

The Dynamo of the American People

We are a race of workers.
Work requires brain, nerve, energy.
We glory in achievement.
To work and work with might and main, good food is absolutely essential.

Although nearly every one eats soda crackers sometime, yet there are a few people who do not consider their true value as an article of daily food. But it is now a recognized and established fact that the soda cracker contains the most tissue, fat and muscle forming elements of any article of food made from flour.

Great as is the value of the common soda cracker, yet it is small in comparison with **Uneda Biscuit**—the most wonderful soda cracker ever baked, and of which nearly 400,000 packages have been sold.

Uneda Biscuit, the food of power, transmitting as they do the elements so vital to our well-being, may in very truth be called "The Dynamo of the American People."

CASTRO BROUGHT UP TO DATE

Discharged Employes Veneuzelaize Office of Barber Asphalt Company.

FURNITURE SMASHED, RECORDS BURNED

Police Reach Scene Too Late to Prevent Destruction, but Perpetrators Are Located and Placed in City Jail.

The office of the Barber Asphalt company's plant at Fourth and Jones street was completely wrecked at 7 o'clock last night by a couple of disgruntled employes. A telephone call at that hour warned the police that a riot was in progress, and when a patrol force of officers arrived on the scene they found that every window in the office had been smashed. The telephones were torn from the wall, all the desks and chairs were wrecked. The records had been thrown into the furnace. Kerosene had been thrown all over the walls and an attempt had been made to upset the stove. The stovepipe was down and the room full of smoke. Had the stove been overturned the building would surely have been destroyed by fire, as all the walls and the floor had been drenched with coal oil.

After looking some time a colored man appeared on the scene and he was closely questioned. His answers were not satisfactory and he was placed under arrest for further examination. The officers searched the neighborhood and picked up a man in a saloon at Ninth and Jones. Later Detectives Drummy and Dunn arrested another man. A straight tip came in from the Northwestern hotel, which led to the arrest of the chief actor in the mole. This was C. F. Cogswell of Des Moines and when arrested by Officer Dunn he was making haste to get back to his home town. He is believed to be Frank Johnson, the negro who was picked up at the works.

Both these men came here from Des Moines to work for the company some time ago. They were discharged yesterday, it is stated by the management, because they were given to the use of too much liquor. It appears that the company had given them transportation from Des Moines with the understanding that when their contract was finished they would also give return fare. But since they were discharged for cause this item was not considered. The men went to the office late yesterday afternoon and demanded the transportation. The clerk at the office referred them to the superintendent, saying that he thought they could strike an agreement with him. This did not satisfy the two men, who went out and proceeded by liquid stimulation to get

in a mood for smashing things. They returned after office hours and wrecked the office.

Johnson is said to have thrown the kerosene on the walls and Cogswell admits burning the records in the furnace. Together they broke up the furniture and the windows. At the police station both at first denied having anything to do with the affair, but they soon broke down and made a full confession. The other two men suspected of having some knowledge of the attack were J. C. Hatcher and H. E. Kilmer, also of Des Moines. They were later released on bonds at the recommendation of a representative of the Barber Asphalt company. They will be wanted chiefly as witnesses and it is not thought they had anything to do with the damage.

WOMAN OR WAX, WHICH?

Puzzling Bust in Hayden's Window This Week Causes a Great Deal of Comment.

Hundreds gathered in front of Hayden's 16th street store window yesterday with great interest in the display shown. Many varied were the comments heard from the throng of people assembled. The cause of the excitement is the bust of a beautiful woman resting upon a pedestal in the center of a blue cabinet. If the figure is wax, it is perfection personified; if that of a living woman, she is surely a wonder. The bust of the eye, the flicker of the eyelashes, the deep breathing, seem natural as life, yet she never smiles. No antics of the onlookers can cause a change of expression.

