Over-Burdened Women.

Over-Burdened Women.

Many a man sees his wife bend and any at burdens that strain the back and the heart alike, without any idea of the outrage. Children follow in too quies succession to allow the mother time to recuperate. The womanly organs become dispiaced, there are debilitating, disagreeable drains, with the added pain of indamed or ulcerated parts. In this condition the woman bravely tries to carry her household load, afraid to take the rest she needs lest a meal will be late. No wonder she is pale, weak, wretched, surly of temper and snappish of tongue. She would be false to nature if she were anything else. No persons need help so much as the class of whom this woman is the type. And for such women no help is so sure, so wonderful, as that given by Dr. Pierce's Eavorite Prescription. It restores all the womanly organs to perfect health. It establishes regularity in their functions. It restores the strained and shattered nervous system. It clears up the complexion, rounds out the form and makes life a daily happiness. "Favorite Prescription" contains no alcohol or whisky. It is the best medicine for women. Nothing can he "just as good" as the best. Tell the dealer so if he offers a substitute.

FLAT RATE ON WATER SERVICE Water Board Will Take Up the Matter at a Special

Meeting. The water board held an adjourned meeting last night at which Members Congdon, Hipple, Cond and Boyd were present. After some routine business, mainly allowing bills, a resolution was passed setting a special meeting for next Monday night in the rooms of the board at the city hall for a consideration of a reduction of flat rates for water service to private house owners. The secretary was Fishtail Lincoln. Southwind, James Lininstructed to notify the water company of the meeting and invite its representatives to present any information or argument which would assist the board in reaching fair conclusions. A niember of the board said after the meeting;

"The board has already reduced the meter ates, but the time is here to take up house rates for owners paying a lump sum and to see if rates cannot be reduced where they are too high. We hardly expect the officers of the water company will be present, but it is only fair to ask them, so they may say something if they want to."
