Practical Points From a Practical Business College

Being a Talk on Opportunity

Some people seem to think that opportunity has changed his clothes and his tactics with the times. They feel that if they let opportunity slip by without catching him by the forelook that they can reach out after he has passed and catching by the coat-tail.

But they're wrong. Opportunity must be grasped before it has passed. Trying to regain lost opportunities is a good deal like crying over split milk. There are hundreds of young men and young women who would give anything and would be given salaries two or three times as large as those they now receive, if they had been wise enough to have taken a business college course years ago. But they neglected to selse the opportunity. This very same opportunity is now presented to YOU by

The Opening of Our Winter Term Monday, December 4th

This is an opportunity for you to acquire a thorough Stenographic, Bookkeeping or Telegraphic knowledge. Here you will gain your knowledge of these sciences from practical instructors who know absolutely what the business world demands that its stenographers, bookkeepers and telegraphers shall know. That's why Boyles College graduates are in such demand by the business houses of the city and the railroads of the country. That's the reason why the better grade of prospective pupils make our college their Mecca. That's why it pays for young persons in a double sense to be a Boyles pupil.

The Boyles Building is the largest business college building deveted wholly and solely to business college purposes located in the entire state of Nebraska. The fact that we have been able to build up this school is eveidence enough that Boyles College has been able to please the parents of the pupils as well as the pupils themselves. Send for free catalogue and all other information.
