The practice assocation at its meeting Thursday morntested in the courts and the suit is to be problem of raising more grain on an acre yesterday was a jumbling mixture of both ing, but the president was lauded as an filed about the first of the year:

good and bad. 'The 'varsity started the roceedings in whiriwind fashion, Right Half Wilson catching a kickoff by the scrubs on the goal line and running the full length of the field, with Benedict and Mc-Donald Interfering, for a touchdown.

Then came a miserable slump. The defense held the scrubs quite handily, but the varsity's attack was far below par. Booth, in disgust, finally waved two of the regulars in disgust, finally waved two of the regulars to the side lines and sent in substitutes, after which the improvement was so marked that the worried look on Booth's face changed to one of gies. Eager, Ne-braska's midget halfback, tore off two touchdowns in electrifying fashion, dodging tackler after tackler, weaving in and out, until he was over the scrub goal. Each dash was good for forty vards. Crais, subdaah was good for forty yards. Craig, substitute fullback, also gave a good account of himself. He charged the line like frightened steer, one bucking through from the twenty-yard line to the goal, and an other time breaking loose for a touchdow in which he went full eighty yards.

New Trick Works Well.

The 'warsity next tried one of the ne trick plays Booth introduced early in th week. The scrubs had no previous know dge of what to expect and before the and recovered from their astonishment Mo Donald, going from left end, had planted he ball behind the goal posts. Taylor, the big negro guard, who was parred out of the Minnesota game becaus of his freshmanship, was in the scrul incup and was turned loose at buckin 'varsity line. Twice the bulky black

nan ripped through for five yards on eac lown, but was soon stopped for a loss of almost every effort. Booth is still in a quandary as to th

lneup against the Gophers Saturday. Righ End Denslow is still on the hospital lin and the chance is remote at the best the ie will be able to get into the game. Let End Johnson, who has been playing a bril liant game all season, is not permitted t do any scrimaging because of an injur sustained in the bout with Colorado. Morse and McDonald were in at the end positions. while Johnson followed the plays and gave the sub ends instructions.

Twenty-four Men Go.

Booth has made out a list of twenty-four players for the Minnesota trip. The Cornhusker party left last night for the north, with Booth and Dr. Lees, chairman of the Nebraska board, in charge The physical condition of Denslow and Johnson will leave the personnel of the Cornhusker lineup in doubt almost until the last hour before the sound of the opening whistle.

A monster students' rally was held this

incorruptible champion of the whole people and the convention voted to go beyond the mere passage of resolutions and communi-

Soldiers and College Team.

Soldiers and College Team. The Fort Crook foot ball team will play the Omaha Commercial college team at Vinton street park Saturday afternoon at a clock. The proceeds of the game will be devoted to the benefit of the Regular Army Relief association. The game promises to be a good one from the fact that the Fort Crook team has been doing some pretty strenuous playing recently, particularly while the troops, the Thirtieth Infantry, were on their practice march to Columbus and return. The team met and vanquished a number of crack teams at various towns along its route of march. And then the Commercial college team puts up a pretty good game of foot ball, too.

Attell Outpoints Mowatt.

A monster students raily was held this morning at the university at the convoca-tion hour. Chancellor Andrews, several members of the faculty, Coach Booth and a few of the players appeared as speech-tmakers and a rearing volcane of en-thusiasm was turned loose. The athletic board yesterday voted to stand half the expense of transporting the university cadet hand of forty rices to Minnearolik

cate with the various congressmen having constituents in the association with a view of securing their endorsement of and co-operation with the president in his fight for better railroad conditions. The Resolutions committee presented everal resolutions which were adopted, the balance of the forenoon being spent in discussion of the several subjects of vital interest to the members of the association A resolution was adopted condemning the

practice of some of the harvester companies in harvester contracts which the resolution says were made with the evident intent to deceive and it was the vote of

the convention that the convention denounce such transactions as not of a legitimate nature and worthy only of severest condemnation.

