

Man's Attorney Says Woman Has Good Thing She Wants to

Judge Troup Saturday morning listened to one more recitation of the disagreeable points in the Saunders divorce case. Allce Maude Saunders, plaintiff, lives in Omaha now, while the defendant, Sherman Saunders, still resides in Bloomfield, Neb. Attorneys W. F. Gurley and T. J. Mahoney

does not wish to have her case come to an

"She has too good a thing," he said. "She gets \$150 a month and \$700 for an attorney's fee, and now she asks for \$1,000 more to enable her to look up testimony. She sets out that she thinks if she is given this money and allowed time she can produce testimony to sustain her charges against her husband. It is the most extraordinary affidavit ever filed in Douglas county. We think the delay in taking depositions and in looking up witnesses is significant of the intention of Mrs. Saunders to hold onto her good thing as long

duce the allowance heretofore made." Mr. Mahoney replied that the amended answer and cross-petition of Sherman Saunders, in which a dozen distinct charges of unfaithfulness are made against the wife, Alice Maude Saunders, has en-

asserted that to investigate these charges and interrogate witnesses will require large expense and the fee for defending should

additional \$1,000 and defendant's motion for a cutting of the wife's allowance in two under consideration until some time next

# When We Say "We'll Trust You" There's No "If" To It!

Our idea in trusting people is to make the terms to suit their every condition. We run our credit system on the same principle that you say "CHARGE IT" to your grocer or butcher. Maybe when you make your purchase you haven't the money to pay for it at once. So we say: "Let us agree on some day each month when you will pay us a little at a time until your bill is all paid." And it is easy to agree because you fix the date. Your goods are delivered at once-well, that's all there is to it! What on earth could be simpler? What could make it easier for you? In what way could we possibly demonstrate our trust more convincingly?
