### SAY--

Are you a man? If so, do you shave yourself? Do you want a razor for \$1.00 that is guaranteed for all time to come, even against accident, breakage, a "snap" caused by dropping it? We sell the well known "Suzette" razor for \$1.00, and every purchaser is given a guarantee of perfect satisfaction so long as he has a razor. This may sound unreasonable, but what do you care if you know our razor is good, and would we afford to say this and not MAKE GOOD? You see, the man who makes this razor protects us and insists that we protect the users of his razors. That's the long and short of the story. Most men buy a razor for \$2.00 or \$3.00 and don't get a guarantee. If you want a razor for yourself or your family, get the "SUZETTE" plain razor for \$1.00, and we will guarantee it to last you a year.

### BOOSTERS' CLUB ON A TOUR

Plans for a Three Days' Trip Over Lines of the Northwestern Road.

#### FIFTY MEN NEEDED TO MAKE UP PARTY

Intention is to start Thursday morning and return Saturday evening. Stopping at Fifty Towns During Trip.

Arrangements for the second trade excursion of Council Bluffs "boosters," under the auspices of the commercial club were completed at an adjourned meeting of the executive committee yesterday afternoon. All that is needed now is fifty men to take part in the excursion, and to secure the requisite number the committee will make a canvass of the city today. If the requisite number cannot be secured the excursion will be declared off for the time being. If, however, the required number of "boosters" can be obtained the excursion will start Thursday morning and return to Council Bluffs Saturday night.

The excursion is to be over the lines of the Northwestern railroad in Western Iowa and will cover the territory north and northeast of Council Bluffs. The itinerary planned covers 100 miles and embraces over fifty towns at which stops of varying length will be made. As on the former excursion, the party will be accompanied by a band, probably Covall's.

The special train will consist of two standard sleepers, one tourist sleeper for the members of the band and a baggage car for the advertising matter, refreshments, etc., which the party will take along.

### REPORTS MUCH CURTAILED

Governor Uses Blue Pencil Before Matter Goes to the State Printer.

#### SAVES STATE CONSIDERABLE MONEY

Statistics of Attendance Upon School Show Some Surprising Facts About Ones.

(From a Staff Correspondent.)  
DES MOINES, Nov. 19.—(Special.)—This is the year for the issuing of the biennial reports of state officials and nearly all have now been published and distributed. Heretofore state officials and commissioners have varied with each other in the size of the reports they have issued. There seems to have been a feeling that the issuing of the reports was the opportunity for the department to make a showing and everything possible was put into the report. It was learned today that Governor Cummins this year took the matter somewhat in his own hands and as the reports were delivered to him to be sent to the state printer he took occasion to eliminate a lot of matter that was considered irrelevant and of no particular interest to the public and of no value except to make the report look big. It leaks out that a number of state officials and appointees were shown where they could save the state a good many hundred dollars by eliminating whole chapters.

**Allegation of Fraud.**  
The hearing on the application of J. J. Stewart, administrator of the Thomas O'Brien estate, for authority to dispose of the interest owned by the estate in the Perry-Chester Consolidated Mining company is scheduled for Tuesday in the district court. It is understood that Administrator Stewart has received one or more offers for the purchase of the property, and these will be made public at the hearing today.

**Burglars Secure Little.**  
The store of the Herman Grocery company at 517 South Main street was broken into Saturday night. Indications are that it was the work of boys, as only twelve pennies from the cash drawer and a small quantity of smoking tobacco was taken. The thieves attempted to get into the store through the cellar, the window of which they broke, but they could not force the door leading from the cellar into the store. They succeeded, however, in forcing the back door open.

**Crook Holds Up Jailer.**  
SIoux CITY, Ia., Nov. 19.—(Special.)—Joseph Lynch, alias "Yorky," a crook of national reputation, who with George Parker, another notorious crook, is in jail at Wakefield, Neb., for blowing a safe in a saloon, held up the jailer Monday night, and the doctor who dressed his wounds, and had he been physically able could have completed his escape. Lynch simply snatched a pistol out of the pocket of one of the officers and then stood all of them at bay until their hands in the air. Lynch was shot in a posse's chase after him and his companions. Parker is accused of being a member of the gang which murdered Policeman Meyer in St. Paul some time ago.

**Wife Makes Him an Allowance.**  
SIoux CITY, Ia., Nov. 19.—(Special.)—H. S. Crohans of Correctionville, Ia., gets \$10 a month for "pin money" from Mrs. Crohans. In an action in the district court the Sioux Valley justice has been prompted to locate certain properties with a view to attaching the same for the collection of a judgment. Crohans testifies that his wife owned all the family property, and in reply to the attorney's question as to how he paid his own current personal expenses, his wife allowed him \$10 a month. Mrs. Crohans confirmed her husband's statement.

**District Court in Harrison.**  
LOGAN, Ia., Nov. 19.—(Special.)—The November term of the Harrison county district court will convene here Tuesday with Judge O. D. Wheeler of Council Bluffs presiding. The grand jury will convene on the same date and the petit jury on November 26. The bar docket has just been issued and contains 32 cases, approximately as follows: Seventy-five equity, 119 law, 35 probate and twenty-three criminal.

