

AROUND THE WORLD WITH BRYAN

Read Bryan's Letters from Week to Week in The Bee

The Bee has at great expense arranged to publish the Bryan letters. They will appear in no other Nebraska paper outside of his home town. The first letter may be expected about the middle of November. Colonel Bryan has already started on his journey and, according to cable dispatches, has been receiving very marked attention in Japan. He will devote nearly a year to his tour and will give his impressions and observations in a series of letters written in his peculiarly attractive style.
