Wheat Opens Streng, but Prices Fall La.er.

HEAVY LIQUIDATION IN DECEMBER

Sales of May Were Very Large-Corn Closes Lower and Oats Practically Unchanged-Domestic and Foreign News.

CMAHA. Nov. 17, 1906.

Liquidation in December wheat inwered prices consideranty. The opening was higher and the marget was strong. Liquidation began early and prices fell. There were large sales of hay and that month was off more than Mc. December closed at \$55,000,000,000. May at \$15,0000 and July at \$3540. Corn opened 1634c higher and advanced to 16c above yesterday. The subsequent weakness brought prices down to about 14c below yesterday, 10ccmber closed at 16c, old December at 164c, May at 114giste and July at 144c.

There was a big demand for May oats and the close, considerably below the high point, was unchanged. December was unchanged and July 14c lower. December closed at 30c, May at 354c and July at 35c.

Clearances were 100,000 bushels of corn. 184,000 bushels of corn. 184,000 bushels of corn. 184,000 bushels of wheat and 19,000 bushels of flour. Primary wheat receipts were 1,205,000 bushels and shipments 481,000 bushels, against receipts last year of 1,045,000 bushels and shipments of 569,000 bushels. Primary corn 1cceipts were 687,000 bushels and shipments 543,000 bushels, against receipts were 687,000 bushels and shipments of 130,000 bushels. A cable from St. Petersburg says the Neva is blocked with ice and navigation will soon close.

Liverpool closed 1623d higher on wheat and 1623d higher on corn.

Argentina wheat shipments for the week were \$80,000 bushels, against 3,320,000 bushels the week before and 284,000 bushels that year. Corn shipments were 2,750,000 bushels the week before and 2,856,000 bushels lest year.

About 750,000 bushels lest year.

About 750,000 bushels cash oats were worked from Chicago today, of which 100,000 bushels were soid to eastern exporters and the rest for domestic consumption. Receipts of corn at St. Louis, Peeria and Kansas City are running larger than list year. Bradstreet's weekly clearances are: wheat and flour equal to 4,730,900 bushels and 1,055,000 bushels of corn.

Fullowing from G. W. Patton at Chicago: "I think the Russian situation has been worked for all it is worth as regards wheat Believe we will have a big export demand for corn, but we have got the largest crop of corn ever raised and we can give them all they want and then have plenty left On the oats situation—it is different. We only raised a fair crop of oats. The continent is today buying more than England. Practically all our sales of oats for the past two weeks has been to the continent. Believe a larger percentage of oats have moved out of the farmers bands than usual. We will have light receipts of oats for the next three months, with a good demand. I expect to see May oats and May corn sell within 7c of each other, very possibly within 5c. While I believe corn will go still lower it probably will be spring before we see low-priced corn."

Foreign Financial.

LONDON, Nov. 17.—Rates for money were rather easy in the market today and there was a good demand, but supplies were not abundant, though slightly larger. Discounts were somewhat easier. Trading on the Stock exchange was quiet and irregular, with a fairly good tendency. Operators are awaiting the development of events before entering upon fresh speculation engagements. Consols were fairly steady and improved at the close. Home rails were inclined to move downward. Americans opened weak and below parity on New York support. Union Pacific, Erle and Atchison. Topeta & Santa Fe were prominent. There was a renewed advance after the receipt of New York's opening prices, but stocks closed below the best quotations of the day. Anaconda closed at 67-16. Grand Trunk was lower on the latest traffic returns. Foreigners were subject to the influence of Russians and were heavy at first, but improved later when Russians made a notable advance. They closed easier, though above yesterday's prices. Japanese imperial 6s of 1904 were quotted at 162%.

BERLIN, Nov. 17.—Prices on the Bourse today were irregular and trading was light. Russians were slightly higher.

BERLIN, Nov. 17.—Prices on the Bourse today were irregular and trading was light. Russians were slightly higher. Americans improved.

PARIS, Nov. 17.—Prices on the Bourse today opened firm on more favorable news from St. Petersburg and the termination of the strikes at the French arsenals. The reports of an extensive Egyptian failure depressed the entire market. At the close prices were heavy. Russian imperial is were quoted at 87.20 and Russian bonds of 1904 at 511.

Wool Market.

BOSTON, Mass., Nov. 17.—WOOL—The Commercial Bulletin will say tomorrow of the wool market; Worsted and woolen milk have been buying to a considerable extent during the week. Values are steady and firm. Territory wools have sold as well as the depleted lines permitted. Staple wools continue in their strong position of months past, but clothing wools have not the demand that the former have. Half bloods and three-eighths are very scarce, and consequently demand full prices. Ohio flesces have sold moderately well and a small movement in California wools has taken place. Pulled wools are rather quiet, with recent small sales of A's and a few of B's reported. Fail California is tringing 60 to 65 cents, scoured, in the state, but purchases are not extensive. Contracting in the west by eastern dealers is at a standatill owing to the continued high prices asked by growers. The shipments of wool from Boston to date from December 29, 1904, according to the same authority, are 214,462,110 pounds, against 219,416,361 pounds at the same time last year. The receipts to date are 29,808,541 pounds, against 292,613,692 pounds for the same period last year.

ST. LOUIS Nov. 17.—WOOL—Market steady, Medium grades combing and clothing, 262,304c; light fine, 19626c; heavy fine, 1962ic; tub washed, 356115c.
