CONTRACT LET FOR CUT-OFF

Work of Grading New Union Pacific Line Goes to Denver Firm.

ROAD WILL GREATLY REDUCE MILEAGE

When Completed it Will Enable Over-land to Compete for Traffic Between Omaha and Lincoln.

E. C. Bradbury & Co. of Denver have been awarded the contract for grading the Union Pacific cut-off from Summit to Lane and this firm will begin work at once. Some work has been done by the Union Pacific and the Denver firm will begin operations where the company left off and grade for the double track as fast as possible.

Officials of the Union Pacific are anxious for the completion of this work, as it will materially shorten the route to the coast, besides make a shorter route for the Union Pacific to Lincoln. On the old route the Union Pacific is in no position successfully to compete for Lincoln business, but the shortening of ten miles from Omaha to Lincoln may make quite a difference on the Lincoln business.

Car Shortage Grows Worse. The car shortage situation continues to get worse and both shippers and railroad officials are losing their sweet dispositions. Each tries to throw the blame on the other. The jobbers say it is impossible to get a car switched to their warehouses and the railroads say the jobbing houses are filled and many are receiving four cars per day when they can unload but two and the consequence is there is an accumulation of cars which is fast locking all terminals.

Railroad men are free to admit the situation is growing worse and cars are needed on all sides. One grocery firm has forty cars on the tracks of one railroad company alone. The trouble is not confined to the Omaha alone but is general all over the line. Cars are needed everywhere and there are no cars to be had.

Hospital Fund in Effect. When Union Pacific employees received their pay checks Wednesday, each check was found to be short 10 cents. This was taken out for the Union Pacific hospital fund which was put in operation November 1, for the first time in several years.

Dr. A. F. Jones is chief surgeon and manager of the fund and has appointed as his assistants in Omaha the following medical and surgical staff: Dr. O. S. Hoffman, Dr. E. J. Updegraff, Dr. S. H. Smith, Dr. C. C. Morrison and Dr. F. S. Owen. Employees suffering from minor injuries and mild cases of sickness are requested to file their orders for treatment at the dispensary.

This trust fund, augmented by contributions from the company, is under the management and control of the company, with the chief surgeon as executive officer. The current expenses of the fund, after applying all contributions of the employees, will be provided by the company. The company will at its own pleasure collect and disburse all funds and will endeavor to secure the services of competent physicians and surgeons in all towns on the company's line, and will provide accommodations in modern hospitals for the use of the sick and injured.

Employees contributing to the fund will be entitled to these benefits: Hospital treatment, medical and surgical, medicinal or surgical treatment at their homes or at the offices of hospital fund surgeons; medicines and surgical dressings; artificial limbs and surgical appliances; accommodations at actual cost, at designated hospitals, for dependents of employees of families, same as paid by hospital fund in case of an employee, and burial allowance in case of death in a company hospital.

Railway Notes and Personal. H. J. Phelps, district passenger agent of the Illinois Central at Dubuque, is in the city.

Railroads are receiving numerous inquiries concerning the home visitors' rates which are effective November 27. A rate of a fare and one-third for the round trip have been made to many points in the east by all roads to accommodate those who wish to visit their old homes.

A complimentary banquet is to be tendered to Chief Engineer Berry, who goes to the Rock Island, by the officials of the Union Pacific at the Omaha club next Tuesday night. Mr. Berry's successor as chief engineer of the Union Pacific has not been introduced to the public.

The biggest tourist movement of the season is on at the Union station, although Wednesday ought to clean up the business. This is because of the one-way homeseekers' rates which have been in effect and which expired October 31. Tuesday was the last day of sale all over the country, and the tail end of the business is now passing through Omaha. The Illinois Central train had twelve cars Wednesday morning and all of the roads were well patronized. The San Pedro line will get many of the passengers.

In Desperate Straits. are many who could be cured by Dr. King's New Discovery for Consumption, 50 cents and 81c. For sale by Sherman & McConnell Drug Co.

Announcements of the Theaters. "The Show-Girl," which will be offered by Henry W. Savage at the Boyd theater tonight, is the joint production of George Ade and Gustav Luders. As is always the case, Ade has told an interesting and not unappealing story in his inimitable way. Luders has scored the songs with most appropriate music. John E. Henschel leads the company, a clever and popular comedian, who can sing as well as act. He is supported by the same fine organization that presented the piece on the occasion of its first visit to Omaha.

Sunday night Wilton Lackaye will begin his long deferred visit to Omaha in "The Pit." This is an intensely American play, dramatized from the Frank Norris novel of the same name, and has had an immense vogue during the last two seasons. On Sunday and Monday evenings "The Pit" will be the bill, and on Tuesday evening "Tribby" will be offered, with Mr. Lackaye as Svengali.

The regular mid-week popular price matinee, the elected performance for the regular weekly visit of so very many women to the cozy vaudeville theater, will be given at the Orpheum this afternoon. Possibly the most appealing feature to the fair sex is Eva Westcott, the vivacious little star, in "An Episode in Modern Life." In it Miss Westcott appears as a very gay fun-loving young wife who don't figure the cost of anything. She returns from shopping to find her husband sitting at a desk apparently reading the paper. When she approaches him to reconcile matters she discovers she has been addressing a dead man. Other good acts are on the program.

FOUR YOUNG MEN SENT UP

Two Get Two Years and Two Six Months in Penitentiary.

