are thousands of such who are really confirmed dyspeptics, although they may have no particular pain or inconvenience from their stomachs.

If such persons would lay their prejudices aside and make a regular practice of taking after each meal one or two of Stuart's Dyspepsia Tablets the food would be quickly and thoroughly digested, because these tablets contain the natural peptones and diastase which every weak stomach lacks, and by supplying this want the stomach is soon enabled to reach its natural tone and vigor.

Stuart's Dyspepsia Tablets digest every kind of flesh-forming food, meat, eggs, bread and potatoes, and this is the reason they so quickly build up, strengthen and invigorate thin, dyspeptic men, women and children.

Invalids and children, even the most delicate, use them with marked benefit as they contain no strong, irritating drugs, no cathartic nor any harmful ingredients.

Stuart's Dyspepsia Tablets are the most successful and most widely known of any remedy for stomach troubles because they are the most reasonable and scientific of modern medicines.

Stuart's Dyspepsia Tablets are sold by every druggist in the United States and Canada as well as Great Britain at 50 cents for complete treatment.

Nothing further is required to cure any stomach trouble or to make thin, nervous, dyspeptic people strong, plump and well.
