GRAIN AND PRODUCE MARKET

Bulls Aid Upward Tendency by Large Purchases.

WHEAT OPTIONS CONSIDERABLY HIGHER

Corn a Trifle Better and Oats Very Strong—Minneapolis Buys Wheat in the Southwest—Moisture Hurts Corn.

OMAHA, Nov. 2, 1905.

Wheat was steady today and closed higher. The lowest sale of May was at Wednesday's closing figure, while in the early hours December sold ¼c below Wednesday. The tendency of both months was upward and the advance was aided by large purchases on the part of the bull leaders. May was ¾c higher at the end. December closed at 89¼@89¾c, May at 90¾c and July at 85¼@85¾c.

Corn opened higher, but sold off during the early part of the session. A later reaction brought it up at the close to a little above yesterday. December closed at 47¼@47½c, old December at 46¾c, May at 46¾c and July at 46¼c.

Oats were strong from the start. December closed at 30¾@30¼c, May at 32¾c and July at 31¼@31¾c.

Primary wheat receipts were 1,000,000 bushels, and shipment 293,000 bushels, against receipts last year of 1,029,000 bushels and shipments of 663,000 bushels. Primary corn receipts were 405,000 bushels and shipments 196,000 bushels, against receipts last year of 218,000 bushels and shipments of 220,000 bushels. Clearances were 82,000 bushels of corn, 150,000 bushels of oats, 198,000 bushels of wheat and 3,000 barrels of flour.

Liverpool closed ⅜d lower on wheat and ⅛@¼d lower on corn.

Buying of winter wheat at Kansas City by Minneapolis millers has been resumed. The purchases shortly after winter wheat harvest were very large, but were discontinued after the new spring wheat began to move. Minneapolis wheat stocks have increased only 100,000 bushels in the last four days, and owing to was no increase for the corresponding week of 1,300,000 bushels. Kansas City reported the sale of 100,000 bushels cash wheat to go to Minneapolis yesterday, 50,000 bushels to go to Chicago and 10,000 bushels to go to Texas millers.

The Price Current, out today, says: "Wheat crop in western sections bettered by recent moisture; elsewhere it is almost uniformly very promising. Recent moisture is somewhat of a drawback to corn, it caused some injury to grain in the shock and hindrance to husking and marketing.

"The situation last week was not highly satisfactory to either millers or buyers," says the Northwestern Miller. "There was a moderately good business during the early days, but later, with the advance of wheat prices, the greater part of the buying trade withdrew from the market, showing a disposition to await a break. An advance in flour prices has restricted forward business in the importing markets of the United Kingdom."

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, Nov. 2.—Renewed rioting in Russia caused a strong finish today in the wheat market here. At the close the price of wheat for May delivery was up ¾c. December corn shows a gain of ¼@¼c. Oats are up ¼@⅝c. Provisions are practically unchanged.

Influenced by the continued serious condition of affairs in Russia, the wheat market opened firm. The May option was up ¼@⅝c at 89¼@90c. December was a shade to ¼@⅜c higher at 88¾@89c. Commission houses were active buyers. Many longs who sold out yesterday reinstated their lines early in the session. Decreased receipts in the northwest helped to stimulate demand. Offerings, notwithstanding, became decidedly liberal and the market developed considerable weakness. May declined to 89¾@89¼c, while December sold off to 88¾c. Selling credited to a leading bull started the decline. Sentiment, however, soon changed and the market again became strong. Additional advices were received telling of fresh disorders in Russia. This was the main reason for the restoration of strength. Some firmness, however, resulted from the bullishness of domestic news. The price of cash wheat at all the leading grain centers of the United States was higher and demand from millers was reported active. Export demand also was more animated. During the last hour shorts were active buyers. Several prominent longs added to their lines. For May the highest point of the day was reached at 90¾@90¼c. December advanced to 89¾c. The market closed strong, with May at 90¾c. Final quotations on December were at 89¼@89¾c. Clearances of wheat and flour were equal to 221,500 bushels. Primary receipts were 1,000,000 bushels, compared with 1,029,000 bushels a year ago. Minneapolis, Duluth and Chicago reported receipts of 794 cars, against 794 cars last week and 832 cars a year ago.