Text of Resolutions. These resolutions were adopted:

Be it further Resolved. That we do not approve of practices of thresher companies who sell their goods direct to the consumer

at wholesale prices. Resolved, That we consider the direct selling by some jobbers and manufacturers to the consumer as dotrimental to the best interests of the implement and vehicle deal-

clation of the able and painstaking work which our secretary has performed in at-tending to the duties of that office during the past years. Resolved, That we extend our thanks to Mr. Staver and all who have given us so much assistance in the discussion of mat-ters of interest to the association. Resolved, That we extend our thanks to the hotels for their donations and hospita-ble treatment of the visiting dealers and to the newspapers for their able and im-partial reports of our meetings; that we extend thanks to the manufacturers for their liberal assistance in making our meet-ing a success; that we extend our special thanks to MR of Brien, who has so

Officers Just Elected.

and at less expense," said the speaker. Euclid Martin offered a few words of felicitation from the jobber to the retailer. Frank Dunlop, the "funny man," told a number of amusing stories. A telegram from Edward Rosewater was read by John W. Newell, vice president of the association, and who acted as chairman for the evening.

Dr. Miller Recalls Interesting History in Which the Territorial Capital Was Saved to Omaha.

OMAHA, Nov. 16 .- To the Editor of The Bee: Hon. Andrew J. Hanscom arrived in Omaha Thursday morning after years of absence, from his later home in New York. In behalf of thousands who remember him so well I take this method, on the interesting occasion of his present visit to his old home, of giving him a cordial welcome to the scenes of his early life and labors in this public way. I am prompted to do this

in part by a singular coincidence, as follows: On Wednesday evening last I was en-

gaged in writing notes of the unwritten history of Omaha at my home as I lived

it, and as I saw it, forty-eight, forty-nine, fifty and fifty-one years ago. No such history could be half complete without bringing Andrew J. Hanscom into the forefront of the picture. I had neither thought nor knowledge of his coming, nor was I writing for present publication. It occurred to me that it would be in proper order to say of him behind his back what I now decide to say to his face in print what was writ in private in the way above stated, without dotting an 1 or crossing a t. After giving an account of a scheme to relocate the capital at Bellevue at a pre-

vious session, which was very strong and dangerous, and in which I was compelled as a member of the house to hold the center of the stage, with Mr. Hanscom backing me in the lobby, I proceeded to say as

follows:

to the consumer as dotrimental to the best interests of the implement and vehicle deal-ers. Resolved, That we are not in favor of the parcels post and similar schemes of the mail order houses to further their interests at the public expense. Whereas, The members of the Nebraska and Western Iowa Implement and Vehicle Dealers' association have a deep and vital interest in the enactment of legislation at the coming session of congress to the end that the Interestate Commerce commission shall be given the power when a given rate has been challenged, and after full hearing and investigation has been found to be un-reasonable or discriminatory, to at once substitute a rate that shall stand until sus-pended or annulled by the courts; and. Whereas, The allied forces of the trans-portation corporations and their supporters, the reelpients of rehates, special rates and numerous other forms of discrimination, are exerting to the utmost the immense powers they possess, represented in 315,-600,000 of ralitond assets, to prevent the passage of any measure that will afford relief; therefore, be it Resolved. That this association fully en-dorses and will heartily support the posi-tion of that peerless and incorruptible champion of the "square deal." Theodore Roosevelt, the president of all the people, who knows no partisanship but that of the right; and be it further Resolved. That we individually pledge ourselves to write or interview our con-gressmen and senators at Washington in order that our representatives may know

gressmen and senators at Washington in order that our representatives may know that we stand unequivocally for the presi-dent's view in this fight. Resolved, That we hereby express our appreciation of the able manner in which our retiring president. Mr. R. C. Caulk, has discharged his duties as president of the association; that we express our appre-ciation of the able and painstaking work which our secretary has performed in at-

charter," said this man, "about January 1. Under the charter, power is given the taxing authority to tax the railroad terminals locally, and this is the section the railroads want knocked out.

portion of the charter be declared void, it will in no way, affect the next city election under the charter, providing the election sections are all right. The supreme court has just held that where a section is not an inducement to the passage of an act it can be held invalid and the act as a whole will stand."

