The morning session of the Amer-Federation of Labor convention Ican was quità strenuous.' P. P. Scullen, a labor organizer known to union men in all parts of the United States, was severely criticised by Frank Duffy of Minneapolis, who took exception to yesterday's action of the federation recommending a resolution approving the industrial peace association. Delegate Duffy, who is secretary of the Brotherhood of Carpenters and Joiners, charged Scullen with irregularities in connection with labor affairs in various parts of the country. President Gompers announced that the matter would be given attention later.

the church. He said: The organized church and organized labor stand for the same principles. If I thought the church did not stand for these prin-ciples I would abandon it immediately. Trade unionism has accomplished much for the people of this country and while I un-derstand that unionism is responsible for a number of evils, its good deeds overshadow all the evil ones. The ministers of the church are not well enough acquainted with unionism and its principles, and I will say now that it will be my aim to teach the s.000 preachers of the Presbyterian faith in this country more about the ethics of unionism in the next year. Troops to Protect Boysen.

THERMOPOLIS. Wyo., Nov. 15 -- (Spe-cial.)-As a result of the blowing up of the diamond drill outfit of Asmus Boysen or the Wind River Indian reservation near here last week, the government has ordered the stationing of squads of United States cavalry from Fort Washakie at Thermopolis, Red Canyon and on the Wind river. Any further attempts to harm Boysen or molest his property, even though he is not in the reservation, will meet with drastic military measures. The identity of the raiders is still a mystery. Tracks of two men were found leading from the scene of the dynamiting, but the trail was soon lost and the men have probably escaped.

False Emperor Appears.

A false emperor has suddenly made his ling report received this afternoon in a dis- pneumonia, aged 79 years. patch from Simbirsk. Penza is in the heart of the vast region extending westward from the Volga, where agrarian uprisings on a large scale have been occurring, and if the report turns out to be true that the pretender to the throne has placed himself at the head of the peasantry the government will soon face, besides its other troubles, a formidable agrarian rebellion. It required a year to suppress the famous rebellion led by Pugatichoff, who impersonated the dethroned and murdered Peter III in the time of Catherine II. That uprising was started in the same region, on the banks of the Volga.

None of the papers, except the Official Messenger, appeared this morning, but the printers of each newspaper themselves published fly sheets announcing that the strike was for the purpose of abolishing the state of seige, the death penalty and martfal law throughout Poland. It is now definitely established that the cry set up by the socialist leaders against the execution of the Cronstadt mutineers was premature, as their trials have not yet actually begun.

will enable vast tracts of crown and private lands gradually to become the property of the peasants.

Runaway Smashes Patrol Box

A pair of excitable bronchos demolished the police box at Sixteenth and Chicago streets last night. The bronchos belonged to Ike Roffman and Sam Atschuler, the former living at 1616 Burt and the latter at 314 North Thirteenth street. The two at 314 North Thirteenth street. The two had been out selling apples and vegetables in the vicinity of Twenty-first and Chi-cago and left the team standing while they were disbursing their wares. The horses started down hill and soon took fright and ran away. One ran on one side of the patrol box and the other on the other and broke it as fine as kindling wood. Both horses were thrown and the wagon piled on top of them. Apples were scattered all over Jefferson square. Be-fore the owners arrived a number of boys appeared and soon went away with bulk-ing pockets. One was seen carrying a large cabbage head. Detective Mitchell soon reached the place and took charge of the team and prevented any further loss of scattered wares. He ordered the men to appear at police court this morn-

pers of the defendants and submitted them to the grand jury contrary to the rights conferred upon them by the constitution. The government denies that it obtained any reports otherwise than by the orderly process of subpoena directed to the person who had the custody of them. The eighth plea sets up as a defense the fact that the government heretofore pro-ceeded against the defendants by a petition under the Sherman act under which petithis a appear at police court this morn-answer for leaving the team untied

Dalton's left leg was broken just above the ankle. The patrol was called and took him to the St. Joseph hos-pital, where his leg was set by the police surgeon and Dr. Berkard.