**Church Selects Building Committee.**  
MISSOURI VALLEY, Ia., Nov. 19.—(Special.)—The building committee of the Methodist Episcopal church has been selected as follows: J. M. Williams, chairman; C. S. Hoar, C. P. Brandriff, G. N. Goodrich, H. B. Coo and P. W. Myers.

**Like Wild Animals**

discussion of shade trees along streets and highways by A. T. Erwin, Elmer Reeves and T. C. Momet. In the evening of the second day there will be a meeting at which there will be an annual address by the president and addresses by other expert tree men.

**Favors Camp Ground.**  
Adjutant General W. H. Thrift, in his report to the governor, which will be filed in a few days, will not accept the recommendation of Inspector General Prine that the permanent camp grounds be sold and the encampment held in a different city each year. The grounds were purchased from an appropriation made for the purpose at the last session of the legislature and to ask the very next legislature to sell them, Governor Thrift thinks improper and ill-advised. He will not ask the next legislature for an appropriation to improve the grounds, believing the Guard is more in need of other things. He will recommend that a legislative committee be appointed to inspect the grounds with a committee of Guard officers and that the legislature to meet in January, 1907, be asked to make appropriations on the recommendation of the legislative committee. He will order the Guard next year to assemble for maneuvers, each regiment to be given a five days' march across country, instead of going into camp for five days.

**See Want Ads Are The Best Business Boosters.**

For this reason the reports as they appear this year are considerably abridged, but it is hinted that this is only the beginning of the matter and that another year the reports will have to be made very much more condensed and abridged than the limit. It is not improbable that the legislature will be asked to look into the matter and abolish the present system of publishing reports and publish but one volume each year, giving in a condensed form the information of vital interest to the public. Under the present system there are 1500 copies of each report delivered to the state binder and when all reports are in they are bound together, making eight large volumes. These are furnished to state officials, members of the legislature and public libraries and it is claimed that they are merely put away on shelves and never looked at. An inquiry into the cost of the publication of the reports shows that it costs the state something like \$20,000 a year, and then most of the reports are of such a nature that they are of little value to the public. It costs \$7,000.00 during the last two years to bind 1500 sets of eight volumes each of the Iowa documents. It is believed that \$10,000 a year would more than pay for the publication of one volume that would answer the purposes of the public much better than the present ponderous volumes.

**Children Do Not Attend School.**  
Prof. W. R. Patterson of the State university, who has done the expert work on the state census, has completed the statistics as to the attendance of children at the public schools of the state, which shows that of the age from 5 to 10 years there were but 44 per cent of the school children of the state in school nine months of the year. There were 47.9 per cent of the same age who were in school from six to nine months, 14.1 per cent in school from four to six months and 7.7 per cent less than four months. The figures were a surprise to school men and to Prof. Patterson. At that age when the child is supposed to have little to do except go to school it was expected that much more than half would be in school the full nine months of the year. For the ages between 5 and 10 years there is little difference in the per cent of attendance of the girls and boys, but of the ages between 18 and 21, 58.1 per cent of the girls attend school nine months and only 28.2 per cent of the boys. Of the ages between 10 and 15 years there are 62 per cent of the girls in school nine months and only 41.1 per cent of the boys. Of the ages between 15 and 18 there are 25 per cent of the boys in school less than four months and 10.5 per cent of the girls in school less than four months. The total number of children in the state of school age is 229,658; between the ages of 5 and 10 years, 182,617; between 10 and 15 years, 219,254; between 15 and 18 years, 28,788. There are a few more boys than girls of each age. The per cent of attendance on school for the various periods was as follows:

Ages	4 mos. 6 mos. 9 mos. 12 mos.
Less than 4 to 5	4.7 14.4 27.9 45.0
5 to 10	44.0 57.2 62.7 69.9
10 to 15	18.6 17.3 17.1 47.0
Total	4.5 9.8 35.8 48.1

**Girl's Body Found in Lake.**  
The body of Miss Cora Martindale was found this afternoon in Dean's lake, at East Twenty-first and Court avenues. The girl had been missing since October 28. There was some question as to her sanity at the time of her disappearance, the girl being taken with unusual religious fervor.

**Park and Forestry Meeting.**  
The program for the annual convention of the Park and Forestry association was announced today. The convention will be held December 11 and 12 in connection with the meetings of the State Agricultural society and the State Horticulturists. The meetings will be in the afternoon for the Park and Forestry people. The first afternoon there will be a conference of the executive committee, reports of the legislative committee and other committees and the election of officers. The afternoon of the second day there will be discussions of how to plant a ten-acre lot to trees, as seen from various standpoints, by H. P. Baker, R. S. Blomquist, J. E. Trigg and others; a discussion of landscape architecture and sanitation of the farms by A. V. Carpenter and Dr. T. Klein, and a

**Great Western**  
Extra Dry

Not only have we the perfect art of making Champagne, but also conditions of soil to produce fruit of certain peculiar, spicy, yet mellow qualities. The soil is the first requisite. Rheims, of New York, (the scene of America's oldest and most carefully cultivated vineyards) produces grapes equal to the famous Rheims of France—hence, Great Western, the only American Champagne acknowledged by experts to equal the foreign product at half the price. The cost of the wines is the same—the duty makes the difference in the price you pay.