Councilmen at Par.

Dropping into politics, he said: "It was agreed among leaders in the party last winter when the new charter was under discussion and that section providing for an increase in the pay of councilmen was put in, Omaha would get an entire new deal in so far as council men are concerned. With a \$1,500 salary it was agreed Omaha should have \$1.50

councilmen. I wonder if the republican party will carry out the agreement of the eaders and secure \$1,500 men as candidates?" The charter is liable to get another jolt

over the time taxes become due. Assistant County Herdman has held that the ity taxes will become due May 1, as ormerly, while other authorities say Deember will be the time, as the general revenue law will prevail in this case, as the county and the city taxing offices have been merged.

"It is all foolishness to talk about the taxes not becoming due in May," said Mr. Herdman. "The city charter provides that

KING OF ALL DISEASES To Contagious Blood Poison rightfully belongs the name King of all Diseases. It is the most powerful of all human ailments-corrupting every

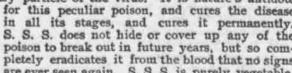

part of the body and wrecking and ruining the lives of those unfortunate enough to contract it. When the first sign appears in the form of an insignificant sore or ulcer, few persons realize that the deadly virus has entered the blood; but so potent is the poison that one drop will vitiate and pollute the purest and healthiest blood, and in a short time the degrading and horrible symptoms begin to appear. The mouth and throat ulcerate, the glands in the neck and groins swell, the hair and eye-brows fall out, copper-colored spots appear on the body, and in the latter stages of the disease the poison even works down and destroys the bones. No other disease is so highly contagious, and many have contracted it and suffered its awful consequences through a friendly hand-shake, handling the clothing of one afflicted with it, or drinking from the same vessel. S. S. S., The King of Blood Purifiers, is the only cure for Contagious Blood Poison. It goes down into the circulation and forces out every particle of the virus. It is nature's antidote

in all its stages, and cures it permanently. S. S. S. does not hide or cover up any of the poison to break out in future years, but so completely eradicates it from the blood that no signs are ever seen again. S. S. S. is purely vegetable, PURELY VEGETABLE. we offer \$1,000 for proof that it contains a par-

Dr. Williams' suggestion of McCarthy ex-Wisconsin, for head linesman for Satorday has been approved by Booth. This completes the roll of officials, Lieutenant Hackett and Phil Allen having been prelously selected as unpire and referee.

Object to Enger and Johnson.

MINNEAPOLIS, Nov. 16.-(Special Tele-gram.)-Minnesota has called the attention of the Cornhuskers to the fact that according to newspaper files two of the Nebraska men, Eager and Johnson, are ineligible to play under the four-year rule. This is not protest from Minnesota and if the men lo not appear in Saturday's game it will be because the Nebraskans accept the protest. The Gophers will abide by the decision of their opponents and rely thoroughly on their sense of honor. The Nebraska coach has expressed himself to the effect that the two men can play this year without infringement of the rule.

Dr. Williams today put his men through the last hard practice in preparation for the Nebraska game. The team can hardly be considered in the best condition for the hard scrimmage. The uncertainty of the quarterback and center has hampered the coaches greatly in their endeavor to develop fast team play. In today's scrimmage

but he was strong and still rushing at the finish. He proved himself a fast fighter, but not so clever as Attell.

Kent Stays in Game.

ing a success; that we extend our special thanks to Mr. J. P. O'Brien, who has so generously donated the use of this hall. Mutual Insurance. F. M. Hiser of Spencer, Ia., of the Iowa led the discussion on the question of mu-

tual insurance. A committee was appointed by the presi dent to report within sixty days on mutual insurance in Nebraska, to investigate the plan under which the hardware men were working and to suggest plans for a company. The committee consists of J. W.

