#### DUN'S REVIEW OF TRADE

Each Week Brings with it a Stronger Businers Situation.

IMPROVEMENT IN COLLECTIONS NOTED Production of Pig Iron and the Per Capita Money Circulating the Largest in His-

NEW YORK, Nov. 16 .- R. G. Dun & Co.'s weekly review of trade tomorrow wil

Each week brings a stronger business situation, seasonable weather having removed the last drawback, and pressure for shipment of goods is so great in many lines that the partial holiday put deliveries still further behind and caused much inconvenience. Reports of wholesome conditions are now practically unanimous and improvement is noted in collections in many dispatches. Retail trade of wearing apparel and foodstuffs is the feature, while interest is beginning to be shown in holiday goods, of which very large stocks were accumulated in expectation of a record breaking season. Manufacturing lines constantly establish new high water marks of production, the present output of pig fron being at the rate of 2,000,000 tons monthly, and this is one of the best known business barometers.

of pig iron being at the rate of 2,000,000 tons monthly, and this is one of the best known business barometers.

Footwear forwardings from Boston are within a few thousand cases of the record established in 1901. The textile mills cannot make deliveries with desired promptness and building operations are phenomenal. A few small strikes are in progress, but not sufficient to prevent the greatest industrial activity in the nation's history. Railway earnings thus far reported for October show a gain of 2.5 per cent over last year. Prosperity is also evidenced by a further rise in prices of commodities. Dun's Index number on November 1 being 100.858, the highest point of recent years. The per capita amount of money in circulation is also at a new record of \$31.69. Foreign commerce is fully maintained, exports from this port being valued at \$3,147.788 more than in the same week last year and imports gaining \$1,028,954.

Beyond the fact that former conditions are accommanded, there is nothing new in the iron and steel industry. Demand for all furms of heavy steel is beyond the capacity of mills, the railways showing an insatiable appetite for equipment, and building operations are absorbing structural snapes as rapidly as they can be turned out.

Prices of hides have moved to new high

tural snapes as rapidly as they can be turned out.

Prices of hides have moved to new high records for any date since the civil war, and there is little difference even in comparison with that period of restricted production. Demand is now absorbing supplies so promptly that poor qualities of long-haired hides are scarcely less expensive than the choice summer take-off. Foreign dry hides share the strength of domestic lines.

Failures this week number 183 in the United States against 213 last year and 18 in Canada compared with 17 a year ago.

REPORT OF THE CLEARING HOUSE Transactions of the Associated Banks

for the Week. NEW YORK, Nov. 10.—The fellowing table, compiled by Bradstreet, shows the bank clearings at the principal cities for the week suged November 8, with the per-

ing other items than clearings. BRADSTREET'S REVIEW OF TRADE

Excellent Reports Come from Nearly All Lines of Industry. NEW YORK, Nov. 10 -- Bradstreet's to-

Excellent reports still come from nearly all lines of trade and industry, the only flaws being complaints that car congestion in widely separated sections affects prices. Collections, cereal, coal and coke and general freight movements, and to a certain extent thereby discourages some new orders. Cold weather is still a stimulas to trade, quarantine restrictions have disappeared, filling in orders are numerous, and spring sales compare well with a year ago. Jobbers and wholesaiers report some transference of activity from staple lines to boilday specialties. Mahufacturers of these goods are working full time. Industry as a whole is very active. Iron and steel interests report last month a record breaker in all lines. Prices display marked strength, half a hundred such articles being higher than a month ago and three-fourths of all are higher than a year ago. Reports from the country are that money is in active request, the demorrow will say:

mand for crop movement is unprecedented. Here car congestion also cuts a figure in prolonging the time before the return currency movement sets in. At the metropolis call money has risen sharply, the highest figure for two years being reached, with a discouraging effect on stock speculation. Some slowing down of the foreign demand for cereals is noted, but foreigners display a tendency to take hold lower down.

The strength of demand and of prices in many industries is perhips the most marked feature of the present ecason's unprecedented trade. Iron and steel, lumber and all other building materials, cotton and cotton goods and of hides, leather and shoes show strength never heretofore surpassed. In fact, the list of prices, strong or tending upward, is a veritable roll call of the country's products.

Business failures for the week ended November 3 number 105, as against 190 last week, 184 in the like week of 1904, 230 in 1909, 205 in 1902 and 213 in 1907.

In Canada failures for the week number 30, as against 25 hast week and 25 in this week a year ago.