All the seeming from the movements of the figure is that of a woman standing the exhibition is, where is the rest of her? She is apparently only half woman. Her bust rests upon a square table, supported by a slender base, which could not in any possible way contain or conceal the lower limbs of any woman. It is interesting to hear the many and different solutions of the mystery offered by people who stop in crowds around the window. This figure may be seen in Hayden Bros' window every afternoon this week from 5 till 5 o'clock, the exhibition being under the charge of D. C. Ranger of New York, who is advertising the celebrated "Thomson's Glove-Fitting Corset."

The Ladies of the auxiliary to Clan Gordon No. 61, will give a social and dance in the new Bohrborough hall, nine-teenth and Farnam this evening. First-class musical program. Little Gladys Chandler and Jean Kennedy, Mrs. Donovan, Mrs. Pitt and others will sing. All refreshments will be served. Tickets 25c.

Amie Connelly Suit.

Upon the conclusion of the trial of the case of Jones against the Union Selling company now in the federal court, the case of Amie Connelly against the Convent of Mercy of Omaha, will be taken up for trial before a jury. Suit is brought by the plaintiff against the Convent of Mercy for \$20,000 damages, alleged to have been sustained by her while employed in the convent. The suit has been pending in the court of Douglas county and in the United States circuit courts for nearly two years.

Surprise by Friends.

A party of friends sprung a surprise on George Seay of the district court clerk's office Monday night at his home, 2711 Jackson street. It was the recurrence of a birthday, but which one the callers did not exactly know. Those who broke in on Mr. Seay were: Messrs. Joslyn, Dermody, Aitchison, Rine, Morton, Mortary, Berryman and Dr. Ward. The evening was spent socially and incidentally the visitors dined of a real Dutch lunch. When they left Mr. Seay was the possessor of a fine meerschaum pipe.

AT THE PLAY HOUSES

"The Grafter" at the Krug.

Hap Ward had his wife, Lucy Daly, for a partner this season, and it is violating no confidence to say that the wife is the big end of the show. What Hap Ward does in "The Grafter" might be left out, and little harm would be done the show; but if Lucy Daly were to be disabled the scenery would have to go to the warehouse. The only riots started at the Krug last night were those incited by her twinkling toes and flashing heels. That little woman certainly can dance. And she is supported by an acrobatic set of young women and some men who can also dance. The chorus is not so numerous as some that have crowded the Krug stage, but is good to look upon, and in the matter of costumes it offers ample opportunity for the student of anatomy. "The Grafter" is a nonsensical hodge-podge in which several persons of more or less capacity as comedians take part and fill in the time between Lucy Daly's dances very acceptably. The engagement ends this evening.

IMPORTANT BUSINESS DEAL.

Omaha Concern Makes an Important Purchase.

The Nebraska Clothing company has during the last two weeks closed several of the most important clothing deals ever known in the territory west of Chicago. They purchased from four of the most noted wholesale tailoring concerns in this country their entire surplus stocks of men's fine suits and overcoats, involving several thousand garments. The prices paid for these stocks were less than manufacturers' cost. These wholesale tailoring concerns are known to the finest dressers. A greater part of their woolsens for this season's business were imported from famous European looms. Every suit and overcoat they make will pass for garments made to measure in the most select and critical circles—even at a merchant tailors' convention. These immense purchases arrived several days ago and are being arranged in our clothing department preparatory to the inauguration of the greatest mens' clothing sale the middle west has known. We have set Saturday, November 25, for the opening days of this sale.

Fire Poles Painted Red.

The Nebraska Telephone company is painting a bright red the telephone poles upon which are located the fire boxes. This is being done at the request of City Electrician Michaelson. The object is to assist people in locating the fire boxes, as is claimed at night they will loom up like the Aurora Borealis in the sky. The department arrived before any serious damage was done.

LOCAL BREVITIES.

W. L. Nichols, Twenty-fourth and Sprague streets has secured a permit to erect a frame dwelling to cost \$2,000. Abe Redmond, 119 North Tenth street, is in jail for beating his wife last night. He has just been released from jail for a similar offense.

A newsboy yesterday found a round trip ticket from Omaha to St. Mary's, Bismarck by the boys.

Frankie White was arrested last night as a fugitive from justice. She is wanted by the Chicago police for the theft of some robes and clothing. She is in the "Arade," on Ninth street.

