Wheat Strong, with Small Increase in World's Supply.

STRONG CASH SITUATION A FACTOR

All Offerings Are Cleaned Up at Minneapolis-Volume of Trade in Corn and Onte in Small.

OMAHA, Dec. 4, 1905.
Lower cables and receipts overruning estimates caused a lower opening in wheat. Frices rose later when the world's visible was reported; owing to the small increase, which was only 985,000 bushels. The upward tendency was helped by the strong cash situation, especially at Minneapolis, where all the offerings were cleaned up. The close was about %c above Saturday. December finished at 84%c, May at 88%@8%c and July at 84%c.

Corn receipts were 773,000 bushels and shipments of \$64,000 bushels and shipments of \$65,000 bushels.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing

Prices on Board of Trade. CHICAGO, Dec. 4.-Excellent demand for

CHICAGO, Dec. 4.—Excellent demand for wheat at northwestern markets caused a firm tone in the wheat market here. At the close wheat for May delivery was up \(\frac{3}{2} \) Corn was up \(\frac{3}{2} \) Coats were practically unchanged. Provisions showed a gain of \(7\frac{3}{2} \) Diec. Outside of a slight decline at the opening the wheat market had a firm tone throughout the day. The demand was good, but offerings were rather light. As predicted Saturday, the world's shipments for the week showed a considerable increase over the corresponding time of the last report, the total movement being estimated at 13,336,000 bushels against 1,522,000 bushels ayear ago. A feature of the statisties was the liberal contribution from Russia, total exports of wheat from that country for the week being placed at over \(6,000,000 \) bushels compared with \(4,800,000 \) bushels ayear ago. Another bearish factor was an increase of \(480,000 \) bushels in the amount of breadstuffs on ocean passage. These influences were mainly responsible for the small decline at the opening.

and closed at \$2637\text{\text{sc}}e. Local receipts were 254 cars.

Notwithstanding an early decline of 569 life in the price of live hogs, the provision market was firm from start to finish. Continued liberal shipments formed the basis of the strangth shown. Commission houses and pit traders were active buyers. There was some realizing by longs and moderate soling by packers. At the close May pork was up 15c at \$13.57\text{\text{sc}}. Lard was up 7\text{\text{sc}}e 10c at \$13.57\text{\text{sc}}. Ribs were 7\text{\text{sc}}e 10c higher at \$7.20.

Batimated receipts for tomorrow: Wheat, \$55 cars down 271 cars outs 195 cars horse.

CATTLE—There was a very fair run of cattle here this morning, there being a total of 173 cars in sight as against 193 a week ago and 23 cars two weeks ago. The receipts in fact were the heaviest of any day since the 18th of last month.

The supply of beef steers consisted very largely of warmed up or half fed corn feds and there was really very little of anything that could be graded as really very good. Owing to the fact that the market was very high at this point last week buyers would naturally have been a little bearish today, but when reports were received from other seiling points indicating a sharp break in prices all along the line they started out bidding decidedly mean prices. Sellers were not prepared to let go without a struggle and the trade was a drag from start to finish so that it was late before very much business was transacted. Prices were all of 10g18c lower.