Wheat, including flour, exports for the week ended November 9 are 2,352,439 bu, as against 6,292,309 last week, 1,469,276 this week last year, 2,679,329 in 1903 and 4,440,150 in 1902. From July 1 to date the exports are 38,732,356 bu, as against 1,009,316 last week are 751,651 bu, as against 1,009 316 last week 143,051 a year ago, 1,688,322 in 1903 and 21,44,899 in 1902.

TRANSPLANT HAIR ON HEADS

#### TRANSPLANT HAIR ON HEADS Another Glowing Ray of Hope Held

Out for Ballheads by a Frenchman.

The remedies for bald heads are legion, out up to the present no specific has been Paris Cosmos: "If It is possible to act on the growth of the bair this can only be on condition that we act on the generator of the hair. Now histology shows that the hair is made up of a free portion, the stem and of another portion, the root, imbedded in the dermis. This is plunged obliquely into the subcutaneous conjunctive layer and is terminated by a bulb, which is in contact with the papilipa, made of conjunctive tissue. Living tissues are well fitted for reproduction and autoplastic junction. Surgeons have been remarkably successful in grafting tissues, and by analogy there seems to be no reason why one should not be able to make a capillary graft." This theory Merahen Hodara of Con-

stantinople claims to have demonstrated. He decided to experiment on a scalp made baid by tinea, with a series of scarifications of the epidermis and the superficial bed of the dermis. In these scarifications he planted hairs, plucked out with their bulbs intact, and after the healing had taken place it was seen that the graft had been perfectly successful.

"The hair planted in this way commenced fications the physician was able to cover with hair the heads of several patients." Carrying his investigations further, Dr. Hodara practiced a series of experiments upon animals. After the hair had taken root the animals were killed in order to examine the scarifications microscopically. It was found that all around the planted root the dermis had differentiated; that the superficial portions of the external cellular bed had taken the form of a bulb, and that the connections between the hair and the bulb were complete. The developing cells clearly showed that the generating bed of cells had been created and was working in every round. perfectly.

As it is not always possible to have freshly plucked hair, Dr. Hodara decided to see if the graft could be made more complete and if the stem of the hair itself could not produce a root and builb in the same way that the dermis had differentiated to produce a generating layer. Making new searifications he planted little particles of hair without roots. The experiment in this case was also a success, and the hair both grew and produced a bulb. The microscope showed that the roots were absolutely identical with the normal hair.—Public Opinion.

The Onimods won three games from the Black Kats last night, and while the scores seem low it must be remembered that the teams have been up against new and heavy pins this week and only the Metz boys have reached 2.700. McCague was high for the night with 559 and 213, and all the Onimods won three games from the Black Kats last night, and while the scores seem low it must be remembered that the teams have been up against new and heavy pins this week and only the Metz boys have reached 2.700. #### NO REFUND FOR COWARDS Men Who Bought Substitutes in Civil War Not to Get Money

Back.

WASHINGTON, Nov. 10 .- Many inquirie are received at the pension bureau from al parts of the country asking if a law ha been enacted reimbursing those who paid money to be exempt from the draft in 1863-64, but the pension officials point ou that there has been no legislation to warrant the reports which led to the inquiries. Deputy Commissioner of Pensions Davenport today said:

Deputy Commissioner of Pensions Davenport today said:

The pension bureau has no knowledge of a proposed law of this kind, and it is a little strange that any one would expect the government to come to the reflie of the stay-at-homes. In 1883 if became necessary in some states to resort to draft to fill town quotas. It seems at that time any one could purchase exemption for a fixed price. In many towns that price was 1300. It was simply a barter and trade arrangement between the man liable to be drafted and the town. The man purchased exemption upon paying his \$300. This money was used by the town to hire a substitute to serve in the place of the man who purchased his right to stay at home. The question is, "Did the man receive the full equivalent for his money?" It seems that he did, as at that time the regular price for a substitute was something like \$300. The town was compelled to add \$200 to the \$300 it had received from the exempted man to purchase his substitute. Somebody must be laboring under the impression that these drafted men should be reimbursed for their \$300. It does not look that way to an outsider.

