GOVERNMENT CURN REPORT BEARISH

Decline Takes Place in Consequence-Onta Are Lower in Sympathy-Reports of Disappointing Yields in Corn Belt.

Wheat kept on in its downward course today. The opening was a title off. A singuit rang at hour later brought it up to yestermay a naures, but after that there security secure until a point 1-go Bin a point race lower on May. Armour faired to support the market again and there were ma saies of stup-lose orders. It is consucred that a brisk export demand will be required if prices are to regain at once what they have lost. December chosed at he was a supposed, May at supposed and out a second to the control of t

closed at helygosac, May at seymosac and ship at siles.

Ourn also suffered a decline. Large sales of may were made toward the close and that month was off lac. December cosed at 442c, old December at 454c. May at 454c, and July at 454c. The government report was the bearing factor.

Outs were lower in sympathy. December closed at 284c, May at 324c and July at 324c.

Clearances were 55,000 bushels of corn.
62,000 bushels of oats, 25,000 bushels of wheat and 14,000 barries of four. Primary wheat receipts were 1,51,000 bushels and shipments of 500,000 bushels, against receipts last year of 1,05,000 bushels and shipments of 500,000 bushels. Primary corn receipts were 51,000 bushels and shipments 25,000 bushels, against receipts last year of 275,000 bushels, against receipts last year of 275,000 bushels and shipments of 190,000 bushels. The government corn report estimates the total corn yield at 2,007,000 bushels. At this estimate the yield per acre is 37 bushels. This is a large crop and the estimate helped the bears.

estimate the yield per acre is IT bushels. This is a large crop and the estimate helped the bears.

Liverpool closed %3%d lower on wheat and %d lower on corn.

The Price Current says: "The late correspondence reflects continuance of references in various sections to disappoinment as to the yield of corn under the progress of husning operations, while the quality is almost uniformly spoken of favorably, except where staiks have been prostrated by storms, and this condition is in a small proportion of the area.

A hamburg came this morning says there is a very large demand for wheat there, and it is expected to increase.

A reamburg came this morning says there is a very large demand for wheat there, and it is expected to increase.

Argentina whost shipments for the week were 2,220,000 bushels, against 284,000 bushels the year before. Corn shipments were 2,201,000 bushels and 4,003,000 bushels last week and 4,003,000 bushels last week and 4,003,000 bushels last yeek and 4,003,000 bushels inst year. The latest report of the Russian statistical committee estimates the wheat crap in seventy-two provinces at 220,000,000 bushels.

Prices on Board of Trade.

CHICAGO, Nov. 19.—Confirmation of reported liberal shipments from Argentina contributed heavy to weakness today in the wheat market here. At the close the price of the May delivery was off 140%c. Other staples also are down; corn 136%1%c: eats 150%c and provisions 2467%c.

The weakness in wheat prevailed throughout the entire session. Selling was active and general the greater part of the day. At times the bull leaders supported the market openly by liberal purchases, but efforts of this sort caused only small temporary railies. Commission houses, while fair buyers at intervals, were compelled to execute numerous selling orders for stop loss account. This added materially to the weakness and gave additional encouragement to bears. Interest centered in the enormous shipments of wheat from Argentina. Total exports from the South American republic for the past week were 2.22.000 bushels compared with only 742.000 bushels the corresponding week a year ago. A cablegram from Argentina reported the weather there as favorable for the new crop. Receipts at Minneapolis, Duluth and Winnipeg showed marked increase and helped to stimulate the selling movement here. The market closed weak at practically the lowers to 534,695%c, soid at 594c soon after the opening and then declined to 884c. Final quotations were at 534,695%c. Clearances of wheat and flour were equal to 32,000 bushels, compared with 1,000,000 bushels a year ago. Minneapolis, Duluth and Chicago reported receipts of 1,001 cars, against 56 last week and 501 cars a year ago.

The government report showing a total yield of 2,700,000,000 bushels a year ago. The was a seller and small longs also soid free; Outside of the government report showing a total yield of 2,700,000.000 bushels a year ago. NEW YORK GENERAL MARKET Rate for Call Money Again Advances to Fifteen Per Cent.

MARKET ABLE TO RESIST THE PRESSURE

Speculators Pay the Price for Funds and Hold Their Stocks Hoping Flurry Will Soon Be Over.

NEW FORK, Nov. 16.—The rate for call loans went to 16 per cent again today and the estimates of the loses in cash by the banks for the week on the currency movement ran from 38,00,000 to 10,000,000 to 10,000,000

of speculative circles about the Stock Exchange. A decline of \$3,000,000 to \$10,000,000 within a week in the cash holdings of the banks, with the surplus reserve at the beginning of that period down to \$1,354,275 while speculative borrowing continued into this week in attempted extension of operations for the advance at some points seems sufficient explanation for the necessity on the part of the banks to curtail loans. It is by no means unusual for interest rates for commercial induses to be held down to a \$ per cent rate in the midst of violent flurries in the call market on the \$100 key. It is this comparative trangolitity of commercial interest in rates that is offered to explain the rejuctance of the secretary of the treasury to take any measures for the treasury to take any measures for the treasury to take any measures for the treasury alone, show a loss of \$1,37,000, the variation in the estimates of the banks with the sub-treasury alone, show a loss of \$1,37,000, the variation in the estimates of the total cash loss having to do with the amount of the movement by express to the interior which all the banks agree, however, has been heavy.

