'VARSITY GETS READY FOR WIND-UP GAMES

Minnesota, Colorado and Illinois Are Coming Along After the Match at Omaha and Cornhuskers Want All Three,

LINCOLN, Oct. 27 .- (Special.)-Proof that the clash between the Wolverines and Cornhuskers last Saturday at Ann Arbor was a titanic struggle and far flercer than the foot ball public generally had understood, is furnished by the present dilapidated condition of the two elevens. Michigun's triumph is a matter of history, but, while both teams were badly battered and bruised, the luck as to the results is largely Nebraska's favor. Booth has at least a half dozen crippies in the Nebraska camp, but none of his men is in a serious condition, and the full Cornbusker lineup will be presented in the game next Saturday against Creighton at Omaha. In Yost's camp, however, the dispatches relate that four or five of his pupils are in such a grave plight that two of them may not be able to get back into the game this year. Michigan, therefore, in winning bids fair to harvest a crop of spills which may interfere gravely with the Wolverines' aspirations of claiming another western the freshman rule, the belief prevails within championship.

Booth's proteges have been having an easy time of it this week. The 'varsity lineup has been made up at least one-half of substitutes, and the play, as a result, has been ragged. Neither has it been aggressive or fast, for Booth is bent on cheating midseason stalcness and has put on the brakes during the entire week. He has no smbition to smother Creighton and will also take it easy in the game the aborigines even if such an arrangement week following against Ames. By that were desired. The suggestion attributed to time he figures that his full 'varsity squad should be in action, after which he will square away for the preparations for Colorade, which comes to Lincoln on Novem- quoted and that neither he nor the Minne-

According to the present prospects, this Colorado game will be the big event on the Cornhusker's home schedule. In the past two years Illinois university has given Nebraska the stiffest kind of a battle or Thanksgiving day, and both games were spectacular in the extreme. But Illinois s seemingly off color this year and unless

BOOTH'S CRIPPLES IN LINE 'a surprising brace is taken, the team from Champaign will not be the usual drawing card for the final fray of the season. On the other hand, Colorado, although handl-Men Used Up at Michigan Ready to capped by geography, appears decidedly formidable. Last year the Mountaineers, playing upon their own gridiron, snatched a victory from the Cornhuskers by the narrow margin of a touchdown, and it is up to Nebraska to turn the tables and send

the Boulderites back home beaten. The size of Colorado's scores so far this season, hewever, indicate that the westerners have a high-grade eleven. In one of their games they piled up 100 points, an achievement not equalled by any other western team. The average Nebraska rooter is confident that the Cornbuskers, playing upon their own gridiron, with greater weight and more experienced players in the lineup. will even up for the defeat of a year ago, but Booth is conservative and will say pothing except that Nebraska ought to win If his pupils are in shape for the conflict. Crowd Coming to Omaha.

Having secured a low excursion rate for the accommodation of several hundred Cornhusker rooters for the Creighton game at Omaha next Saturday and having induced the railroads to grant a \$6 rate for the round trip from Lincoln to Minneapolis for the Nebraska-Minnesota game, the Nebraska management is seeking to interest Celorado rooters in an excursion proposition from Denver for November II. The Minneapolis excursion, however, is the event which is causing most of the commotion in Cornhusker circles. While the ath-

letic authorities at Minnesota and Nebraska have not yet settled their differences over the ranks of the Nebraska rooters that the game will be played. Last week newspaper dispatches from Minneapolis credited Dr. Williams, the Gopher coach, with having suggested the cancellation of the Nebraska game and the substitution of the Carlisle Indians. Subsequent inquiry by Nebraska disclosed that the Carlisle Indians were scheduled to play in Cincinnati on November 18 and that Minnesota could not get the Coach Williams, however, stirred up some bitterness in the Nebraska camp, but it has since developed that Williams was mis-

BOOTH AND HIS WOOLY WARRIORS Decline in Temperature Stimulates Distri-University Team Will Play Creighton

The Traffic Offered and There in Little Idle Mn-

at Vinten Park.

