

GRAIN AND PRODUCE MARKET

Little News Comes Which Would Encourage Operation. Speculative Trade is Very Light. Although Dull, Markets Are Steady—Weather Perfect for Corn Movement and Husking—Oats Maintain Old Price Level.

OMAHA, Nov. 18, 1905. The speculative trade in all grains was at a standstill today. There was little in the news to encourage operations. Although the markets were quite steady, wheat cables did not reflect the American advance of yesterday. A correction was made in Argentine wheat, which was the basis of the week's wheat market, making the total for the week 12,000 bushels instead of 10,000 bushels.

The Liverpool market was depressed by short selling. The weather is perfect for movement and for husking, and larger receipts are expected. December closed at 44 1/2c, old December at 45c, May at 45 1/2c and July at 46c.

Oats showed a good tone, maintaining the price level despite the dull trade. The large cash business centered at Chicago, amounting to fully 1,000,000 bushels, had a bullish effect on the settlement. December closed at 23 1/2c, May at 24 1/2c and July at 25c.
