THE INCOMENTS.

BULLS.

CALVES.

Agreed by weet weather. Reports of a bills zard in the northwest, which would check the movement of wheat to market, and the prediction of a cold wave in the southwest, which might injure the fall-sown crop also tended to increase prices. In addition to these influences cash wheat was in active demand at all grain centers in the United States. The market closed strong, with prices practically at the high-est point of the day. May opened 450% of the United States. The market closed strong, with prices practically at the high-est point of the day. May opened 450% of the United States. The market closed strong, with prices practically at the high-est point of the day. May opened 450% of the day is a strong with prices practically at the high-est point of the day. May opened 450% of wheat and flour were equal to 215,000 bu. Agree to 554,000 bu. against \$50,000 bu a year ago. Minneapolis, Duluth and Chicago reported receipts of 533 cars, against toos of the strength of wheat caused considerable covering by shorts. There was also fair purchasing by commission houses. The market closed firm. May opened unchinged to \$26 higher at 46% sched way option opened unchanged to 26 highers took all of the December option that was offered. Local receipts were firm, in sympathy with other stains. Elevator interest took all of the December option that was offered. Local independence of the December option that was offered to a shade ingher at 35% took all of the December option that was offered to a shade ingher at 35% took all of the December option that was offered to a shade ingher at 35% took all of the December option that was offered to a shade ingher at 35% took all of the December option that was offered to a shade ingher at 35% to 21% took at the sold unchanged to a shade ingher at 35% to 21% took at the took at the sold unchanged to a shade ingher at 35% to 21% took at the took at the sold unchanged to a shade ingher at 35% took at the took at the sold unchanged to a shade ingher at 35% to 21% took at the took at the