Newell of Lynch, William Krotter of Stewart and L. P. Byars of Valley. J. M. Gillan, in behalf of the Auditorium, invited the association to hold its sessions in the Auditorium next year. It seemed to be the opinion of several of the speakers that was the proper place for the meeting. but no action was taken.

SESSION CLOSES WITH A SMOKER O'Brien's Hall Scene of a Very

Pleasant Farewell Function. The annual convention of the Nebraska

and Western Iowa Retail Implement Dealers' association was brought to a happy conclusion last evening by a smoker held at O'Brien's hall on Farnam street. A large

sathering of the implement dealers listened to a potpourri of wit and wisdom, which was rounded off with cigars and lunch. Gilbert M. Hitchcock, editor of the World-Herald, served as the principal speaker of the evening. Though Mr. Hitchcock's central thought was the small retail dealer and his status in the commercial world the speaker delved into politics with some rigor.

"I am a democrat, but have been publish ing a democratic paper in a republican city, unty and state for so long that I am not afraid to speak to a crowd even if it is nearly all republican." said Mr. Hitchcock. who continued by saying: "America has ber 10, 1904: become the home of the giant industries which have had a tendency to crush out the average business man who may work for himself and not for others. This nation has outstripped all others in piling up wealth, but we have neglected the problem of distribution of that wealth. All laws that tend to centralize the wealth we all help

create are injurious, and it is a sad commentary on our legislation that the disparity between poverty and wealth in this country is increasing, while in other coun-

follows: I was elected to the council at the third session and the battle for the removal of the capital was renewed with great energy. It found Mr. Hanscom at the head of the Omaha delegation in the house. There was a clean majority in both houses for re-moval, and a decided one in the house. Samuel E. Rogers and myself, represent-ing Omaha fin the council. I never heard of a parliamentary contest which dis-played such ability, buildog tenacity and tact as that which was fought by Mr. Hanscom in the house against a large, determined and angry majority. This one man held the capital removal bill for weeks and then did not allow it to pass that body until the council was fixed so as to insure its defeat. One vote was needed for this purpose. The late Governor Robert W. Furnas was a member of the council from Brownville, Nemaba county, and was supposed to favor the removal, but he cast the vote which defeated it. In this, the second crisis for Omaha, which again decided its destiny and that of Bellevis. Andrew J. Hanscom, beyond any doubt whatever, saved Omaha from becoming a cornfield. All legislation was blocked by him in the house in a fight under rules governing the body which in-volved innumerable motions and bolding inder rules governing the body which in volved innumerable motions and holding the floor by making speeches against time. By giving way to Mr. Seeley, his brother-in-law, the two would talk away the sesions each day upon every possible lect. When called to order they fect. would argue the point on which it was raised for hours at a time.

I have little to add to this interesting and important chapter of the early days and of the early manhood life of one of the very strongest men Omaha and the state ver knew

Mr. Hanscom and the late Andrew J. Poppleton, Hanscom the speaker and Poppleton on the floor, at the first session backing the policy of Governor Cuming and defending the location of the capital at Trade Journal of Kansas City was called Omaha, were a merry pair. In emergencles Mr. Hanscom sometimes seemed to forget parliamentary rules as laid down croachments of the catalogue houses. He by Jefferson's Manual. He had some ready rules of his own, and such was his strength of will and force of character that he could maintain his own idea of "order" they persue, namely, to intelligently use when the house was in a roar of disorder in a way that astonished the opposition, reasons why a man should buy your goods and nobody more than his own friends. and show where it is to his advantage to That Omaha was largely saved by him at buy at home. The catalogue houses may the first session, that it was absolutely not use more space than you do, but they saved by him at the third session; that he use it to better advantage because they was, before the railway epoch, and in no
