To the Prudent Investor:

It is not enough to be sure that a savings concern is the oldest, largest or most progressive of its kind. An investor will want to know all about its condition and its ratio of expense to receipts and expenditures.

The Conservative, with \$1,450,000 resources and a reserve and undivided profit account of \$55,000, is the largest and safest savings association in the state, and its condition is best described in three words, Sound, Solid and Successful. Its ratio of expense is less than 2 per cent of the annual receipts.

We receive savings accounts of from \$1.00 to \$100.00 at any time, or investments of from \$100 to \$5,000, and allow dividends on all money received by us from the date it reaches this office. Thus far in fourteen years we have never paid less than six per cent per annum.
