Wheat Closes Lower After Wide Range of Prices.

LIQUIDATION CONTINUES

Corn is Steady and Oats Develop Better Tendency-Reports of Damage by Frost in Argentina-Foreign Markets.

OMAHA. Nov. 22, 1905.
Liquidation continued today. The market opened strong and sold up be above yesterday. Then it weakened and selling on stop loss orders broke the market more than it. There was a final rally of about be. December closed at \$25,035c. May at \$25,035d, May at \$25,035d, May at \$25,035d, May at \$25,03d, May at \$25,00d, May at \$25,00

December closed at 25%c, May at 35%c and July at 35%c.

An Argentine cable today says the crop estimates there are being cut down on wheat, nwing to damage by recent frost. Liverpool closed \$65%d lower on wheat and unchanged on corn.

Advices were received at Liverpool of tains in New South Wales, but they are so late if is doubtful if they will be of any particular benefit. A cable from Cawapore, India, states that no rains have failen and prices have risen in seventeen districts.

sind prices have risen in seventeen districts.

Clearances were 105,000 bushels of corn.

25,000 bushels of oats, 257,000 bushels of wheat and 25,000 barrels of flour. Primary coat receipts were 1,405,000 bushels and supments 551,500 bushels and supments 561,500 bushels and supments 561,500 bushels and shipments of 400,000 bushels. Primary corn receipts were 100,000 bushels and shipments of 400,000 bushels and shipments of 504,000 bushels against receipts last year of 294,000 bushels against receipts last year of 294,000 bushels. Small receipts of wheat at Minneapolis caused buyers to advance yesterday on No. I northern to 255c over, other grades still inchanged. Buyers are not very anxious for supplies. They are looking for good recipts when Duluth closes.

A but lon corn says we are getting in a very small amount of contract corn, and if we should have any had weather there would be little or no contract corn during ine carly part of December.

From the Inter Ocean: "Liquidation has been go heavy in the past four days that the trade is beginning to think the end is near, or it will be over in a day or two. Wheat has declined 65,27% c from the top. May corn is off 4c and oats like. Prices are getting flown to where the recent bull movement started. Weak holders have been forced out. A great many of the longs have lost their profits by being too confident and letting the market slip away from them. Very few of the bears have made any money, being afraid the bulls would put up the price if they sold it on breaks."

HOGS—There was a fairly liberal run of hogs today, about 6,900 head being received, as against 12.000 for the same day last year. The receipts for the first three days of the week foot up 17,297 head, which is smaller than that for the corresponding days last week, when 18,189 head were received. The run for the first three days of this week is considerably smaller than the one for the same three days of the corresponding week last year, there being a difference of 12,923 head in favor of last year. The market this morning opened active and steady and possibly a little stronger in some quarters. It is possible that about a third of the receipts sold with the market in this condition, when suddenly the whole thing collapsed, and the market closed the day weak and lower. The market for the day will average a little lower than that of yesterday. During the early part of the forenoon the bulk of the sales were at \$4.65(\$\text{Ph.67}\text{V}\_2\text{b}, \text{ but after the sudden slump the bulk of the sales took place at \$4.62(\$\text{Ph.67}\text{V}\_2\text{b}, \text{b} \text{The top of the market today was \$4.70.

Generally speaking, the trade today was active, with \$70 text and \$10 text and \$10

Wool Market.

BOSTON. Nov. 22—WOOL—Trade has been irregular in the wool market. There continues to be a good demand for medium territory wools, Montana and Wyoming being especially active; prices are steady. A great deal of interest exists as to foreign markets because of the possible influence of serious changes there on local prices. Territories are active; pulled wools are quiet; foreign grades are firm.