Booth and his warriors will be in Omaha for the game with Creighten at Vinton street park Saturday afternoon, the game being called at 3 o'clock. Creighton has strengthened wonderfully during the last week. Eilick, coach of the '0' team, has been caled in to help out in the coaching department and considerable progress has been made. Thorne, last year's guard, has returned to the game, as has also Royers, who played fullback last year, and all this has given the rooters encouragement that a good showing will be made. Another boost for the Creighton men is the rourser that Booth will not send his whole strength against Creighton, but will save some of his better men for the Colorado won from the Cornhuskers last year and Booth has a wholesame respect for its prowess. chinery.

prowess.
Some of the men were a little worse for wear from the Michigan game, and no cripples will be sent in against Creighton, as Booth will take no chances of injury with the Colorado and Minnesota games not

far off.

The Omaha High school team has been practicing against the Creighton players during the week, and this has been a great help in preparing the team for the coming game. Many Nebruseka rooters will be on hand and several of the fraternities will be present in a body in coaches. Some of the professional departments of Creighton university also will be represented in tally-hos.

Lord Sefton Wins Waterloo Cup. Lord Sefton Wins Waterloo Cap.
CHAPMAN, Kan., Oct. 27.—The national coursing meet ended today with the winning of the Waterloo cup by Lord Sefton owned by D. K. Carter of Cottonwood Falls, Kan., and H. D. Lowe of Lawrence, Kan.; second, Mr. Path. The Waterloo purse race was won by New Wrinkle, owned by J. C. Bryant of Nebraska.

University Eleven Wakes Up. VERMILION, S. D., Oct. 27.—(Special Telegram.)—Madison High school foot ball eleven was defeated by the State university today, 33 to 6. With the score 6 to 5 in Madison's favor in the first half, the in Madison's favor in the first buchdowns in Coyotes braced, scoring five touchdowns in

Harvard coaches seem to have a hard time Phil King has given it out to eastern friends that, although he can have a five-pear contract if he wishes it, he will coach Wisconsin but one season.

Yale has not sent out a gloomy story this season. The prospects are so bright the coaches and managers are having a hard time to find anything to grieve over. DeWitt, the former crack guard, kicker and all-around star of the Princeton team, will leave the west long enough to give his services as assistant coach this fall. A canvas screen has been placed around the Northwestern field and no one is per-mitted to watch the practice. Policemen are used to keep idle spectators away from

Since the wonderful performance of Eckersall in the Wisconsin game Stagg is up a stump to find a suitable substitute for his doughty quarter. The most available man seems to be Jesse Harper, the base ball captain.

man seems to be Jesse Harper, the base ball captain.

A league for association foot ball will be formed and games played this fail for the trophy offered by Columbia. Harvard Corneil, Haveford, Pennsylvania and Columbia will doubliess have teams in the league at the start. Teams have been in existence in these colleges for a year or more and in the case of Haveford and Harvard a much longer period. It is probable for next year the championship games will be played in the spring, although the general preference of the players seems to be to start in the fail and keep playing up to summer. Only the desire not to interfere with regular foot ball has placed the games in the spring heretofore. The cup to be played for is a challenge trophy and the terms of play have not been definitely arranged.

Difficulty in the eastern colleges, notably for is a challenge trophy and the terms of play have not been definitely arranged.

Difficulty in the eastern colleges, notably Yale and Columbia, in finding a suitable trainer for track teams brings to mind the fact that first-class trainers are scarce. Considering the splendid saiary which they command, it probably would be a good idea to establish a school for trainers. The really goed trainers can be counted on the fingers of your two hands. They are: Mike Murphy of Pennsylvania, Keene Fitspatrick of Michigan, Dad Moulton of Leliand Stanford, James Temple of West Point, Ernie Hiertberg, formerly of Columbia: Dr. Shell of Haveford, Jim Robinson of Princeton, Mike Sweeney, now of Hill school: Johnnie Mack of Yale, Jim Lathrop of Harvard, Jack Moakley of Cornell and A. A. Stagg of Chicago. This number is small compared to the really first-class foot ball trainers who are brought to the front each year. Of course the requirements are much greater on a good track instructor and trainer than on the gridiron teacher. When the retirement of Mike Murphy was announced last spring the problem was forced to the front.

A Home Made Happy by Chamberlain's Cough Remedy.