Game at Vinton Park. At Vinton street park Saturday afternoon the Commercial college foot ball t-am will line up against the Amity college team. Amity college has not been defeated this season and has defeated the Missouri State Normal team by a score of 12 to 6. The Commercial team 'was defeated by Amity college early in the season by a small score, but has developed a much stronger team

#### SPORTS OF A DAY.

CHARLES CITY DEFEATS CORNELL Winners Take a Great Brace in

Second Half. CHARLES CITY, In., Nov. 16 .- (Special Telegram.)-Charles City won, the foot ball game today between Cornell college, Mount Vernon, and the Charles City college. The score was 20 to 10. Cornell made a tucchdown on a fluke. Their quarter ran eighty yards for the touchdown. The first half ended 9 to 10 in favor of Cornell, Charles City making one touchdown and one field goal. In the second half Cornell failed to score. Charles City started the game in the second half in whirlwind fashion, scoring a touchdown in the first five minutes of play. Charles City again scored a touchdown on fierce line smashing and end runs Charles City outplayed Cornell on straight foot ball, Lineup

CHARLES CITY Goals from touchdowns: Charles City, 1; Cornell, 1. Touchdown: Cornell, Cornell coach: Clyde Williams, former lowa quar-ter.

COLORADO WARRIORS ARE ON HAND Confident They Will Give the Corn-

huskers a Hard Game. LINCOLN, Nov. 10.—(Special.)—The Colorado foot ball aggregation, eighteen strong, came in this morning and tomorrow morning a special train will bring in 30 rooters. The aggregation looks formidable and, though the men will be outwerged by Nebruska, the betting is even. The game is expected to be the strongest that will be payed on the Nebraska ground this season. teach Keinholtz, who accompanied the

team, said: "We have had pienty of go.d weather in which to train during the last week and the men are in excellent condition. I do not say that we will beat Nebraska, but we will give them a hard tus-

at once to grow and by increasing the scari- Bout Scheduled for Fifteen Rounds Ends in the Eighth.

BALTIMORE, Nov. 10.—Before the Eureka Athletic club tonight "Kid" Sullivan of Washington proved conclusively that his declaration that he would stop Tommy Lowe, also of Washington, before the end of the fifteen rounds their bout was seneduled to go, or forfeit all claim to the purse, was no bluff. The finish came in the eighth, when Referce O'Hara gave the decision to Sullivan, because Lowe for the third time in two rounds went to his knees without being hit in order to save himself from a knockout. There was no dissent from the justice of the decision. The first two rounds were fairly even, there being little or no fighting in decision. The first two rounds were fairly even, there being little or no fighting in the first. Thereafter it was Sullivan's light

STATE CHAMPIONSHIP CONTEST Bellevue and Donne Meet at

Bellevue. The state college foot ball championship is to be decided Saturday afternoon at Bellevue in the game between Bellevue and Deane. Both teams have trained hard with the day in view and both are confident of victory. Both teams have a fine record. Bellevue lost to Morningside college, but won every other game played, defeating Creighten by a score of 25 to 0. Doane will have 100 rooters at the game to cheer its colors. The game will be played at 3 o'clock.

High School Came. The high school foot ball team plays Missouri Valley High school at Sprague street Driving park at \$ p. m. Considerable interest is manifested in this game on account of the association and acquaintances formed during the encampments of the high school cadets at Missouri Valley. The lineup is as follows:

PERSIA'S WOEFUL CONDITION Persian Minister at Washington Tells of Trouble Affecting People

of His Land. WASHINGTON, Nov. 16 .- General Mortesa, the Persian minister, who arrived here yesterday, in an interview spoke of the deplorable conditions existing in his country growing out of the cholera epi-

the increase in the prices of the necessities of life. "Our country is most peculiarly and woefully situated just now," sald General Mortess, "and there seems to be no relief in sight. Through a series of distressing visttations upon our people, the Persians are

demic of 1904, the failure of the crops and

experiencing a panic. "The steady increase of prices means starvation to many; it will mean misery to countless others, and it is with heavy hearts that we look forward to the suffering of this winter. Ordinarily, in times of crop failure, the Persians depend upon their next door neighbor, Russia, for wheat," General Mortess said, "but Russia's war resulted in the importations to Persia being so diminished that few were able to profit by it, and then only the better classes, as the Russian war prices were almost exorbitant.

"Two-thirds of Persia's commerce is with Russia," said the minister, "and the war crippled industries in nearly all ways. Each spring about 150,000 of our people on the western frontier go into the Caucasus to work, principally in the grain fields, and the war and the internal disturbances there have paralyzed even the agricultural pursuits, and these men have earned no wages practically the last two summers. "The cholera has passed, the war is at

an end, but our people are still hungry. Their problem is to live through another year, trusting to Providence that their granaries may be filled next autumn." All Well.
