ROOSEVELT TALKS ON FOOT BALL

### President Recommends Changes Eliminate Brutality.

Filminate Brutanty. PHILADELPHIA, Pa., Nov. 30.-Dr. J. William White, professor of surgery at the University of Pennsylvania and a member of the university committee on athletics, returned tonight from Washington, where he had been summoned by President Roose-velt to discuss matter's relating to foot ball. In an interview tonight Dr. White said?

"The president did me the honor of ask-ing me to lunch with him at the White Honze today for the purpose of discussing with him the situation as to American foot ball. An article of mine published in last week's Outlook was the occasion of the invitation. As to what took place dur-ing my visit the president has permitted me to say that we are in complete accord as to the need of the permanent abolition of brutality and four play. The president said:

brutality and fout play. The president "Brutality and foul play should receive the same summary punishment given to a man who cheats at cards, who strikes a foul blow in boxing. The umpire must have the widest latitude in enforcing this principle, even to the extent of ordering not only individual players, but whole teams off the field and college presidents should hold to the sharpest accountability the umpire who permits foul or brutal foot ball in any game. We want simple rules, not complicated rules, because complicated rules offer too many loopholes. The re-sponsible authorities of the several colleges whose teams play together should have ment among themselves that these rules shall be enforced in spirit as well as in letter, euch being hold responsible for what goes on in his own college and each seeing to the removing from the game, not only of the foul and brutal player, but of the man who is not a bona fide student and an amateur. It would be a real misforture man who is not a bona lide student and an amateur. It would be a real misfortune to lose so manly and vigorous a game as foot ball and to avert such a possibility the college authorities in each college should see to it that the game in that colege is clean.' "The president spoke more than once o "The president spoke more than once of the desirability of continuing the game and of extending to as many as possible its advantages with the safeguards already mentioned. He said that the five or six leading colleges should get together and agree to play one another under such an agreent as he prescribed. "He also spoke of the far greater rela-tive danger of many other sports and pas-times, some of which he enumerated. He showed characteristically keen interest in and therough acounting and thorough acquaintance with the whole subject."

those who got into the waiting line at 250 in the morning were still anxiously wait-ing at 1 o'clock in the atternoon for the much desired little pasteboards. Tonight, when the last taket had been disposed of, there were still thousands of persons chamoring for sears which they will be unable to obtain. Arrangements have been mide by the official's of the game to seat 5.000 persons and, as 10,000 thekets for standing room will be put on sale, the prospects are that all records for attend-ance at a foot ball game in the middle west will be broken. **REDS PLAN ANOTHER STRIKE**

### **Sporting Breveties.**

Several games have been decided one way or the other by the kicking of a goal, during this fall. Baker's good right won for the Commercials from the soldlers Saturday. Commercials from the soldiers Saturday. The game between the Cornhuskers and the Hilnois team should be about an oven thing, judging by scores, but scores do not always tell the tale, and the rooters at Lincoln are still ready to back their team exainst Huff's warriors.

regainst Huff's warriors. The open game is still to the front in football and Yale's big score Saturday against Princeton is an evidence that this style of game is best. Yale hud the lighter team and won by more open tactics. Mich-igan won by more bruising football, but then Yost has a team of giants such as no other coach probably will be able to get together for some time. They are not only glants, but speedy glants.

The triumph of the open game would be complete if Stagg happens to win from Yost Thanksgiving day. Stagg is relying upon Eckersall and the open game. By this he wen from Wisconsin, and is considered by some to have a good chance at Michigan. Stagg has been sending out reports he has not done much since the Wisconsin game. sending in sub-backs against Illinois Saturday

day. Rarely, if ever before, has a football team stood so provinently in the limelight as the Yale team has been considered a cinch for the honors of the east and the signal defeat of Princeton carried out that idea. The New Haven players were whipped into shape early in the season and the players improve with each contest. Judging from past performances the sons of Old Ell should have little trouble with the wearers of crimion of Harvard. Phil king is the cause of the establish-

Should have fittle fubble with the weaters of crimison of Harvard. Phil King is the cause of the establish-ment of hero worship at Wisconsin, and if ever students of a big university have in-dulged in that practice they are surchy doing it now at Madison. After losing for three years King has returned as the Moses to lead them out of the wilderness of defeat. In fact, the whole city of Madison is at his feet. Even though losing to Mich-igan and Chicago, still the rooters all real-ize he has brought a Wisconsin team from practically nothing, won the Minnesota game and brought Wisconsin again to be recognized as the legitimate rival of any ecognized as the legitimate rival of any team in the west.

Every day brings new reports about the introduction of the socker game of football in the various big cities, and it looks as

### Watching Zemstvo Congress.

The struggle in progress in the Moscow zemstvo congress is watched with intense nterest. The main question to be decided is whether the zemstvoists will co-operate with the government and on what terms. The test probably will come upon the resolutions to be offered by M. Nemiroveski, mayor of Saratoff, and M. Kucheroff, mayor of Kharkoff. proposing co-operation with Count Witte in the general pacification of the country and the introductions of the reforms with the understanding that the national assembly will work out the details. The men who are making a fight on the necessity for supporting Count. Witte urge that unless the country is tranquilized the government will be forced to return to redctionary measures. From the dispatches received, however, it is likely that even if the radical wing is outvoted considerable guarantys will be demanded as the price of co-operation of the zemstvoists.

It is significant that delegate to the temstvo who presented himself as the representative of the Jewish population of Vilna, Lithuania, was excluded.

Many liberals here believe that the con gress is sure to result in a split and that the radical wing standing on its insistence upon a constituent assembly and universal suffrage will refuse all connection with the government. The plan loudly discussed by the congress into a constituent assembly appears to have fallen through.

While no information has been received in the various big cities, and it looks as though the recent invasion of the sport will gain a strong foothold in America. This game is more open than the old game and spectacular plays abound, and this is what the spectacular plays abound, and this is unacqualified with the present game. The game undoubledly will prove a great at-traction for athletic clubs and minor col-leges. But it will hardly be able to supplant the present game in the larger colleges. Miss Louisa B. Poppenheim, correspondng secretary of the General Federation of Women's Clubs, with her mother and sister, was the guest of the Society of American Women in London at a tea during their recent brief stay in London. It is said that Miss Poppenheim is much interested in the plan of the society to establish scholarships in English universities for American women and has promised her personal co-operation in bringing the plan before the General Federation of Women's Clubs at the St. Paul Biennial. Miss Poppenheim has had an active part in the educational work of the Federation and feels that there is need of some in-

ternational educational system, but any one informed regarding the General Federation can hardly credit that any of its officers, however enthusiastic over educational matters, could seriously urge upon the Federation the obligation that the American Women in London would have it assume.