The high rate for money is an effective barrier against foreign pressure for funds upon the New York, and foreign exchange made a further wide decline today. This was in spite of a hardsoing of discounts in paris and Borlin. Offerings of bankers bills in the exchange market against loans placed in the money market was the principal factor in the weakness of exchange. The high rate for money rates was said to have induced large offerings from outside enterers for account of corporations and capitalists at different points in the country. The calling of loans on the past of local banks, however, kent un the rate for the rate of the time shove il per cent. Foreign markets were discouraged again by the Russian troubles, as shown by the fall in Russian broubles, as shown by the fall in Russian broubles, as shown by the fall in Russian broubles, as shown by the fall in Russ her, has already transferred \$2.55,500 to the interior, compared with a total for the whole of last November of \$1.75,000. The activity of the Stock market diminished a wood deal in the late dealings, but there were only small concessions from the best prices, and the closing was fairly steady. Bonds were irregular. Total sales par value, \$2.20,000. United States 2s advanced \$5.200,000. United States 2s advanced \$5.200,000 are cent on call.

LONDON, Nov. 10.—Money was fairly plentiful in the market today and rates were easier. Discounts were fairly maintained. Operators on the Stock exchange were occupied with the mining Contangoes and were indisposed to engage in fresh business. The tone was fairly cheerful in some sections, but continental affairs induced caution. Occasional seiling was noticeable, though the movements were narrow. The market closed with a generally better feeling. Consols receded, but closed above the lowest point. Home talls were irregular, declines predominating. Americans opened weak, railled slightly to over parity, relapsed sharply during the last hour, recovered erratically and closed at the best quotations of the day. Grand Trunk was dull despite the fact that the traffic increase was \$15,000 above expectations. Russians were weak on the mutiny at Cronstadt. Japanese were fairly supported Japanese imperial 8s of 1904 were quoted at 101%.

BERLIN, Nov. 10.—Prices on the Bourse today were heavy, owing to unfavorable advices from New York and the mutiny at Cronstadt. Later there was an improvenient and the market closed steady. Russian imperial 4s were quoted at 50.50 and Russian bonds of 1904 at 515.

Wool Market. Foreign Financial.

Wool Market.

Wasian bonds of 1904 at \$15.

Wasian Market.

BOSTON, Nov. 10.—WOOL—The Commercial Bulletin will say tomorrow: While business has become a little quieter, prices are still strong on the legitimate basis of values. The smaller worsted, as well as woolen mills, have been buying, but their transactions have been of a small nature. The consumption of wool, however, continues steadily, as is proven by the constant withdrawals of supplies from private and public warehouses for manufacturers. Territory, California, Texas and Oregon wools have sold well, while New Zealand and South American quarter-bloods have had a small demand at 350 and 30-4137c, respectively. Fleeces have been comparatively quiet. A fair movement in the fleer grades of pulled wools is reported. Growers in the west still ask prohibitive prices for the 180 clip, and but little contracting has consequently been done. The shipments of wool from Boston to date from December 29, 1964, according to the same authority, are 209,734,325 bs., as against 210,553,167 at the same period last year. Receipts to date are 208,241,339 lbs., as against 298,480,025 for the same period last year.

LONDON, Nov. 10.—WOOL—The sheep ekin sales were concluded today. The offerings numbered 3,330 bales, mainly full-wooled skins. Competition was brisk. Cross-breds were taken for America, Merinos ruied 24,425 per cent and cross-breds 5 per cent dearer, owing to American competition. Following are the sales and prices obtained for clothing and combing. New South Wales. 214 bales, 54-6994, 4: Punta Arenas, 46 bales, 74-6946; Fakkland islands, 5 bales, 74-695d; Buenos Ayres, 121 bales, 54-695d.

CATTLE—The cattle receipts this morning were even smaller than the usual Friday run, only about sixty cars beling reported in. It is the smallest run for this day for several weeks and is also considerably behind the run for one year ago same date.

There was only a limited supply of beef steers on the market this morning, and although buyers were out with the evident intention of buying the stock lower if possible the sellers held off in pretty good shape, with the result that trading on beef steers was generally slow, with a slight tendency toward weakness. The supply of corn-fed cattle on the market was small and the majority of the stuff was on the short-fed and warmed-up order. There was only a sprinkling of good choice western cattle. There was some fairly good western stuff in and it found sale at prices that were in some cases steady, but in the majority of cases the cattle sold a little easier. Generally speaking the market on beef cattle was slow and a little weak.

The market on cows and helfers was not very active, and in fact at times it was really slow. The supply of this kind of cattle was small and as buyers were wanting a little of the more choice stuff and there were also a few outside orders in, the more choice stock brought prices that were just about steady with those of the previous day, while the common stuff went a little easier in some instances. The trading on this kind of stuff was generally slow and just about steady with those of the previous day, while the common stuff went a little easier in some instances. The trading on this kind of stuff was generally slow and just about steady with those of the previous day, while the common stuff went a little easier in some instances. The trading on this kind of stuff was generally slow and just about steady with those of the previous day, while the common stuff went a little easier of country buyers in, but the run was small, and so prices on the choice stuff was shout steady, with an inclination to weaker. Representative sales:

mace a test of the market, and what two sheep there were in sight were not of the best, and the bidding on them was slow and generally steady with yesterday's deciline, but in some instances prices were even lower. Taken as a whole, the market steady.

The most of the stuff coming in this morning consisted of feeders, and as there has been quite a number of feeders carried over from day to day there were more sheep on the market than one would be led to be lieve, judging from the receipts. There were quite a number of countrymen in and it looked as though there were going to be an active trade, but the buyers were taking their own time about taking any stuff, with the result that the trading was inclined to be rather slow, but was generally steady with yesterday's prices.

Quotations on fat sweep and lambs: Good to choice fed lambs, \$7.00@7.50; good to choice old wethers, \$5.00@7.50; good to choice of develop even; \$1.50@7.50; good to choice old wethers, \$5.00@7.50; good to choice old wether
