The organization has been the dream of some of the members for more than a year. It is said the majority of members of the post have been in favor of it, but the movement has been blocked by influences inside the board of directors. One man conceived the idea of overruling the board through women, and the question was put to the women as to whether they wished to form an auxiliary. The vote was almost unanimously in the affirmative. Of course the board of directors yielded gracefully.

For years the humble soda cracker remained obscure and unappreciated. No one seemed to realize its food value-no one seemed to know that it was one of the most nutritious rations obtainable.

They set about to bring its quality to the highest possible standard-the result being Uneeda Biscuit. which are to-day recognized as one of the staple foods of the American people.