After a slight decline early on selling by commission houses the corn market became firm and closed at about the highest point of the day. The easier tone at the start was due mainly to a decline at Liverpool. The market derived some strength from a report made by a crop journal of Cincinnati. The report claimed that considerable corn in shock had been damaged by recent rains. Another bullish factor was an improvement in export demand. December opened unchanged to ¼c off, sold between 45¾c and 46c and closed at 45¾@46c. May ranged between 46c and 46¾c and closed at 46¾c. Local receipts were 189 cars, with 11 of contract grade.

A surprisingly large increase in country acceptances had a bullish effect on the oats market early in the session, but prices yielded only a trifle to selling attributed to this cause. Later the market became firm on active demand from bull traders. Cash and export demand was fairly active. The market closed firm, with prices at the highest point of the day. December opened unchanged to ¼c higher at 29½@30c, sold between 29¾c and 30¼@30¾c and closed at the highest point. May ranged between 32¼@32¾c and 32¾c and closed at 32¾c. Local receipts were 257 cars.

Provisions were firm after slight weakness early in the day. Selling of January products by a local packer accounted for the easier tone at the start. An advance of 5c in the price of live hogs stimulated demand later in the session. At the close January pork was up 2½@5c at $12.50@12.52½. Lard and ribs were each a shade higher at $6.80@6.82½ and $6.52½, respectively.

Estimated receipts for tomorrow: Wheat, 115 cars; corn, 307 cars; oats, 251 cars; hogs, 21,000 head.

Board of Trade will be closed Tuesday, November 7, election day.

NEW YORK STOCKS AND BONDS

Market Is Active and Higher During Greater Part of Session.

BIDDING FOR READING STARTS PANIC

Shorts Run Price Up to 185 and Movement Induces Slump in Prices of Other Shares.

NEW YORK, Nov. 2.—Today's stock market, after active trading throughout the session, was subjected to a shock in the late afternoon when a bear panic developed in Reading and that stock was rushed up to 135. This movement induced a slump in prices elsewhere, but when Reading yielded to below 132 the general market rallied. The closing, however, was irregular and highly exciting.

The market was gathering strength in the afternoon when the violent advance in Reading set in on a paroxysm of buying by many thousand shares. The feeling of panic amongst uncovered bears was a clear enough motive for this movement and the fear of losses to be involved induced a general throwing over of stocks in other directions. Gains were pretty generally wiped out in a few minutes and a number of important losses established. The movements in the market were for specialties and a scrutiny of the whole list discloses the general movement in the general leaders was narrow. There were some stocks in this class that moved upward during the day, but they were greatly outnumbered by the similar movements in the industrial list. The upward movement was not simultaneous, but was effected by a transition from one group of stocks to another, some item of news agreeable to the movement being brought forward in each case to account for it.

The reopening of the foreign stock markets after yesterday's holiday showed some renewed depression on account of the continued disorders and troublesome outlook in Russia. There was a sharp reaction in the price of Russian bonds and London was an active seller of stocks in this market during the early dealings. This reactionary influence was contested from the outset by the sudden upward movements in individual stocks. This was only partly successful in overcoming the general heaviness of the market so long as orders continued to be received in the market from foreign markets. After the hour when trading abroad was over the market here made better general progress upward. The coalers continued to hold the conspicuous places in the trading which had distinguished them for some time past. The supposed new factor today in the awakened demand for them was the reported opinion of the head of the mine workers that a strike of coal miners was unlikely for the coming spring. The stimulation thus given lifted Reading to a new high level and was of influence in awakening Erie from a partly dormant position. Pennsylvania was affected by the same influence, coupled with the extraordinary activity reported in the iron and steel trade. The group of Smelting and Metal stocks continued to be influenced by the rumors of an intended merger.

Time money continued very firm in this market and foreign exchange recovered from yesterday's reaction. The Bank of England made a very weak return with its proportion of reserve to liability down to the extraordinary low proportion of 38.59 per cent. Open market discounts hardened in London, call money rose sharply, and sterling exchange in Paris declined a fraction. New Orleans took another $400,000 from here by transfer through the subtreasury. Some of the southern and southwestern systems reported decreases in net earnings for September, some of them showing decreases in gross earnings with an increase in operating expenses to magnify the effect of net earnings.

Bonds were irregular. Total sales, par value, $3,325,000. United States 2s declined ⅛ per cent on call.