A small fire occurred at Fourteenth and Howard last night in the saloon of Charles Hoffman. It was caused by the stovepipe slipping out of the chimney. The department arrived before any serious damage was done.

A force of workmen is busy putting in a new maple floor at the Auditorium. Manager Gillan says the floor must be laid in time for the season's play, November 25. If all goes well, the Auditorium will be opened for roller skating on Thanksgiving night.

Officers have arrived from Milwaukee and also from Chicago. The Milwaukee authorities want H. T. Partington, who was arrested here. He is a fugitive from justice, charged with life abandonment. The Chicago officer, James W. Bell, will take Partington Bertha Liebeck to that city for trial.

F. W. Shotwell, secretary to Congressman Kennedy, left last night for Washington, departing early so as to visit his old home at Central Park, O., before arriving at the capital, preparatory to the opening of the congressional session. Kennedy plans to leave for Washington about the last of the month.

GOVERNOR ON EXTRA SESSION

Chief Executive Recognizes Urgent Need for Changing State Constitution.

MAY RECONVENE LEGISLATURE IN WINTER

Beside Amending Organic Law, Advocates Necessity of Freight Rate Regulation to Complete Overthrow of Corporation Rule.

"The state constitution must be amended. The state has outgrown its provisions and the time has come when a change is necessary. I recognized that fact last winter when I submitted a number of amendments to the last legislature, but they were defeated."

Thus did Governor Mickey voice his sentiments Wednesday morning when asked whether he would call an extra session of the legislature to submit amendments to the constitution at the next state election.

"Whether I shall call the extra session I do not know at this time," said the governor. "Some of the best men in the state have suggested to me that this would be the wise course, while others are not so sure. Something must be done however, for the state at large is suffering because of our narrow constitution. I am seriously considering the matter and I may call the extra session, but I cannot say anything definite now."

Many Changes Needed.

"We need amendments to the constitution which will give us five supreme court judges and do away with the commission; and by all means the system of investing the permanent school fund should be changed so other securities could be bought. There was a number of other amendments which I urged upon the last legislature. I have talked with a number of the legislators and many of them seem to think a constitutional convention would be the only method by which the needed changes could be brought about."

There are other things which should be considered if an extra session is called, among which is a freight rate law. But the question naturally arises, could we expect the legislature as constituted now to give us those things which it has once refused us? The next legislature I am satisfied will be pledged to these reforms before it is elected. The indignation of a people against railway domination cannot be appeased with promises any longer. Radical changes must come. The next legislature must be composed of men who will look to the interests of the people and not serve the corporations. I believe that is the kind of legislature Nebraska will have. That is a reason why I hesitate about calling the extra session. I expect much from the next legislature."

Escaping the Railroad Yoke.

"There is no question in my mind but that we are coming out from under the railroad yoke. The attorney general is confident he will win the railroad tax suit. If we lose in the lower court it will not injure the state's case in the least, but on the other hand, it may help us, because if Brown loses out he will hurry the case to the United States court and get a speedy decision. Should the railroad lose, then they will take the full two years to get into the higher court, and all during that time their taxes will be tied up. Of course this will hurt many of the school districts in the state, but in the long run it will be of the greatest benefit to Nebraska. It will mean the everesting overgrowth of railroad domination. I think I know the temper of the people, and if the roads enjoin their 1905 taxes, which they probably will do to be consistent, then the storm is sure to come which will sweep Nebraska back into the hands of Nebraskans and out of the railroad grip."

Strong Men Will Be Needed.

"It will be necessary for the republican party to nominate strong men on its state ticket next fall, for the people will not stand for any candidate who is under the domination of the railroads and other corporations. It is that of our effort to lose the ground it has gained. The republican party must nominate men who will stand by the party platform and carry it out, and not men who will promise and do nothing."

In the course of his remarks the governor took occasion to express gratification at the enforced dissolution of the Grain trust and added:

"But that will not stop the prosecution."

