Fined for Firing Through Car. BROKEN BOW, Neb., Nov. 8.—(Special.) -Riley Garringer and Jim Owens of Oconto, arrested at Dunning by Constable Ira Foster, and brought to this city Sunday, charged with sending a rifle bullet through the windows of a car attached to train 44 of the Burlington last week, and missing within the fraction of an inch the head of a passenger, were brought before Judge Armour yesterday for hearing. Both parties seemed much astonished at their arrest and were quite vehement in declaring that no harm was intended in any way Carringer, who fired the shot, is working for Owens, and the two were hauling a load of lumber at the time. He says he was aiming at a telegraph pole as the train was approaching, but the horses comnenced prancing and he must have missed his aim, the shot passing through both windows of the coach. Judge Armour intimated that such carelessness could not be overlooked and accordingly fined the culprit \$5 and costs. BRIEFS FILED IN WOODMEN RESERVE CASE

Supreme Court Asked to Decide Whether a Person Can Recover on a Contract for Lobbyist

Services.

(From a Staff Correspondent.) LINCOLN, Net., Nov. 8.—(Special to The Bee.)—Returns of the election held yesterday are coming into the state headquarters slowly, and late this evening only nine counties had made complete returns on the state ticket. In nearly every instance only the majority vote was sent in, so the chairman is unable yet to figure on the total vote cast. So far as heard from, Judge Hastings carried only one county, Polk, which gave him sixteen plurality, though the republicans secured a number of the county officers. Sullivan carried Polk county by 242. Reports from Fillmore, Pawnee and other counties show the democrats made some gains in electing county officers, which tends to bear out the statements made before the election that the democratic state committee was paying no attention to the head of the ticket but was working in the interest of

county candidates. Chairman Warner has issued a call for meeting of the executive committee of the state committee at the headquarters Thursday night, at which time he will make his report of the conduct of the ampalgn.

From every standpoint the campaign has een a most successful one. The committee will pay off the debt left by the Burgess administration, amounting to some \$2,000, pay all the expenses of this campaign and still have some money in the bank for a rainy day.

The county committee has quit getting returns and will wait for the official returns before making any further tabulations. The head of the ticket carried the county by about 1,900 plurality and all the candidates have been elected, county though Judge Waters and Coroner Graham, who were running for fourth terms, were scratched.

Assistant City Attorney Herdman of Omaha was attending supreme court today and took occasion to say a word for the voting machines.

Douglas county will never go back to the old way of voting," he said. "The machines proved to be all right. They are easy to understand and a great timestopped, unless positive fraud is discovered. And then by 9 o'clock we know the vote, while earlier than that we knew who had been elected."

Speaking of republican success in Dougas county, Mr. Herdman said: "Everybody is prosperous in Omaha

and satisfied, and it was not possible to get out the vote. At least 2,000 people who registered failed to vote. We lost lots of socialist votes, too. These are the main

reasons for republican success."

Brief in Woodmen Case. In the supreme court this afternoon was argued the case of the state against John Drexel, county clerk of Douglas county, in which Governor Mickey, as chairman of the State Board of Equalization, seeks to secure a mandamus to compel the clerk to insert in and enter upon the tax rolls of Douglas county for taxation purposes the assessed value of the reserve fund of Reyno the order, amounting to \$2,038,651, of which the assessed value would be \$407,330, and the assessed value of the reserve fund of | the Woodmen circle, amounting to \$40,177. In his argument the attorney general set out the following points, upon which he

made his arguments: Fraternal beneficiary associations are in-Fraternal beneficiary associations are in-surance companies, and under the constitu-tion and laws of Nebraska neither the legislature nor any taxing officer has power to exempt their property from taxation. The reserve funds of fraternal beneficiary associations are not used exclusively for charitable purposes, but are subject to taxation.

In their reply the attorneys for the order raised these points against the granting of the mandamus:

1. Because upon the face of the alternative writ itself it does not appear that relator has any interest in the subject matter of the action.

2. Relator is not entitled to the writ, no demand having been made upon the respondent prior to the institution of this action.

3. The State Board of Equalization has no power to order or require the county assessor of Douglas county to add to or increase the valuation of property returned by an individual taxpayer for the purpose of assessment and taxation.

4. The county assessor having wrongfully increased the assessed valuation of the property of these corporations by direction of the state board, it was the right of the corporations whose rights were thus af-

Replying to this the attorney general

Question Validity of Lobby Contract. It is up to the supreme court to decide whether a contract made with a lobbyist to secure the passage of certain legislation is a legal contract, or whether it is illegal and against the public morals. The supreme court some years ago decided that such a contract was against public morals and that it was illegal, but recently a decision was handed down which overruled this, and also the opinion of the United States supreme court and of many other

The question was raised by Senator Pemrehearing in the case of Stoemer against Van Arsdel. The last named claimed that he had represented Stoemer and others in Washington and had secured the passage through congress of an act which entitled them to receive from the government a rebate on Indian lands which they had bought, amounting in all to some \$200,000. The land was appraised and then auctioned at public sale. The price was boosted at the sale and the settlers were compelled to pay much more than the appraised value of the land. Grain Case Postponed. Court to Pass on Jury Puzzle.

The supreme court is to solve the Tucker ury law puzzle. Attorney General Norris Brown late this evening filed a petition on behalf of Governor Mickey, requesting a writ of mandamus to compel L. C. Reneau county clerk of McPherson county, and the other members of the canvassing board to draw a jury panel in accordance with the Tucker law. The board refused the demand of County Attorney Wesley Wilcox to select the panel and thus the matter gets into the court. It will be heard probably at the next sitting.

After Babcock's Shoes.

A delegation of Beatrice citizens today called upon Governor Mickey to induce him to appoint a Beatrice lawyer to take saver. By their use all contests will be the place on the district beach made vacant by the death of Judge Babcock. Among those in the delegation who are candidates for the place were Senator Pemberton, Attorneys Cobby, Sabin and Riniker. Judge Chapman of Tecumseh also called upon the governor in the interest of his own candidacy.

A LL men, even strong ones, may be come victims of catarrh. Catarrh may affect any organ-the head, nose or throat, as well as the stomach or kidneys.

In summer the digestive organs are most commonly affected. In winter the respiratory organs fall victims to catarrh. Catarrh sometimes commences with a

cold which fartens itself upon the mucous membranes of the body. Then it develops into catarrh and the
