F. A. Nush of Omaha, president of the Citizens' Gas and Electric company of this i the weekly session of the executive committee of the Commercial club. The grievance committee of the club, to which had been referred the complaints about the gas service, was also present and the question was discussed from all points and in

Mr. Nash told the committee substan tially what he told the city council a few weeks ago. He said that when the present company took hold of the plant it was the pipes and mains were in many places rotten. Every cent the company had carned during the last five years and all the money it could obtain elsewhere, he sald, had been expended in improving the Orchestra plant by putting in new and larger mains. "I have just returned from the east," said Mr. Nash, "where I obtained \$50,000

core, and this will all be expended on imroving the service here between this and text October, by which time we expect to be able to give a service that will not cause any more complaints. I admit the people or Council Bluffs have had a grievance, sut it was not the company's fault."

Asked if the price of gas would be reduced, Mr. Nash said gas would be furnished as cheap as it could be furnished in justice to the men who had their money in the plant. Gas, he explained, could not be furnished as cheap in a city of 20,000 inhabitants as it could be in a city with a population of 100,000, Mr. Nash stated further that he would be willing to allow any committee of the Commercial club to xamine the books of the company and the company would not ask any more than the members of such committee as business men would think that it was entitled to,

Regarding the electric lighting of the city, Mr. Nash insisted that the light towers must come down. He said they had long ago been discarded in other cities and that with the follage in the residence streets here they could not furnish adequate light. He urged the adoption of thirty-two-candle power incandescent lamps scattered throughout the residence streets in their place and said that the company would be willing, under a new contract, if incandescent lights were adopted in place of the towers, to give the city a percentage of its gross earnings with which the lighting

Regarding the complaint that the power was furnished from Omaha, Mr. Nash said that if the plant was on this side of the river it would make the difference of one man. "As it is, four of our best men in the plant in Omaha are residents of Council Bluffs," said Mr. Nash.

Among the Lodges.

The various Masonic bodies of the city are planning to purchase the Mason'e temple building and with this object in view have within the last few days been buying up the stock which will be used in connection with an offer for the property. The offer of the local aerie of Eagles to pay \$20,000 for the building aroused the several Masonic lodges, as they did not them. The Eagles were offered the property for \$21,000, but declined to offer more than \$28,000. It is stated that the Masons will be prepared to pay \$22,500 for the building and it is not expected that the Eagles will attempt to outbid them.

Council Bluffs aerie of Eagles elected these officers Friday night for the ensuing year: President, T. D. Metcalf; vice presiwish to see the property pass away from dent, C. R. Nicholson; chaplain, Lee Evans; treasurer, George Davis: financial secretary, Don Bryant; physicians, C. H. Bower, M. Christensen; trustees, Frank Peterson, Tom Maloney, Frank Beebe; conductor, Jake Rink; inside guard, Al Jones; outside guard, John T. Beach.

Every beater shouted and many of thom had gongs, antiquated firearms (some of them seven feet long) or large rattles. These they beat, fired or whirled with a will, which made the jungle a perfect pandemonium. Excitement ran high and every ear was strained to catch the first snapping of a twig or to hear the footfall of the tiger or the crackling leaves. One of the coolies, flanking in a tree on my right, suddenly taught my eye. He was clapping his hands gently and throwing pieces of stick into the undergrowth below him. As he pointed I could hear a rustling and almost directly after came a double roar. The noise in the distance grew closer street car company of this and louder and in a few seconds there