WINDHAM PREFERS CONVENTION

Advocates This Method to Amend Constitution—Sheldon for Governor. Representative Windham of Cass county, who practically refused the nomination for congress in the First district to succeed Senator Bushnell, is here to attend the State Bar association meeting.

"We certainly need a change in our state constitution," said Mr. Windham, "but I am of the belief the best way to get these changes is through a constitutional convention. I just make this statement without stopping to give my reason. In the last legislature I introduced a number of amendments and also a call for a convention, but they were all lost in the senate."

"No, there is no talk about candidates out in our country except that we expect

THE VALUE OF CHARCOAL.

Few People Know How Useful it is in Preserving Health and Beauty. Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking, drinking or after eating onions and other odorous vegetables.

Charcoal effectually clears and improves the complexion, whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and throat from the poison of catarrh.

All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges. They are composed of the finest powdered willow charcoal and other harmless antiseptics in tablet form, or, rather, in the form of large, pleasant-tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is that no possible harm can result from their continued use, but, on the contrary, great benefit.

A business physician, in speaking of the benefits of charcoal, says: "I advise Stuart's Charcoal Lozenges to all patients suffering from gas in the stomach and bowels, and to clear the complexion and purify the breath, mouth and throat; I also believe the liver is greatly benefited by the daily use of them; they cost but 2 cents a box at drug stores, and although in some sense a patent preparation, yet I believe I get more and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets."

The banquet given by the Young Churchmen's association of St. Mathias' Episcopal church at Tenth and Worthington was attended by about 250 young men and boys, who were as full of spirits as it is possible for boys to be. There were five long tables filled, each with fifty or more members.

SHAKESPEARE SONG CYCLE

Opening of the New Lyric by David Blapham and a Quartet.

The new Lyric theater at Nineteenth and Farnam streets is to be opened tonight by the first of the series known as the Chase concerts, for which a large subscription seat sale has just closed, only a few seats remaining unsold at Hoop's. The program will be Grace Walsall's ingenious Shakespeare song cycle, sung by Mr. David Blapham, the famous baritone and a distinguished quartet. The Shakespeare Cycle, a musical setting of the beautiful sonnets of the Avon bard, had its first presentation last year, when Blapham and Madame Johanna Gadske offered it in New York and Chicago. The first song last year by Mrs. Gadske will be essayed here by Madame Shotwell-Piper, whose fresh, dramatic voice has received great praise. Associated with Blapham and Madame Piper are Kelley Cole, tenor. The accompanist for the cycle will be Ethel Cave-Cole, a young English musician of unusual attainments.

The Amen of marriage is always a baby.

While the majority of cases of wedlock is a summer field that blossoms in a flower that never without starts, a sermon without a benediction, a prayer without an Amen.

The never was a husband worthy of the name, who did not aspire to be the father and the grandfather of healthy, capable children, to hand down his name and the fortune accumulated by the sweat of his brow, from generation to generation. There never was a wife fit to bear that noble title, who did not wish to wear womanhood's most glorious crown, the sceptre of motherhood. Thousands of wedded couples, otherwise happy, fall short of wedlock's greatest happiness because they are childless. In the majority of cases this is because the wife, through ignorance or neglect, suffers from weakness and disease of the organs distinctly feminine. It is one great medicine that does not fail to accomplish its purpose. It is Dr. Pierce's Favorite Prescription. It acts directly on the delicate organs concerned and makes them strong, healthy, vigorous and virile. It always invigorates, heals the shattered system, and tones the shattered nerves. It is fit for wifehood and motherhood. It quickens and vitalizes the distinctly feminine organism. It banishes the maladies of the expectant months and makes baby's introduction to the world easy and almost painless. In fact, the little new-comer's health and nourishment in plenty. It is the best supportive tonic for nursing mothers.

Mrs. Jennie Parks of Marshall, Spokane Co. Wash. writes: "I am glad to tell of the good results from your Favorite Prescription. I have no tired feeling and my baby is the healthiest I have ever had in ten years."

In cases of constipation Dr. Pierce's Pleasant Pellets should be used as an adjunct to "Favorite Prescription." They are extremely simple, perfectly natural and insure prompt and permanent relief.