COURT GIVES PRISONERS GOOD ADVICE

One Eighteen-Year-Old Youth Who Forged Small Check Draws a Two Years' Term at Lincoln.

In the criminal court Judge Day had a short session Tuesday morning, with four prisoners who had changed their pleas from not guilty to guilty. The first to face the judge were Harry Marks and Benjamin Shaddock, two youths charged with having forged a check for \$4.50 last August.

"Marks, I have been making inquiries about you for some time," said the court. "I find you are over 18 years of age and your story is true of your parents being dead, also you were put in the care of an aunt when you were 4 years old. It is not the intention of the court to inflict harsh punishment on young men like you, but society must be protected against those who transgress its laws. I shall neither give you the maximum nor the minimum sentence, but will send you to the penitentiary for two years."

"Shaddock, I have had a letter from your mother and she feels very bad indeed to learn you are in this kind of trouble. The county attorney has the letter and you may see it. I hope this experience will be a lesson to you, as well as to your companion. Your sentence will be two years in the penitentiary. You boys will still have a chance to become good men when you get out if you will heed this lesson, and I believe you will."

Law Suit Over Hole in Street

William P. Chaddock of 1510 Mason street has notified the city he will expect \$500 damages for personal injuries sustained October 23 by being pitched from his loaded wagon on Jackson street, between Ninth and Tenth. Chaddock says the accident was due to a big hole in the pavement two feet deep, into which the wagon wheel slipped, causing a sudden jolt. His right

SOME WOMEN HATE TO PAY

Resort to Various Schemes to Beat Street Car Company, Says Conductor.

"Some women will work all sorts of schemes to get out of paying their fare," said a conductor on a Farnam street car yesterday, with a savage look on his face. "See that woman back there? I asked her for her fare and put out my hand for it, she looked up at the man by her side as much as to say, 'He is my husband.' The man gave me a quarter and I took out 10 cents. He refused to stand for it and made a roar, telling me he was paying only his own fare. I stepped back in front of the woman and asked her why she hadn't given me her fare. Then she dug up. They often work this scheme and many men would rather be imposed upon than make a fuss about a nickel."

A common scheme is to point to the rear end of a car, implying that an escort is on the platform. When the car is crowded, the conductor, after failing to find the escort, will not go back after the fare. One night not long ago, six women on a Farnam street car, pointed to the rear platform. The men riding behind all said they were alone. The conductor stopped the car and said he would not allow it to proceed until every woman had paid her fare. One of the women became indignant when he insisted on having her money, and the poor conductor rang the bell in disgust.

Old Bank Quarters Rented.

The old Union National bank rooms in the McCague building, at Fifteenth and Dodge streets, have been rented to the National Mutual Fire Insurance company. This leaves in the city only two vacant rooms available for banking purposes, as against four two months ago. One is the old location of the United States National quarters, once occupied by the McCague Savings bank, in the McCague building. The banking room in the Barker block is occupied by the Union Pacific Coal company.

Mortality Statistics.

The following births and deaths have been reported to the Board of Health during the twenty-four hours ending at noon Wednesday: Births—Peter Columbus, 1516 California, girl; Anthony Minardo, 38 North Tenth, girl; Grant Howard, 108 North Fifteenth, boy; C. Heed, 208 North Eighteenth, boy; Irving H. Arce, 123 Emmet, boy.

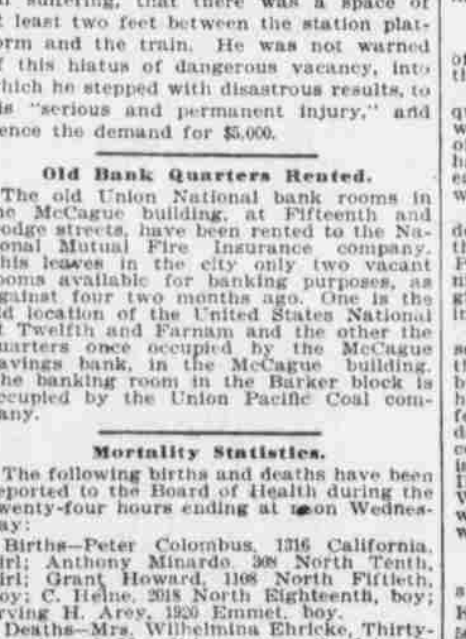

Deaths—Mrs. Wilhelmina Ehrlich, thirty-four and Meredith avenue; St. John C. Reimel, 818 North Twenty-third, 49.

CANADIAN RAILWAY DEFENDANT

Attorney R. S. Hall Demands \$5,000 of Canadian Pacific for Personal Injuries.

Attorney Richard S. Hall has filed suit in the district court of Douglas county, against the Canadian Pacific Railway company for \$5,000 damages. Mr. Hall alleges that he was traveling as a regular passenger on one of the defendant company's trains in the Northwest Territory on September 2, 1905. On approaching the town of Field an announcement was made that an eating station was at hand. Being hungry and thirsty Mr. Hall went to alight to sink his teeth in the railroad fare, (they had already gotten his fare, he avers). He set up, not, after much physical and mental suffering, that there was a space of at least two feet between the station platform and the train. He was not warned of this hiatus of dangerous vacancy, into which he stepped with disastrous results, to his "serious and permanent injury," and hence the demand for \$5,000.