About two months ago our baby girl had measles which settled on her lungs and at last resulted in a severe attack of bron-chitis. We had two doctors, but no relief was obtained. Everybody thought she would die. I went to eight different stores to find a certain remedy which had been recommended to me and failed to get it, when one of the storekeepers insisted that try Chamberlain's Cough Remedy. I did so and our baby is silve and well today .-George W. Spence, Holly Springs, N. C. There is no better preparation on the market than this remedy for a cough, as well as colds, croup and whooping cough. It is especially good for children, as it contains nothing injurious and is pleasant to take.

bution of Seasonable Merchandise.

REPORTS FROM ALL SECTIONS FAVORABLE

Railways Are Unable to Handle All

NEW YORK, Oct. 27.-R. G. Dunn and Company's weekly review of trade tomor-

Company's weekly review of trade tomorrow will say:

Almost without exception reports are favorable regarding the nation's commercial progress. A needed decline in temperature has stimulated distribution of wearing apparel and other seasonable merchandise, relieving anxiety that heavy stocks would be carried over at the end of the season. Some wholesalers are receiving supplementary orders in these lines, but as a rule duplicate business has not become general. There is no decrease in the inquiry for spring shipments from jobbers and little idle machinery is found in the leading manufacturing industries. Production and consumption is at a new maximum, without the unsettling influence of a return to the inflated prices of a few years ago. The railways have been purchasing new equipment freely, yet there is the usual delay in moving freight that has apparently become inevitable at this season. Textile mills are well occupied, although the labor situation is more uncertain, and the teamsters' strike had a tendency to interrupt business. Shoe shipments from Boston have now risen to within 10,000 cases of the movement to date in 1963, all other years being far surpassed. A sharp advance in prices of leading farm stapies was accompanied by the greatest activity of the season in option markets, and the average of the sixty most active railway securities established a new high water mark, although the outside public was not a prominent factor. Railway earnings in October were f per sent larger than last year and foreign commerce at this port showed an increase of \$2,537,698 in exports and \$2,219,433 in imports as compared with the same week in 1904.

Limited offerings maintain firmness in the hide market, some varieties are having still higher levels, which now means a new high record since the civil war in nearly every instance. Leather is quiet.

Failures this week number 210 in the United States, against 223 last year, and twenty-five in Canada, compared with twenty-eight a year ago. row will say:

BRADSTREET'S REVIEW OF TRADE

Buoyancy Still Characterizes Practieally All Lines of Business. NEW YORK, Oct. 27.-Bradstreet's to

orrow will say:

NEW YORK, Oct. 27.—Bradstreet's tomorrow will say:

Activity, in fact buoyancy, still characterizes practically all lines of trade and industry. Cooler weather is a stimulus to retail trade in all but a few small and relatively unimportant sections of the country. Re-order business reflects this in a steady call from jobbers for any goods, clothing, shoes, hats—in fact, all lines of wearing apparel. Holiday trade in many lines also shows effects of early buying. The practical lifting of the last of the southern quarantnes is helping southern trade, as is also the higher prices of cotton, which is loosening up the movement of that staple. The long awaited materializing of European demand for our breadstuffs is apparently now at hand. Business in this line, it is claimed, is now limited only by vessel room carrying capacity. Higher prices for nearly all farm products have helped demand in agricultural districts, and to a certain extent improved collections. Industry retains the lively appearance noted for some time past. In railway lines the efforts making to handle the immense offerfing are such as never were put before. Bank clearings, though comparing with very large totals a year ago, show expansion, particularly at cities outside the metropolis. Taken as a whole, the situation is one which finds no precedents for this season of the year, and stress is being lift upon the need of conservatism if runaway markets are to be avoided.

Features deserving note in the iron and steel trade this week are the liberal orderapilaced for cars and other rolling stock, which have been covered by sales of bars, billets and crude pig iron, the latter being relatively most active at the east.

Coal is active and Illinois and Indiana mine outputs are limited only by the supply of cars. At the east bituminous coal tends upward, due to car troubles. Lumber is active for this late date in the season and a large cut is certain this winter.

Business failures in the United States for the week ending October 25 are 4 367, 105 bushels

REPORT OF THE CLEARING HOUSE Transactions of the Associated Banks for the Week.
