Interest in the Game that Comes Off on Saturday.

GOPHERS PREPARE FOR FIERCE STRUGGLE

Booth's Team Will Be Accompanied by Large Crowd of Rooters Eager to Back the Cornhuskers All the Way.

Lincoln is all stirred up over the foot ball game at Minneapolis Saturday between Minnesota and the Cornhuskers, and the indications are that the resources of the transportation of the Northwestern railroad will be taxed to carry the people who will accompany the team when it goes to board the Gophers in their own camp.

Minnesota rooters have come to look upon their team as invincible since the advent of Dr. Williams as coach, and this has been about true with a few notable exceptions. Wisconsin took the wind out of their sails a week ago, which shows that Minnesota can be beaten this year.

Minnesota had experts on the sidelines at the Colorado-Nebraska game and these reported that Nebraska would be no foe to be despised, but that the Cornhuskers would come to Minneapolis with just as large a team as Dr. Williams has to send against them and that, although in some points they might be a trifle weak, in others they would be found exceptionally strong.

Game at Omaha. Lincoln enthusiasts are also worked up over the prospect of a renewal of athletic relations between Kansas and Nebraska and when this is brought about Omaha will in all likelihood be given one of the big Nebraska games.

Western teams have all been making good records in foot ball this fall, the Nebraska team having been scored upon but twice, Michigan and South Dakota, Michigan has a clean record and no team has crossed the Minnesota goal line except Wisconsin.

Michigan, in its game with Ohio State on Saturday, passed the 400 mark in points scored. The statistics of the leading eleven follow:

RECORD OF CITY TREASURER

Statement by Jennings to Commercial Club Shows What He Has Done

In view of the fact that the Commercial club in former years has been interested in his work, City Treasurer Jennings Tuesday sent a communication to the executive committee of the club summing up his record. It is in part as follows:

During the five years I have been in office, that is, from 1900 to 1906, the sum of \$1,363,044 in personal taxes was levied by the city of Omaha. Of this, \$120,000 was collected by the courts and the net personal taxes to be collected amounted to \$1,243,044. During the five years I actually collected a total in personal taxes and interest of \$1,662,544, which is \$419,500 more personal taxes than were levied during said period.

FOUR MILLIONS IN PERMITS

Enormous Amount of Money Invested in Buildings in Omaha.

YEAR'S RECORD SURPASSES ALL OTHERS

Construction Work Only Barely Begun, So City Will Be Busted Than Ever for Next Two Years.

Since the first day of January the building inspector has granted building permits to the amount of \$4,000,000. The figures were compiled in the office Tuesday morning and what the amount will be before the end of the year none of the employes would hazard a guess.

While, therefore, every building tradesman in Omaha who was willing, had his hands full all year, he is promised a far more busy season next year, and doubtless the next.

As the readers of The Bee know, Omaha ranked first of all American cities for per cent of increase in building for October-September.

AUTOISTS STRANDED AT NIGHT

Two Omaha Women Wrecked on Road to Lincoln and Rescued

Stranded with an automobile on their hands and left out in the cold, cold world of the night, two Omaha women, according to the principals, about the same distance from everywhere else, at the dead of midnight, was the experience of Mrs. Eva Hammond and Miss Pearl Lovitt.

The three left Omaha Sunday at noon, intending to go to Fairbury through Lincoln. Repeated knockouts to the machine and fumbles by its engineer delayed progress to such an extent that at midnight on that beautiful Sunday they found themselves absolutely helpless on the big road ten miles from Lincoln.

It was an hour later when a young man from Lincoln, who was passing in his automobile, ran into them and agreed to take them to Lincoln. The party arrived in Lincoln at 2:30 and the young women, both tired out, but cheerful, retired for a short rest, while the man in the case was no indignant at everybody and everything to go to sleep, so he sat up in a big chair at the Lindell and gave vent to his feelings. They returned to Omaha on the train which leaves Lincoln at 8:46 a. m. No word has been received from the machine.

PULLER OVER TAX MATTERS

Question at City Hall is When Do They Become Due and Delinquent

An important question which City Treasurer Jennings and the legal department of the city will soon have to decide is whether Omaha taxes become due and delinquent in December. The general revenue law provides that taxes shall become delinquent as follows: Personal taxes, December 1 of the year the levy was made; real estate, on May 1 following the levy, except in cities which have the right to levy their own taxes.

A city dual holds that under the new charter Omaha relinquished its right to levy and collect taxes and gave that right to the county and consequently the general law would prevail. The charter provides also the general laws shall govern when the personal and real estate taxes in Omaha for the manufacture of lawn swings, bookcases, cabinets and other wooden articles. The company has a deal on for possession of the Doug mattress factory at Thirtieth and Nicholas streets, when Mr. Doug shall move into his new building.
